

Juan Guillen
Small Business Owner

Age:37

Wake up Burbank residents!

We are at a very critical period in our city's history. In the near future Burbank will resemble Glendale's development and traffic or even worst, the Westside. We have recently seen growth without any thought of the effects it would have on our small town. We must preserve and protect what makes us unique and not let it be sold to the highest bidder.

The value of 'service above self' was instilled in me at a young age. It is what inspired me to serve our country as a Marine, participate in Leadership Burbank, and volunteer for local organizations: Rotary, Kiwanis, Chamber of Commerce, FSA and BTAC.

As a veteran of the Iraqi war and small business owner, I have encountered many challenges and made difficult decisions, always keeping in mind the greater good of all. In addressing City concerns, my decision making process will reflect these values. Continuing with "business as usual" is NOT acceptable.

I pledge to always put RESIDENTS at the FOREFRONT of every decision I make.

I humbly request your consideration and vote.
