## ABOUT THE COVER

The City of Burbank Fiscal Year 2020-21 Capital Improvement Program (CIP) Budget book features Providence Saint Joseph Medical Center in Burbank and their doctors, nurses, and medical staff that work tirelessly to support our community and help those in need, especially during the current COVID-19 crisis. On Wednesday, April 15, 2020, the Burbank Fire and Police Departments put on a parade outside the hospital in honor of these health care heroes working on the front lines of the pandemic.

Founded in 1943 by the Sisters of Providence, Providence Saint Joseph Medical Center in Burbank provides the full range of diagnostic, treatment, care, and support services for Burbank and our surrounding San Fernando Valley communities. As the third largest employer in Burbank, their 2,500 employees, nearly 300 volunteers, and 700 -plus physicians share a commitment to provide quality care for all. From comprehensive maternity care to a state-of-the-art neuroscience institute, Providence Saint Joseph Medical Center provides the people in our community with a host of services they cannot get anywhere else in the Valley. The staff at St. Joe's works tirelessly to help patients while providing for their every physical, emotional, social, and spiritual need with the best possible care.

The City's Fiscal Year (FY) 2019-20 Adopted Annual Capital Improvement Program (CIP) Budget received the above "Excellence in Capital Budgeting" award from the California Society of Municipal Finance Officers (CSMFO). This award is valid for a one-year period. In order to receive this award, a governmental unit must publish a CIP budget which meets specific rating criteria. In preparing the FY 2020-21 Adopted CIP document, staff followed the same CSMFO criteria. This document will be submitted for consideration for the FY 2020-21 award.

## CITY MANAGER'S CIP BUDGET MESSAGE

To the Honorable Mayor and Members of the City Council,
On behalf of City Staff, it is my privilege to present to the residents of the City of Burbank the adopted Capital Improvement Program (CIP) budget for Fiscal Year (FY) 2020-21. Each year, the development of the City's Capital Improvement Program represents a series of challenges and difficult decisions required to adequately fund the City's infrastructure needs to the level that the residents of this City have come to expect. This year was no exception. In the midst of unprecedented times, the City Council approved this budget, which will fund street improvements, traffic mitigation measures, utility projects, and park improvements, as well as a variety of other citywide capital projects.

In early 2020, City Staff and the City Manager's office had prepared a Proposed FY 2020-21 Budget that would meet the needs of the Burbank community, yet remain balanced in all five years of the General Fund Financial Forecast. Then in March, everything changed with the emergence of the COVID-19 pandemic. While financial concerns take a back seat to the health and safety of our community members and City staff, the City's revenues and expenses will most certainly be impacted by this crisis.

Without knowing how long the Safer at Home (currently revised to the "Reopening Safer at Work and in the Community") Order (Order) will continue, nor how long it will take for businesses, financial markets, and life in general to return to "normal," it is difficult for Staff to predict the financial impact of this pandemic to the City of Burbank. However, the City's Charter dictates that the City Council must adopt a budget prior to June 30 of each year. Thus, the City Council adopted a "workload budget" to maintain the City's operations into the new fiscal year. A workload budget is essentially a repeat of the current year budget, with adjustments for contractual obligations such as MOUs or multi-year contracts, State or Federal mandates, internal service fund rate adjustments, scheduled equipment replacement, and necessary one-time expenditures. As the year progresses and both the short-term and longer-term economic impacts become clearer, staff will take an amended budget to the City Council for consideration.

The magnitude of the financial repercussion of the COVID-19 pandemic remains largely speculative. At this time, we estimate the General Fund revenue loss in FY 2020-21 to be in the range of $\$ 15-\$ 20$ million. To address this operating gap, the City will need to make tactical decisions involving appropriate use of City reserves, cost reductions, and alternate service delivery methods. Already in effect, a modified hiring freeze has been implemented, limiting new hires to critical positions requiring City Manager approval, and City departments are working on identifying ways to reduce the cost of providing their most needed services to the community.

The fiscal discipline that the City of Burbank has maintained and actions taken by this City Council (such as strengthening City revenues, paying down pension liabilities, working with labor groups to implement equal cost sharing of pension costs, and fully funding financial reserves), afford the City the opportunity to be strategic, and not just reactive. By choosing this approach, we protect our community from unintended or unnecessary consequences and become part of the solution working to restore stability for our residents and businesses.

## CITY MANAGER'S CIP BUDGET MESSAGE

## CIP BUDGET OVERVIEW

Although the Capital Improvement Program (CIP) Budget document is developed in conjunction with the operating budget, it is submitted separately to provide more detailed information for each of the 295 capital projects taking place within the City of Burbank. The document itself is a cooperative effort among City staff responsible for their respective projects. Major capital improvements can often be complex projects requiring several years of strategic planning, design, funding, and ultimately, construction. The CIP is a five-year program designed to tie the planning of capital improvements to realistic, reliable funding sources to ensure that both planning and implementation of such projects are balanced with available resources.

On October 30, 2018, the Council adopted the Infrastructure Maintenance Repair and Improvement Funding Commitment Policy, directing half of the Measure $P$ sales tax revenue to be dedicated to infrastructure while maintaining the current annual General Fund investment of $\$ 4.7$ million. Additionally, the new Infrastructure Oversight Board (IOB) was established to make recommendations regarding infrastructure plans and projects, and staff looks forward to working with them on future CIP Budgets. Similar to the General Fund, Measure P sales tax revenues will most certainly be impacted by COVID-19, and in light of this fact, the adopted budget includes only minimal capital spending in the Municipal Infrastructure Fund. All FY 2020-21 Capital Projects and Programmatic Capital appropriations originally proposed and presented to the IOB in January and February of 2020 were removed from the budget, with the exception of the Citywide Street Paving program and Park Irrigation program, both of which provide long-term savings to the City. Capital projects in certain Special Revenue Funds were also removed or shifted to other sources of funding if projected fund balances could not support these appropriations. Maintenance budgets within the Infrastructure Fund remain the same as the prior year so that staff can continue the proper care of the City's existing facilities and avoid future costly repairs. Similar to prior years, all existing capital projects were carried over as part of the budget adoption process, so that staff can continue to make progress on current projects already in various stages of activity.

Of the City's total budget for FY 2020-21, approximately 7.9 percent is appropriated for Capital Improvements. The multi-year Capital Improvement Program totals $\$ 590$ million, including FY 2020-21 appropriations of $\$ 53$ million and prior year appropriations of $\$ 240$ million. Included in this year's total is over $\$ 2.6$ million in grant funds the City anticipates receiving in FY 2020-21. Approximately $\$ 297$ million in future year appropriations will be required to complete all of the projects included in this year's Capital Improvement Program Budget.

Chart 1: City of Burbank Budget - Fiscal Year 2020-21
Total Citywide Appropriations: \$670,103,816

## CITY MANAGER'S CIP BUDGET MESSAGE

## General Fund

It is difficult to review the City's FY 2020-21 Adopted Budget without first discussing the magnitude of the impacts of the COVID-19 pandemic on the City's finances, beginning with the General Fund. While much of the General Fund revenue for the fourth quarter of FY 2019-20 has not yet been reported, staff is estimating a loss of approximately $\$ 11$ to 15 million in revenue for this quarter. Declines are anticipated in Sales Tax, Utility Users Tax (UUT), Transient Occupancy Tax (TOT), Service Charges, Transient Parking Tax (TPT), and Parking and Traffic Fines. More detail on the City's General Fund revenue projections is contained within the City of Burbank FY 2020-21 Operating Budget document.

It is challenging for Staff to predict the pace by which the City's revenues may recover from this crisis. The most immediate factor impacting revenues is the duration of the County Order and the extent to which everyday life will resume once the order is lifted. It is safe to assume that revenues will be slow to bounce back, as the economy will not immediately return to its "pre-COVID" level of activity. The rapid rise in unemployment combined with significant declines in the stock market and a massive strain on the Country's healthcare system will most certainly lead to a longer-term economic recession, from which a timeline for recovery is difficult to predict.

