

### Planned Signal Improvements

- Glenoaks Blvd. & Buena Vista St. - Add separate left turn phasing for Buena Vista St.
- Glenoaks Blvd. & Winona Ave. - Add separate left turn phasing for Glenoaks Blvd.
- Glenoaks Blvd. & Amherst St. - Add separate left turn phasing for Glenoaks Blvd.
- Glenoaks Blvd. & Magnolia Blvd. - Add separate left turn phasing for Glenoaks Blvd.
- Empire Ave. & Valpreda St. - Install double left turn lanes for northbound Empire Center Drive.
- San Fernando Blvd. & Amherst St. - Change signal phasing and add vehicle detection.
- Magnolia Blvd. & First St. - Change left turn operation to protected-permissive operation.
- Glenoaks Blvd. - Install adaptive traffic signal control for all traffic signals.

The above traffic signal modifications are planned to mitigate the effects of the I-5 freeway widening. The above improvements are designed and funded. Bids for construction are expected in the spring of 2013, and construction should be completed by mid-year. We plan to have all improvements completed prior to any freeway construction or lane closures. Staff will monitor traffic congestion in the I-5 area and respond as necessary to minimize congestion. Additional improvements may be necessary as the freeway work progresses. For any questions, please call (818) 238-3915.
