

STEVEN FRINTNER

Age: 57

Occupation: Parent/Film Distribution Accounting Manager

My wife and I have been residents of Burbank for over 20 years; and our 20 year old son and 16 year old daughter are products of BUSD schools. I have been an active volunteer for many years including having served as Burbank Council PTA President, and currently serving on the School Facilities Oversight Committee and on the fundraising committee for Burbank Educational Foundation. I have also been active with several BUSD committees and task forces. This exposure to multiple facets of the workings of BUSD has given me the knowledge and experience to do more.

I look to bring a fresh voice to the School Board. Specifically, I want to see equity brought to the schools in our district, to assure that students at all schools are getting the same educational opportunities and that we are creating and maintaining a safe and welcoming learning environment for all students. Lastly, while we should continue to encourage our students to strive for college preparedness, I think we also need to provide expanded vocational/career technical educational classes to prepare students who choose a different path after graduation.

I ask for your vote for the Board of Education.