While staff initially proposed a number of new General Fund appropriations and service enhancements early in the budget process, the workload budget as adopted contains no new recurring increases to expenses unless they are contractual obligations, critical items necessary for the continued operations of the City, or items that utilized restricted funding not available for general uses. Examples include the increase to funding for employee education reimbursement, the use of Art in Public Places Funds to continue the utility box beautification program, and several IT projects that were deemed necessary to meet legal mandates or provide security protection for the City's network and financial systems.

The FY 2020-21 revenue and appropriations contained within the adopted workload budget projects a recurring balance of $\$ 5,689,208$ in FY 2020-21. However, this is prior to adjusting revenues to reflect the current economic situation. Factoring in the revised anticipated ending balance from FY 2019-20, required contributions to reserves and adopted one-time appropriations, including the second year of the multi-year pension funding plan, staff is expecting an available balance of $\$ 2,941,558$ in the General Fund at the end of FY 2020-21. While the workload budget as adopted does not assume a recurring deficit for FY 2020-21, those numbers are certain to change once the full financial impact of the COVID-19 pandemic is realized.

## State and Federal Responses to COVID-19

## Available Financial Resources for Local Agencies:

In response to the COVID-19 pandemic, Governor Newsom signed emergency legislation on March 17, 2020, providing up to $\$ 1$ billion in funding to help California fight COVID-19. On March 22 ${ }^{\text {nd }}$, California received a presidential Major Disaster Declaration to bolster California's COVID-19 emergency response efforts by providing federal funding to state and local governments for emergency protective measures. The Federal declaration enables the Federal Emergency Management Agency (FEMA) to reimburse for activation of the Emergency Operations Center, materials (such as face masks and personal protective equipment), and overtime personnel costs for safety. The City of Burbank sent in the initial application for FEMA funding (California COVID-19; EM-3428) on March 31st. The Bureau of Justice Assistance (BJA) is seeking applications for the Coronavirus Emergency Supplemental Funding Program (DOJ-BJA COVID-19) to assist eligible states and local governments in preventing, preparing for, and responding to the Coronavirus. The City is eligible to receive $\$ 46,941$ and submitted an application in May. On March

## CITY MANAGER'S CIP BUDGET MESSAGE

$27^{\text {th }}$, the President signed the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) directing the U.S. Department of Housing and Urban Development (HUD) to immediately allocate $\$ 3.064$ billion to help America's low-income families and most vulnerable citizens. Using existing grant formulas and through its Community Development Block Grant (CDBG) Program, HUD has awarded the City of Burbank $\$ 614,764$. The funds will be used to provide emergency rental assistance for Burbank residents as well as providing forgivable loans to small businesses who comply with the program guidelines. As part of the State's share of the CARES Act funds, the State will allocate $\$ 275$ million to cities with a population of less than 300,000 on a per capita basis. The City of Burbank is expected to receive $\$ 1.3$ million from this allocation to be utilized on COVID-19 related expenses as defined by the CARES Act guidance issued by the Treasury Department. Staff will continue to seek and monitor funding opportunities that become available to the City.

## Impacts of State \& Federal Relief Programs to Local Governments:

On March 30, Governor Newsom signed an Executive Order allowing the California Department of Tax and Fee Administration (CDTFA) to offer a 90-day extension for sales, use and transactions tax returns and tax payments for all businesses filing a return for less than $\$ 1$ million in taxes. That means small businesses will have until the end of July to file their first-quarter returns. The order also extends the statute of limitations to file a claim for refund by 60 days to accommodate tax and fee payers. In addition to the 90-Day Sales Tax Extension Plan, small business taxpayers will be able to enter into a 12 -month, interest-free, Installment Plan Agreement (IPA) for up to $\$ 50,000$ of sales and use tax liability. Small business is defined as those with less than $\$ 5$ million in taxable annual sales. This means that a small business that would typically remit sales tax in April can enter into an IPA to spread their $1^{\text {st }}$ Quarter 2020 payment over a twelve-month period. Based on an analysis done by our sales tax consultant, HdL, the estimated impact to Burbank of the $\$ 50,000$ payment plan program is a deferral of $\$ 1,371,437$ in the Bradley-Burns sales tax and $\$ 909,263$ Measure P tax revenue from FY 2019-20 to FY 2020-21.

The federal government enacted the Families First Coronavirus Response Act (FFCRA), which provides for two different types of partially paid COVID-19 related leave, Emergency Paid Sick Leave (EPSL) and Emergency Family and Medical Leave (EFMLA). These leaves are available to eligible employees from April 1 through December 31, 2020. While private employers are eligible for reimbursement, public agencies will not receive any reimbursement from the federal government for the cost of providing the additional leave to employees or any related backfill expenses or administrative costs.

## Non-General Funds

## SPECIAL REVENUE FUNDS

The City has several Special Revenue Funds which are administered by various departments and fund infrastructure improvements as well as a range of City programs. These funds receive restricted revenues that can only be used for specific purposes, such as Gas Tax Funds for street construction and maintenance or HUD funds for affordable housing. The following highlights some of the special revenue funds which have new appropriations for FY 2019-20:

Funds 104, 105, 107 and 108 (Transportation Funds): These funds provide transit programs and public improvements through the use of Local Return money generated by $1 / 2$ cent sales tax increases that were approved by Los Angeles County voters in 1980, 1990, 2008 and 2016. Unfortunately this means that these revenues are subject to fluctuations in the economy and will certainly be impacted by the COVID-19 pandemic. Due to the anticipated losses in revenue, staff performed an analysis of each transportation fund to determine whether they had sufficient fund balance to support FY 2020-21 appropriations if revenue were to decline by $30 \%$. The $30 \%$ figure is based on initial worst case projections provided by the California City Finance website. Across all transportation funds, over $\$ 2.4$ million has been appropriated for street and transportation improvements throughout the City in FY 2020-21. Within our Measure R and Measure M Funds (107 and 108), capital appropriations have been balanced between the funds to insure that the City can withstand a potential loss in revenue while still maintaining our annual commitment to the street paving program.

## CITY MANAGER'S CIP BUDGET MESSAGE

Funds 123 and 125 (Street Improvement Funds): These funds receive revenues collected by the state through vehicle registration fees and fuel excise taxes, and were roughly doubled when voters approved SB1, in April 2017. The combined budgets for the Road Maintenance and Recovery Act (RMRA) Fund and the Gas Tax Fund total $\$ 4.4$ million for FY 2020-21. Similar to the Transportation Funds, revenues for Funds 123 and 125 will likely dip in FY 2020-21. The demand for fuel statewide has decreased significantly, as commuters and travelers have been impacted by state and local public health orders. Prior to the adoption of the budget, staff performed an analysis of our Street Improvement Funds to determine whether there is sufficient fund balance to support FY 2020-21 appropriations if revenue were to decline by 20-30 percent. The RMRA Fund will move forward with $\$ 2$ million dedicated to street improvements for FY 2020-21, which funds a list of specific projects approved by the City Council in March 2020. Conversely, no capital dollars were appropriated for the Gas Tax Fund, as the fund has only a limited amount of fund balance available to cover a projected decline in revenue. Should Gas Tax revenues exceed operational costs in the coming year, staff will return to the City Council with a plan to dedicate those additional funds to our street paving program.

Fund 127 (Public Improvements Fund): This program funds public improvements through the receipt of Development Impact Fees. The Public Improvements Fund budget for FY 2020-21 includes $\$ 1.6$ million for capital improvements. Included in this year's infrastructure investment plan is $\$ 350,000$ for the $\mathrm{I}-5 / \mathrm{HOV}$ Empire Interchange and $\$ 600,000$ for improvements at Brace Canyon Park, including the installation of artificial turf.

