

we all need

for healthy, thriving and engaged communities

## CREATE THE FUTURE OF YOUR PARKS!

Does your family play basketball or soccer? Like to swim? Tennis anyone? Or just want to take a hike? Parks are critical for healthy, thriving communities.

We've taken stock of what we have—the existing parks, recreation facilities and open space—and what kind of shape they're in. Now we need to know what *you* want.

- Where do we most need new parks, recreation facilities or open space?
- Which parks need repair or expansion?
- What type of recreation is most needed?

What will make your family and your neighborhood healthy, happy and out getting physical exercise? Come to our workshop. Together, we'll create a list of thriving communities.

Light refreshments provided.

Tote bags for those in attendance.
