

THE CITY OF BURBANK

YOU ARE INVITED!

In July the City of Burbank intends to apply for a federal Safe Routes to Schools grant to further enhance the bicycle route and install additional pedestrian amenities on Keystone Street from Pacific Avenue to Riverside Drive.

The goal of the grant is to make it safer for students to bike and walk to school. We encourage you to attend a community workshop to provide input and suggestions regarding how best to improve bicycle/pedestrian safety on that corridor.

Your feedback will help us to shape a grant proposal that best reflects the neighborhood's specific needs. Some of the safety tools being considered include traffic calming features like enhanced bike route signage, mini-traffic circles at intersections, sidewalk bulb-outs with high-visibility crosswalks, and/or medians to restrict turning movements. This is your neighborhood and your feedback is crucial.

Let your voice be heard! Please join us at the workshop.

WORKSHOP DETAILS

DATE: Thursday, June 9, 2011
TIME: 6:30 p.m.
LOCATION: Buena Vista Library Meeting Room
300 N. Buena Vista Street, Burbank

PLEASE RSVP TO: Rebekka Hosken, Public Works
818-238-3948