Fund 129 (Street Lighting): The General Fund directs 1.5 percent of the 7 percent BWP In-Lieu of Tax fee transfer revenue to this fund for the purpose of maintaining citywide street lights. Nearly $\$ 1.1$ million is appropriated this year for capital improvement projects within the Street Lighting Fund.

## ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The City of Burbank currently has four Enterprise Funds: Electric, Water, Water Reclamation \& Sewer, and Refuse. Each Enterprise Fund must ensure that its revenues cover operating expenses, including depreciation and cost of providing goods and services to users/customers. Revenues may be comprised of service charges/fees/sales, interest, and other income.

The Utility Rate Public Hearing originally scheduled for May 5, 2020 was cancelled and there is no plan to reschedule the hearing at this point in time. While rate increases were originally planned for the Electric, Water, and Refuse funds for FY 2020-21, these increases were postponed to avoid further exacerbating the financial situation Burbank's residents and businesses are experiencing as a result of the COVID-19 pandemic. Thus, all Enterprise Fund budgets as adopted reflect no rate increase for FY 2020-21. The cash flows for all four funds were analyzed, and while some adjustments to expenses were necessary, the Electric, Water, Sewer and Refuse Funds will continue with their planned capital improvement programs and do not currently anticipate rate increases in the 2020-21 Fiscal Year.

Fund 494 (Water Reclamation and Sewer Fund): The Public Works Department administers this Fund and its main objective is to operate and maintain the City's Water Reclamation Plant and Industrial Waste Monitoring in compliance with federal, state and local regulations. Major projects within this fund include the installation of the Riverside and Providencia Relief Sewers, as well as other ongoing repairs and improvements to the City's sewer system and water reclamation plant.

Fund 498 (Refuse Collection and Disposal Fund): This Fund is also administered by the Public Works Department and consists of three programs: Refuse Collection, Refuse Disposal and Recycling. One of the main goals of the Fund is to maintain fees at a level sufficient to fund operating costs and future capital improvements, while continuing to keep the rates as low as possible to customers. Capital projects for FY 2020-21 include liner construction and gas well expansion at the Landfill, as well as continuing improvements to the Recycle Center warehouse.

## CITY MANAGER'S CIP BUDGET MESSAGE

Fund 496 (Electric Fund): Burbank Water and Power (BWP) administers this fund. The Electric Utility strives to keep rates competitive, while providing sufficient funding for operations and maintenance, including covering the rising costs of energy and providing funds for system reliability and capital improvements. The FY 2020-21 CIP Budget for the Electric Fund includes 110 capital projects totaling approximately $\$ 29$ million.

Fund 497 (Water Fund): Also administered by BWP, the Water Fund supplies potable and recycled water to the City of Burbank and its customers. The Water Utility is committed to providing safe drinking water reliably at competitive rates, promoting sustainability, and drought proofing a portion of the water supply by investing in the Recycled Water System. The Water Fund CIP Budget for FY 2020-21 totals approximately $\$ 5$ million and funds 83 capital projects.

## INTERNAL SERVICE FUNDS

The City of Burbank utilizes seven Internal Service Funds to accumulate monies for specific purposes, such as equipment replacement and insurance. As part of an overall effort to identify ways to reduce recurring costs, each year staff examines each internal service fund rental rates to see if savings could be achieved. Life cycles and replacement costs of City equipment are reviewed and the health of each overall fund is analyzed to insure that funds will be available for future scheduled replacements.

Fund 534 (Municipal Infrastructure Fund): In furtherance of the City Council's adopted Infrastructure Maintenance, Repair and Improvement Policy, the FY 2020-21 adopted budget continues to contribute half of the Measure P sales tax revenue to the Municipal Infrastructure Fund, in addition to the annual $\$ 4.7$ million General Fund maintenance of effort. However, as mentioned previously, capital appropriations within this fund were significantly reduced from the original infrastructure plan that was presented to the IOB in January and February. FY 2020-21 Fund 534 capital appropriations include $\$ 4$ million to continue the Citywide Street Paving program, $\$ 1.5$ million for the Park Irrigation program, and $\$ 300,000$ to replace the HVAC system at the Police/Fire Headquarters. Staff will continue to monitor the financial impacts of the COVID-19 pandemic, as it relates to the Municipal Infrastructure Fund and the future of the City's Capital Improvement Program.

Fund 537 (Information Technology Fund): In FY 2018-19, the City converted the entire Information Technology (IT) Department to an Internal Service Fund by consolidating the General Fund IT budget and the Computer Equipment Replacement Fund budget into the newly renamed Information Technology Fund. The IT Fund supports the City's Technology Infrastructure, Applications, Geographic Information System (GIS), and Enterprise Resource Planning (ERP) services, and is used to account for the acquisition, maintenance, and replacement of technology infrastructure (including computer equipment, hardware, and software) utilized by City departments. Included in the IT Fund's CIP budget for this year is $\$ 200,000$ for the City Attorney Case Management Software project. The IT Department will also be supporting several non-capital projects in FY 2020-21 that can be found within the Fund 537 operating budget.

## PARKING AUTHORITY

The Parking Authority Fund provides for the acquisition, construction, maintenance, and operation of all City-owned or operated public parking facilities within the City of Burbank. Revenue sources include monthly parking permit fees, lease fees, the Downtown Public Facility Maintenance District levy, and various public-private parking agreements within the downtown area. This year, the management of the Parking Authority will be transitioning from the Public Works Department to the Community Development Department's (CDD) Transportation Division. CDD will lead the City's efforts towards a citywide parking management strategy, beginning with the implementation of managed parking at the downtown Metrolink station this fall. Public Works will continue to retain oversight of the two continuing capital projects within the Parking Authority, which are the Orange Grove Parking Structure Repairs and the Parking Structure Security Cameras.

## CITY MANAGER'S CIP BUDGET MESSAGE

## City Council Goals

The City Council holds periodic goal setting workshops, the most recent of which took place on Thursday, March 12, 2020. The goal setting process assists policy leaders in developing a future focus, discussing issues and opportunities facing the community, setting strategic direction, and determining priorities. Council goal setting also provides a clear message to City staff as to what the Council aims to accomplish in the upcoming planning period. The Council discussed and ranked their priorities as follows for the upcoming year: 1) Housing, 2) Traffic and Transportation, 3) Quality of Life, 4) City Services, 5) Planning, and 6) Sustainability.

The City Council's goals drive the City's Work Program, which is prepared annually by City staff. The highlights of the FY 2019-20 Work Program as well as the Work Program goals for FY 2020-21 can be found within the individual department sections of the City's FY 2020-21 operating budget document. The elements of the Work Program are above and beyond the core services to the community that the City provides and part of our continuous improvement efforts. While these identified goals will certainly be impacted by more pressing issues brought about by the pandemic, the Adopted FY 2020-21 Budget closely links the operating and capital expenditure plans with the above priorities established by the City Council.

## CONCLUSION

The Capital Improvement Program Budget represents a tremendous amount of work by Department Managers and key members of their staff, and I would like to thank all of those responsible for the successful completion of this year's budget. Special thanks go to the Financial Services Department Budget Staff, who spent countless hours developing this budget into a single working document. Lastly, I would also like to thank the City Council for their leadership as policymakers throughout the budget process, and for making difficult, yet responsible decisions to guide this City through difficult times. I am confident that this year's FY 2020-21 CIP Budget helps ensure that the needs of the Burbank community will be met, while we navigate this uncertain future together.

The economic impacts of the COVID-19 are significant worldwide, and the City of Burbank is not immune to these impacts. However, while we are all weathering the same storm, we are not all in the same boat. The City has taken numerous steps since the Great Recession to improve and strengthen the financial position of the City. We have solid financial policies that we have adhered to, that now can help with our financial recovery. Sir Winston Churchill is credited with first saying, "Never let a good crisis go to waste." While governments around the world are facing unprecedented challenges as a result of the pandemic, the City of Burbank will use this opportunity to grow and change so we can emerge from this crisis an even better City than before.

Thank you for allowing me the opportunity to play a role in the continuing success of this great City.
Respectfully submitted,

Justin Hess
City Manager

咅

## GENERALINFORMATION \& OVERVIEW

## INTRODUCTION

This is the City of Burbank five-year Capital Improvement Program (CIP) Budget, adopted by the City Council on May 12, 2020 as part of the Fiscal Year (FY) 2020-21 budget process. This document presents a total of 295 new and on-going capital improvement projects, with FY 2020-21 capital appropriations totaling $\$ 53,098,497$. The CIP is a financial plan of proposed capital improvement projects with single and multiple-year capital expenditures/expenses. The Capital Improvement Program plans for five years and is updated annually. Funding major capital improvements commonly entails multiple-year financing. Unspent appropriations from project which received funding in prior years have been carried over.

## CIP DEVELOPMENT

Though coordinated by the Financial Services Department's Budget Division, the development of the Capital Improvement Program is a cooperative effort between the departments involved in the planning and implementation of respective projects. Proposed CIP projects are submitted by individual departments and reviewed and prioritized by the City Manager along with Department Managers. Projects are prioritized according to overall need, alignment with City Council's goals, and availability of funding. Projects with specific, identified funding sources (i.e., grants, development funds, etc.) usually receive high priority; conversely, those projects without specific, identified funding sources must compete for the limited general city infrastructure dollars available. Within the CIP document, each project is assigned a priority ranking from 1 to 3 . A project with a priority ranking of 1 is related to community and worker safety. It includes upgrades and repairs to City infrastructure with potential safety or liability issues, such as seismic upgrades, sidewalk repair, or the replacement of outdated playground equipment. A ranking of 2 relates to core functions or services provided by the City, such as parks, libraries, traffic improvements, and municipal buildings. A priority ranking of 3 is designated for potential operational enhancements. These are items which add new or increased levels of service to the community, but are not necessarily core to the City's purpose. Projects without available funding are itemized on the "Citywide Infrastructure Needs List," so they may be identified and prioritized for future years as additional funding becomes available. This year's CIP preparation process was interrupted due to the economic impact of COVID-19. Most capital projects and programmatic capital appropriations, which had been proposed to the Infrastructure Oversight Board (IOB) in early 2020, were removed from the Municipal Infrastructure Fund (Fund 534). The few exceptions are programs which provide long-term savings or avoid costly repairs in future years; these include the Citywide Street Paving program, Park Irrigation program, and Infrastructure Fund maintenance budgets.

## DOCUMENT ORGANIZATION

The CIP document is designed to give an easily read and readily understandable overview of the multiyear projects to which the City Council has made a long-term commitment. Due to multiple funding sources in many instances, capital improvement projects are presented in the following categories: Municipal Facilities; Parks \& Recreation; Refuse Collection \& Disposal; Technology Infrastructure; Traffic, Transportation \& Pedestrian Access; Wastewater; Communications; Electric Utility; Southern California Public Power Authority (SCPPA) Projects; Street Lighting; and Water Utility. Each project information sheet provides the project name, coordinating department, account number, priority level, description and justification, project status update, forecasted completion date, on-going operating and maintenance impact, project manager, and the FY 2020-21 adopted appropriation(s). Additionally, each sheet outlines the prior years' appropriations, proposed five-year project financing (which delineates funding sources and expenditure accounts and their respective dollar amounts per fiscal year), and projects future-year financing for on-going projects or projects anticipated to require more than five years for completion.

## CIP Funding Fiscal Year 2020-21

Total Appropriations: \$53,098,497

## CIP Project Summary

FY 2020-21 through FY 2024-25

Municipal Facilities Improvements
\$300,000
Upgrades and improvements to various City and community facilities. Continuing from last year are repairs to City building roofs, seismic retrofitting, and updates to the Burbank Police and Fire Department headquarters, including replacing flooring and HVAC equipment and the construction of a new evidence storage area. There are no new municipal facilities projects for Fiscal Year 2020-21.

Parks \& Recreation
\$2,941,622
Projects focus on the improvement and development of City parks and recreational facilities. Continuing from last year are Maxam Park restroom and building improvements, picnic facility improvements, Burbank Little Theatre renovations, lighting modernization, Brace Canyon Park Ballfield improvements, Tennis Center improvements, and replacement of citywide irrigation systems and controllers.

## Refuse Collection \& Disposal

\$650,000
Projects related to the City's refuse collection and disposal facilities. Continuing projects include the Landfill Gas Well Expansion, Phases IID/E of the landfill Liner Construction, and Recycle Center Warehouse Improvements.

## Technology Infrastructure

\$200,000
Projects related to the City's technology infrastructure, including hardware, software and systems replacement or upgrades. Scheduled for Fiscal Year 2020-21 is the implementation of the City Attorney's Case Management System.

Traffic, Transportation \& Pedestrian Access
\$9,832,206
Projects related to improving the City's transportation systems, roadways, streets, alleys and sidewalks, with a focus on decreasing traffic accidents and increasing safety for pedestrians. This year's CIP includes annual programmatic capital funding for the City's streets, alleys and concrete repair totaling $\$ 8$ million. Projects continuing from last year include Glenoaks and First Street signal improvements, construction of the Interstate-5 HOV/Empire Interchange, mitigation efforts on the Interstate-5 by Empire and Buena Vista, and State Route 134 Arterial Improvements. Other continuing projects aim at improving pedestrian and bicycle safety through the construction of a half-mile protected Class IV bikeway on North First Street from East Magnolia Boulevard to East Verdugo Avenue, improvements to Buena Vista Street and Riverside Drive, and the Midtown Commercial Corridor project, which includes traffic signal upgrades at 26 intersections on Burbank Boulevard, Magnolia Boulevard and Victory Boulevard. New for this year is the Victory Boulevard Signal Synchronization and First Street Village Sound Wall projects. Another new project, Downtown Burbank Metrolink Access, will improve bicycle, pedestrian, and ADA access between Downtown Burbank, Front Street, and the Downtown Burbank Metrolink Station.

## PROJ ECTCATEGORIES

#### Abstract

Wastewater \$2,846,905 Improvements related to the City's sewer system and water reclamation plant, including sanitary sewer and pump station repairs and upgrades, several plant upgrade projects, and the City's share of costs for the mandated upgrade of the City of Los Angeles' Hyperion Treatment Plant. Continuing projects include the Riverside Relief Sewer Project installing sewer lines under Johnny Carson Park and along Riverside Drive, phase two of the Providencia Relief Sewer project with the construction of a new pipe on Cedar and Providencia Avenue, and Water Reclamation Plant operation improvements.

## BWP - Communications

\$150,000
Projects related to the maintenance and operational support of citywide safety and non-safety communications equipment. The Site Uninterrupted Power Supply (UPS) replacement will continue into this year.

## BWP - Electric Utility

\$29,051,966
Projects related to on-going improvements of the City's electric utilities including system(s) maintenance, conversions, upgrades, and expansions. Continuing projects consists of upgrading existing power distribution grids, customer web portal implementation, and the relocation of electric facilities near the Golden State Freeway and Burbank Boulevard overpass, as a result of the new construction of the interchange at Empire Avenue and San Fernando Boulevard. New projects include a customer call center enhancements study and the replacement of Wavelength Division Multiplexing equipment.

## BWP - SCPPA Projects

\$1,073,520
Southern California Power Production Projects are related to improvements of the Magnolia Power Project (MPP) and Tieton Hydropower Project. This year, there will be safety upgrades, regulatory improvements, and plant upgrades related to the Tieton HP. Continuing from last year are the MPP Stormwater improvements and the upgrades to the Zero Liquid Discharge (ZLD) facility.

## BWP - Street Lighting

\$1,054,000
Projects relate to the conversion, upgrade, and undergrounding of existing street lighting system(s) to increase reliability, and improve aesthetics of the City. Continuing projects for this year include the installation or replacement of streets lights in compliance with the City of Burbank Street Lighting Guidelines.

BWP - Water Utility
\$4,998,278
Continuing water utility projects aim to replace cast iron water pipes with ductile iron pipes and water and commercial mechanical meters with electric meters. Other projects include an upgrade to SCADA software, replacement of water services due to tree root damage; repair, replacement and painting of both the interior and exterior of recycled water tanks; hydrant replacement, and design for the replacement of an outdated and undersized pump station.

## KEY FUNDING SOURCES

## CIP Appropriations by Funding Source

Total FY 2020-21 Appropriations: \$53,098,497

Grant Funding Sources PY 2020-21

| Grant Type | FY 2020-21 <br> Appropriation |
| :--- | ---: |
| Measure R Highway Operations | $\$ 1,182,206$ |
| Metro Grant | $\$ 1,250,000$ |
| Other Grants | Total: |
|  | $\$ 650,000$ |

## KEY FUNDING SOURCES

## Aid-in-Construction (AIC)

\$12,501,779
Revenue received in conjunction with water or electric utility work necessitated by specific customers, and which is not part of normal maintenance or capital growth.

Communications Equipment Replacement Fund
\$150,000
This fund provides for the maintenance and operational support of citywide safety and non-safety communications equipment such as telephones and radios. Revenue is collected through a rental rate charged to each department based on their total number of radios and phone lines.

## Community Development Block Grants (CDBG)

Federal grants allocated to local government, typically through a local clearinghouse. Allocations are based on formulas, and general restrictions apply to the use of these funds.

## Development Impact Fees

\$1,550,000
Fees assessed to development projects to offset the development's impact on the community, and include public facilities (parks, libraries, transportation infrastructure) and services, (police, fire, etc.). Fees are based on the scope of the project cost at the time an application is filed.

Gas Tax Fund
Funds are derived from State of California taxes on gasoline purchases and are allocated, on a share basis, to cities. Expenditures are restricted for public construction, improvements, and/or maintenance on the City's streets and roadways.

General Fund / General City Capital Projects Fund
\$1,291,622
Current City financial resources not required by law or administrative action to be segregated into specific funds.

## Information Technology Fund

\$200,000
In FY 2018-19, the Information Technology Department transitioned to a full Internal Service Fund. Revenue is collected from other departments and funds based on an annual citywide Information Technology (IT) cost of service study, along with transfers from other funds.

## Magnolia Power Project

\$875,000
Magnolia Power Project (MPP) is a jointly owned Southern California Public Power Authority project with the Cities of Anaheim, Cerritos, Colton, Glendale, Pasadena and Burbank (operating agent). Revenues are billed to recover expenses incurred by the operating agent.

## Measure M Transportation Fund

\$1,250,000
Revenues generated by a $1 / 2$ cent Sales Tax approved by Los Angeles County voters in 2016. Funds are primarily utilized for street and road maintenance and improvement projects managed by the Public Works Department.

## Measure R Transportation Fund

\$1,182,206
Revenues generated by a $1 / 2$ cent Sales Tax approved by Los Angeles County voters in 2008. Funds are managed by the Community Development Department and utilized to improve local transit services, transportation infrastructure, public improvements, and citywide roadways related capital improvements.

## KEY FUNDING SOURCES

## Municipal Infrastructure Fund

\$5,800,000
This fund was reorganized in Fiscal Year 2019-20 to provide for the replacement and maintenance of the City's general infrastructure needs. This fund is managed by the Public Works Department, with a dedicated cost center administered by the Parks and Recreation Department for park infrastructure needs. The revenue allocated to the Municipal Infrastructure Fund is derived from 50 percent of the revenues generated by the Measure P sales tax initiative that was approved by voters on November 8, 2018, as well as an annual $\$ 4.7$ million General Fund maintenance of effort contribution.

Parking Authority Fund \$0
Fund used for the acquisition, construction, maintenance and operation of all City-owned or operated public parking lots and structures. Revenue sources include monthly parking permit fees, lease fees, the Downtown Public Facility Maintenance District levy and various public-private parking agreements within the downtown area.

Refuse Collection \& Disposal Fund
\$650,000
Revenues generated solely from user fees charged for the City's refuse collection operation.
Road Maintenance and Rehabilitation (RMRA)
\$2,000,000
This fund addresses deferred maintenance on the local street and road system through the use of gas tax revenues and the Transportation Improvement Fee.

## Street Lighting Fund

\$1,054,000
Funds derived from 1.5 percent of the 7 percent BWP In-Lieu of Tax transfer for the purpose of maintaining, repairing and upgrading the City's streetlight system.

## Tieton Hydropower Project

\$198,520
This facility was acquired by the Southern California Public Power Authority with 50 percent of entitlement shares belonging to the City of Burbank (operating agent) and 50 percent belonging to the City of Glendale. Revenues are billed to recover expenses incurred by the operating agent.

## Propositions A \& C Transportation Funds

Funds for the distribution and use of Local Return funds generated by a $1 / 2$ cent Sales Tax revenue restricted to fund transportation related activities (Prop A, approved by LA County voters in 1980), and projects that benefit and support local transit services (Prop C, approved by LA County voters in 1990).

Water Reclamation \& Sewer Fund
\$2,846,905
Revenues generated solely from user fees charged for the City's Water Reclamation Plant and sewer operation.

CIP FUNDING SOURCES
Total Cost of all Active Projects: $\$ 590,685,950$

## PROJECT DESCRIPTION AND JUSTIFICATION

This project will repair or replace roofs and areas of water intrusion as identified by annual roof surveys and building envelope inspections. Areas identified for repair or replacement in this project will manage service life cycles and prevent major leaks that lead to costlier repairs in the future.

## PROJECT DESCRIPTION AND JUSTIFICATION

This project will explore options for renovation and upgrade of the Burbank Central Library. The Library that was built in 1963 has been failing to meet community demand and operational requirements for many years. Renovations are at this time unfunded. This project will allow the Library Services Department to hire expert architects and space planners to identify ways to make sure a renovation meets current and future service needs as identified in the Library's strategic plan. The selected architects will outline three options at different service levels utilizing strategies ranging from reuse of the existing building to a minor expansion to an entirely new building.

## PROJECT STATUS UPDATE

In FY 2017-18, Library Services, with assistance from Public Works and Finance, completed a Request for Proposal (RFP) process and entered into a contract with consultants to perform this work. The community input portion of this project was completed in March 2020, with the final report expected in summer 2020.

Forecasted Project Completion Date: On-going Operating \& Maintenance Impact:

December 2020
No significant maintenance.

| Project Name | City Building Seismic Retrofit | FY2020-21 Appropriation | \$0 |
| :--- | :--- | :--- | :--- |
| Department | Public Works | Project Status | Continued |
| Account Number | 370 PW33A 70019_0000 P23021 | Project Priority | 1 |

## PROJECT DESCRIPTION AND JUSTIFICATION

The City Council adopted Seismic Retrofit Ordinance \#3512, requiring owners of pre-1980 constructed buildings with reinforced masonry or reinforced concrete walls to evaluate the structure of the building and strengthen it if necessary. The City has an ongoing Seismic Retrofit program to identify buildings that require mandatory retrofit. This project will design and retrofit the following buildings: DeBell Driving Range, DeBell Golf Maintenance Building, and Robert Gross Park Exercise Building.

| Totals |  |  | \$200,000 |  |  |  |  |  | \$200,000 |

## PROJECT STATUS UPDATE

Design and Engineering began in FY 2019-20. Construction has been delayed due to COVID-19 and is now projected to begin in FY 2021-22. After the structures in this project are completed, there are five buildings remaining for further seismic evaluation. Although not yet finalized, staff anticipates that three facilities will be seismically retrofitted, one will be demolished, and one will be vacant until further action is needed.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

September 2022
No significant additional maintenance

| Account Number | 370 PW33A 70019_0000 P21739 | Project Priority | 1 |

## PROJECT DESCRIPTION AND JUSTIFICATION

In April 1999, the City Council adopted Seismic Retrofit Ordinance \#3512, requiring owners of pre-1980 constructed buildings with reinforced masonry or reinforced concrete walls to evaluate the structure of the building and strengthen it if necessary. A cost feasibility study of retrofitting versus replacement of the Building Maintenance and Parks Storage Facility was completed in 2015. Per the consultant's recommendation, tearing down the existing building and building a new structure in this location is the most cost-effective option and is most beneficial to the City. This project will demolish the existing Building Maintenance and Parks Storage facility and replace it with the new City Yard Services Building. Additional funding is required for scope increase to include required infrastructure, relocating park supervisory staff, and demolition of the old parks building, related costs for design, code upgrades, and current construction costs

## PROJECT STATUS UPDATE

The updated project scope for the City Yard Services Building (CYSB) will be completed in two distinct construction phases using the Fixed Fee, Guaranteed Maximum Price (GMP) delivery method. Phase I efforts will include installing infrastructure to support the removal of the existing building, while maintaining interdependent functions and services throughout the campus. Phase II efforts will require additional funding to complete the entire phase and will include the relocation of Staff, building demolition, construction, and return of relocated existing and new Staff back into the building. Phase II will include the demolition of the vacated Parks Supervisor Building. Phase I is planned in FY 2020-21.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:
September 2021
No significant maintenance

## PROJECT DESCRIPTION AND JUSTIFICATION

The City owns and maintains several debris basins in the hillside area that protect downstream residents in areas that are susceptible to mud and debris flows. In order to clean the basins Public Works Department has obtained the necessary permits from various regulatory agencies. In order to maintain the permits, mitigation measures will be implemented in the DeBell Golf Course riverbed to offset habitat removal in the basins. These measures include planting specific native species in areas approved by the California Department of Fish and Wildlife. Though these permits are needed to clean the debris basins, the basins are monitored by staff to ensure that they are at safe levels for debris flow capture.

## PROJECT STATUS UPDATE

In FY 2015-16, an environmental consultant was selected to oversee debris basin cleanup and mitigation. A final Habitat Mitigation Plan prepared by the consultant was approved in late 2015, describing flood control facilities to be restored and maintained. Permits to clean these facilities were received in 2016 from three agencies: the California Department of Fish and Wildlife, the Army Corps of Engineers, and the California Regional Water Quality Control Board. Staff cleaned the four largest basins in fall of 2016 to maintain capacity while smaller basins had sufficient capacity for future rain events. In compliance with the permits, staff worked with the consultant and landscape architect on a mitigation plan for long term Riparian habitat establishment in the DeBell golf course streambed. An initial draft was completed in FY 2017-18 and finalized in FY 2018-19. Staff will seek approval from the Department of Fish and Wildlife in FY 2020-21 to begin preliminary plan implementation through in-house labor.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

On-going
Annual inspection and cleaning is required, estimated at $\$ 20,000$ per year.

## PROJECT DESCRIPTION AND JUSTIFICATION

Debris flow mitigation began in FY 2017-18 due to fire and rain events. Crews will continue to remove debris from debris basins, public spaces, facilities, and roadways for three to five more years. Staff will also work to mitigate future debris flow issues at City facilities by installing both permanent and temporary infrastructure.

## PROJECT STATUS UPDATE

Funding for this project was approved by Council on February 6, 2017, and cleaning/repairs are being handled on a priority basis. Mitigation activities and maintenance of the affected areas will continue until the hillsides stabilize. The most recent mitigation activity was the repair of the Stough Canyon Fire Road.

Forecasted Project Completion Date: On-going Operating \& Maintenance Impact:

On-going
This project is for the on-going mitigation activities and no other maintenance impacts are anticipated.

## PROJECT DESCRIPTION AND JUSTIFICATION

The Downtown Metrolink Station elevator, which is 24 years old, has reached the end of its useful life and is in need of modernization. A consultant has started the design of a new waterproofing system for the outside of the elevator structure, as the existing system is no longer watertight. After design is complete, the construction of the waterproofing system and modernization will begin.

## PROJECT DESCRIPTION AND JUSTIFICATION

Public Works utilizes the E.J. Ward fuel management system for diesel and gas pumps throughout the City. In the past couple of years, the system's software has been upgraded and hardware at some locations has been replaced. This project will replace the terminals of the E.J. Ward pumps and data cabling necessary to support new software at all of the City's Fire Stations (Stations 11-16), as well as on the mobile pump unit on truck 4849, which fuels equipment at the Landfill. The new terminals will have a lifespan of approximately 15 years.

## PROJECT DESCRIPTION AND JUSTIFICATION

Currently, the Police Evidence Storage Area is located in the City Yard. Police evidence materials are being stored in two storage containers and in the Public Works Street \& Traffic Maintenance Building. The City Yard provides essential and emergency services. Public Works needs the underdeveloped area to centralize operations and create efficiencies within the crowded City Yard. This project will capitalize on existing, unused storage area (mezzanine/equipment area) within the Police/Fire Headquarters (Fire Station 11), and will design, engineer, and construct light weight and secure storage areas to move Police evidence materials to the Police/Fire Headquarters. This project will provide more space for Public Works at the City Yard and create a convenient and appropriate storage area for Police evidence.

## PROJECT DESCRIPTION AND JUSTIFICATION

This is a multi-phase project in which staff will alternate yearly installation of shade structures over the bleachers at various baseball fields throughout the City, as needed. Shade structures will provide relief from the intense summer heat for park patrons sitting in the bleachers at each of the City's baseball fields.

## PROJECT STATUS UPDATE

Staff is working with the Burbank Athletic Federation (BAF) Board to develop a prioritization list for shade structures. In FY 2015-16, a new shade structure was constructed over McCambridge ball field Number 2. Each field costs approximately $\$ 75,000$. As such, funding from the BAF will be allocated on an annual basis to build up enough funds for the next project. The Schafer ballfield shade structure cost estimate and design has been completed, construction is anticipated to begin in the summer of 2020.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

December 2020
O\&M Impact is nominal

## PROJECT DESCRIPTION AND JUSTIFICATION

Per the California State mandate, all bleachers at sports fields must be retrofitted or replaced with appropriate guardrails to prevent falls. This is a multi-phase project in which staff will alternate yearly installation of shade structures over the bleachers at various baseball fields throughout the City as needed. Shade structures will provide relief from the intense summer heat for park patrons sitting in the bleachers at each of the City's baseball fields. This project will also fund maintenance and programmatic capital improvements to fields and gymnasiums.

## PROJECT DESCRIPTION AND JUSTIFICATION

The state of California and Burbank Water and Power (BWP) have restricted the use of fertilizers on top of any potable water aquifer. The living turf grass currently being maintained by Landscape Services will not be able to sustain or thrive, and will die off within the next couple of years without the use of fertilizers. Parks and Recreation staff want to replace the living turf grass with artificial turf in order to continue to program and utilize this recreation area. This artificial turf would be able to support multiple sports, such as Soccer, Football, Lacrosse, Softball, and Baseball. There is also a proposed rubberized running track around the perimeter of the ballfields.

## PROJECT DESCRIPTION AND JUSTIFICATION

The City is redirecting funds previously appropriated for lighting improvements at Burbank High School to assist with field improvements at Izay and McCambridge Parks. Improvements include field/turf upgrades, a batting cage, and fencing improvements. As part of the Joint Use Agreement (JUA) with the Burbank Unified School District (BUSD), the fields at Izay and McCambridge Parks are used by school teams. The City and BUSD have agreed to fund the improvements at both parks through the JUA's Capital Improvement Fund.

## PROJECT STATUS UPDATE

Ballfield enhancements include the installation of new base anchors, infield mix, edge amendment, permanent foul lines, and renovations to pitcher mounds and home plates. Laser leveling for the project was completed on October 14, 2019. Additionally, a batting cage has been submitted for plan check. Construction will begin in the summer of 2020 at Izay and McCambridge. A portion of this project will be reimbursed through the BUSD Joint Use Agreement.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

October 2020
Operating and Maintenance impact unknown, pending design and construction

## PROJECT DESCRIPTION AND JUSTIFICATION

The City Council approved funding for the Larry L. Maxam Memorial Park Restroom Renovation in FY 2016-17. Following preliminary architectural review, Public Works determined that the building needed structural work and water intrusion remediation that went beyond the project scope, requiring additional funding. Additional funding was appropriated in FY 2019-20 for design and construction to renovate the building and restrooms.

## PROJECT DESCRIPTION AND JUSTIFICATION

This is a multi-phased project. The first phase is for the completion of draft schematic designs for the re-design of the Olive Recreation Center which was constructed in the 1940's. The key amenities within the Recreation Center include offices, recreation classrooms, storage rooms, gymnasium, restrooms, a kitchen, and stage. The facility needs to be redesigned to meet the City's current and future needs.

| Department | Parks \& Recreation | Project Status | On-going |
| Account Number | 534 PR21A 70003_0000 P21275 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

The project includes adding shade structures and concrete pads to the outdoor picnic areas throughout all parks to enhance patrons' experience. It has been several years since the Department has systematically addressed improvements to the outdoor picnic areas within the City's parks. The City receives over 650 park facility rental applications annually. It is anticipated that by enhancing these facilities, additional revenue could be generated. The Parks and Recreation Board has identified this project as a top priority.

| Department | Parks \& Recreation | Project Status | Continued |
| Account Number | 370 PR32F 70003_0000 P20122 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

This is a multi-phased project in which several improvements will be completed to increase the playability and rental capacity of Schafer Baseball Field, located at Ralph Foy Park. Improvements include the installation of a perimeter fence, screening and the purchase of a new scoreboard. The current field configuration is too large for youth games as it does not have a perimeter fence. Moreover, there are on-going issues with non-permitted user groups playing soccer and interfering with baseball programming. This is the Department's only regulation sized baseball field, therefore the field is heavily programmed by the City and used by several other user groups including Providence High School and the Burbank Players League.

## PROJECT STATUS UPDATE

Staff worked with a site-specific selection committee to develop the Verdugo Aquatic Facility Public Art Project, which will begin once it is approved by the Art in Public Places Committee.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

December 2020
Impact on operations and maintenance is expected to be minimal (i.e. routine cleaning of the art piece).

# City of Burbank Project Information Sheet <br> FY2020-21 <br> Parks and Recreation

| Account Number | 370 PR21A 70003_0000 P23446 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

This project will be for the removal and installation of a new multi-sport gym floor at the Verdugo Recreation Center. The current floor has exceeded its useful life and needs replacement. This project will include a redesign of the current sport-lines to ensure it meets current and future programming needs.

| Department | Public Works | Project Status | Continued |
| Account Number | 498 PW31B 15032_0000 P23428 | Project Priority | 1 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Expansion of the Landfill Gas (LFG) control system with the addition of wells and piping in areas that need additional LFG extraction. This will help keep the Landfill in compliance with stringent Air Quality Management District (AQMD) and Air Resources Board (ARB) permitting requirements and provide a more reliable and consistent flow of LFG to the proposed/new turbines installed at the Landfill flare site for power production.

PROJECT FUNDING AND EXPENDITURE DETAIL

## PROJECT STATUS UPDATE

This project went to bid in early 2020 and is expected to be completed by June of 2021.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2021
No significant impact

# City of Burbank Project Information Sheet <br> FY2020-21 <br> Refuse Collection \& Disposal

## PROJECT DESCRIPTION AND JUSTIFICATION

State and Federal landfill regulations require the installation of a geocomposite liner and leachate collection system as the Landfill develops. Due to operating efficiencies, the need for the new liner had been postponed but it is now time to install a new liner to maintain operations in line with on-going regulations.

PROJECT FUNDING AND EXPENDITURE DETAIL

## PROJECT STATUS UPDATE

Design began in FY 2019-20. Plans will be reviewed by CalRecycle, the CA Regional Water Quality Control Board and the Air Quality Management District. If all permits are approved in a timely manner, construction is expected to begin in FY 2020-21.

Forecasted Project Completion Date: On-going Operating \& Maintenance Impact:

June 2023
No significant maintenance

Project Manager: John D Molinar, Assistant Public Works Director- Street Maintenance and Sanitation

## PROJECT DESCRIPTION AND JUSTIFICATION

The existing roof at the Recycle Center Warehouse is in extremely poor condition. The roof will be removed and replaced with a new, longer-lasting, eco-friendly cool roof. Other upgrades will include fire protection (sprinklers), building envelope waterproofing, replacement of electrical components, security/fire monitoring system upgrades, and addressing subterranean water intrusion issues at the facility. A filter system is required to comply with Occupational Safety and Health Administration (OSHA) requirements for combustible dust in the workplace.

## PROJECT DESCRIPTION AND JUSTIFICATION

In October 2018, Council adopted Resolution 18-29,038 to approve the Alameda Avenue synchronization project. This project will synchronize 20 traffic signals on Alameda between Buena Vista and Glenoaks and on Riverside between Buena Vista and Chavez to achieve Council Goal \#5: Traffic and Parking, and General Plan Policy 1.6: use technology to increase capacity and efficiency. The project is 100 percent funded by Metro Measure R Highway funds.

## PROJECT DESCRIPTION AND JUSTIFICATION

The Buena Vista Street/Riverside Drive Improvement project will enhance safety of bicycles, pedestrians, and vehicles, and improve traffic signal operations. The project will modify the traffic signal phasing, signalize one crosswalk, modify the intersection striping, and add overhead freeway guide signs. In addition, the project will stripe bicycle lanes on westbound Riverside Drive between Buena Vista Street and Keystone Street.

## PROJECT STATUS UPDATE

In 2010, the City of Burbank received a $\$ 2,721,513$ grant for the Burbank Channel Regional Gap Closure Project from the Los Angeles County Metropolitan Transportation Authority (Metro). The grant requires a local match of 20 percent, or $\$ 680,378$. In 2012, the City of Burbank received a second grant in the amount of $\$ 982,109$ from the State of California Natural Resources Agency Urban Greening Grant. In February and July 2019, additional appropriations of Measure M and Measure R Local Return funding were approved to cover a budget shortfall. Design for the project has been completed and permitted. Construction began in October 2019 and is scheduled to be completed in August 2020.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:
August 2020
To be determined

## PROJECT DESCRIPTION AND JUSTIFICATION

The Downtown Pedestrian Improvements Project consists of installing signage and high visibility crosswalks at signalized intersections and uncontrolled mid-block crosswalks along Magnolia Boulevard, Palm Avenue, Orange Grove Avenue, Olive Avenue, and Angeleno Avenue. The project will also close access to Bonnywood Place from the intersection of Olive Avenue and First Street to improve pedestrian safety for those accessing Downtown Burbank to and from the Downtown Burbank Metrolink Station. This project is funded by TDA Article 3 and Measure R Local Return funds.

## PROJECT DESCRIPTION AND JUSTIFICATION

This project will design and construct an approximately half-mile protected Class IV bikeway on North First Street from East Magnolia Boulevard to East Verdugo Avenue. This facility is identified as a top priority connection in the City's Bicycle Master Plan and will provide safety benefits for bicyclists in the Downtown Burbank area to connect the Downtown Burbank Metrolink Station, commercial corridors, residential areas, and employment centers. As a result of Council's direction, this project will implement a protected bicycle facility to support housing development in the Downtown area and will integrate with contributions from future developments.

## PROJECT DESCRIPTION AND JUSTIFICATION

The Los Angeles River Bridge Project includes designing and constructing a bicycle and pedestrian bridge across the Los Angeles River in Burbank and Los Angeles. The project will include approximately 340 feet of Class III bike lanes on a portion of Bob Hope Drive, a new bridge structure spanning the Los Angeles River, and a short Class I bike path connecting the bridge to Forest Lawn Drive. This project is identified in the City's 2009 Bicycle Master Plan as a Top Priority Project critical to improving bicycle/ pedestrian access between Burbank and Los Angeles.

| Project Name | Olive \& Magnolia Bridge Modernization | FY2020-21 Appropriation | \$0 |
| Department | Public Works | Project Status | Continued |
| Account Number | 370 PW21A 70002_0000 P20181 | Project Priority | 1 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Staff has completed the feasibility studies for both the Olive and Magnolia bridge modernization projects. Improvements considered include: barrier rail safety for pedestrians and drivers, seismic strengthening to minimize risk of bridge failure resulting from an earthquake, and improving roadway dimensions to comply with today's standards. Additionally, the design will consider opportunities to improve bicycle and pedestrian access across the l-5 to Downtown Burbank. These bridges connect the east and west sections of Burbank. Their failure could block major freeway, rail and flood control facilities, causing major impacts to the City. All construction work on the bridges will be coordinated with the State's Interstate-5 work to minimize impact on residents.

PROJECT FUNDING AND EXPENDITURE DETAIL

## PROJECT STATUS UPDATE

City Engineers and LA county bridge structural engineers are currently re-evaluating the scope of work for both bridges. The scope will consider the recently approved development projects adjacent to Magnolia bridge and the potential for the Bus Rapid Transit (BRT) corridor along the Olive bridge. Staff will look for any additional funding opportunities for all proposed improvements.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2025
On-going maintenance will not increase

## PROJECT DESCRIPTION AND JUSTIFICATION

In 2013, Burbank was allocated funds by Metro to improve traffic flow and safety through the Olive/Verdugo intersection. The project will upgrade traffic signal equipment, install signing and striping, and construct street improvements. It will reduce travel times, delays, and vehicle emissions. In addition, it will improve bicycle and pedestrian safety. The project is 100 percent funded by Metro Measure R Highway funds.

PROJECT FUNDING AND EXPENDITURE DETAIL

## PROJECT STATUS UPDATE

In 2018, City Council directed staff to return with additional design alternatives that included community input from residents near the intersection. Staff plans to return to the City Council in mid-2020 with a revised design alternative. If directed to proceed, final design would begin in mid-2020. Based on preliminary cost estimates, additional Measure R funding from Metro was secured to complete construction.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

December 2022
No operating and maintenance impact

## PROJECT DESCRIPTION AND JUSTIFICATION

This project will accomplish needed repairs to City-owned bridges. Los Angeles County has completed approximately $\$ 446,000$ in bridge repairs for the City since FY 2007-08 and will continue its efforts annually. Additionally, in late 2011, the County obtained a Federal Highway Administration (FHWA) grant that will pay for 88.53 percent, or $\$ 567,000$, for programmatic bridge repairs in the City. The City will need to pay an 11.47 percent match, or about $\$ 81,000$. Future repairs and expenditures will be based on future LA County (no cost to the City) biennial bridge Inspections mandated by the state.

PROJECT STATUS UPDATE
Biennial bridge inspections are usually completed in Burbank in January of the even years. Needed maintenance and repair work was identified as a result of the inspections performed in 2012. In 2018, staff executed a cooperative agreement with Los Angeles County for preventative bridge maintenance. Since the execution of the agreement, LA County Public Works has been working on plans and specifications to repair the seven identified City bridges in need of repairs on an annual basis.

## PROJECT DESCRIPTION AND JUSTIFICATION

The San Fernando Bikeway is a Class I bike path that will be constructed along San Fernando Boulevard, Victory Place, and the Burbank Western Channel between Cohassett Street and the Downtown Metrolink Station. This project completes the final three miles in a 12-mile regional bike path. Most of this project's costs are funded by a Metro Call for Projects grant. The San Fernando Bikeway expands the City of Burbank's developing bicycle network and provides a key link in the region's bike path system. The project provides access to the City's Downtown Metrolink Station and also completes a portion of the Chandler Bikeway Extension. This project is a top priority project on the Bicycle Master Plan.

## PROJECT STATUS UPDATE

This project is currently on hold due to construction impacts caused by Empire Interchange/l-5 HOV and Buena Vista Grade Crossing Projects. Staff is working with Metro and Caltrans to preserve grant funding until l-5 construction issues along the Metro railroad right of way are resolved, which will allow project design to continue.

Forecasted Project Completion Date: On-going Operating \& Maintenance Impact:

December 2023
Routine pavement, landscaping and other maintenance costs. The exact dollar amount will be determined as part of the design process.

## PROJECT DESCRIPTION AND JUSTIFICATION

This project supports costs associated with ensuring the construction of the Empire Interchange and Buena Vista/San Fernando railroad grade separation included in the Interstate-5 High Occupancy Vehicle (HOV) project. Project funds have been used for planning studies, as well as to design and construct required City utility relocations necessary for the improvement. This project is identified in the City's Infrastructure Blueprint as critical to improving freeway access to the Golden State area. Caltrans is the lead agency for this project and has received State transportation and Metro transportation sales tax funds to implement and construct the project. Funding and costs shown below represent local project participation, including project management and coordination.

## PROJECT STATUS UPDATE

The Empire Interchange was opened to traffic in September 2019. Caltrans is completing final "punch list" items to complete work at Empire Avenue and Buena Vista Street. Caltrans has begun the Burbank Boulevard reconstruction phase of the project, which is expected to be complete in 2022. The City continues to provide local project support for the project.

Forecasted Project Completion Date: On-going Operating \& Maintenance Impact:

December 2022
Increase in general street and bridge maintenance of facilities built for the Empire Interchange.

## PROJECT DESCRIPTION AND JUSTIFICATION

This project reduces on-going maintenance, improves ride quality, and reduces the City's liability exposure by resurfacing, reconstructing, and slurry sealing deteriorated streets; repairing adjacent concrete (sidewalk, driveway apron, curb, gutter and pedestrian ramps); and replacing traffic loops and associated striping Citywide. Measure P and SB1 revenue supplements pavement funding, allowing Public Works to move from a 10-year citywide cycle to a five-year cycle. As part of the local/residential streets program, staff will be contracting work in City Zones 9-12 (bounded by Burbank Boulevard, Clybourn Avenue, Verdugo Avenue, and Victory Boulevard) to address streets with a pavement condition index of 55 and below. Staff will also contract work on arterials in FY 2020-21 at South Victory Boulevard and San Fernando Boulevard, north of Buena Vista Street.

## PROJECT DESCRIPTION AND JUSTIFICATION

In March 2017, Council adopted Resolution 17-28,911 to approve the Metro LAF5306, Burbank Traffic Responsive project. This project will install fiber optics and upgrade three traffic signals: Vanowen/Metrolink crossing, Vanowen/Hollywood Way, and Hollywood Way/Valhalla to achieve Council Goal \#5, Traffic and Parking, General Plan Policy 1.3: maintain and enhance streets, Policy 3.2: complete streets, and Policy 5.1: maximize pedestrian and bicycle safety. The project is 32 percent funded by Metro Proposition C, 27 percent funded by Development Impact Fees, and 41 percent funded by the General Fund.

## PROJECT DESCRIPTION AND JUSTIFICATION

This project will upgrade traffic signal electrical systems and cover BWP staff costs for electrical engineering, inspection, and crew time for covering wiring, pulling conductors, energizing service and spotting meters. In FY 2020-21, electrical systems will be upgraded for Bid Schedule (BS) 1454 - Glenoaks Boulevard Arterial and First Street Signal Improvements, BS 1461 - Traffic Responsive Signal System Project, and BS 1462 - Front Street Cycle Track. The project will achieve Council Goal \#5: Traffic and Parking, General Plan Policy 1.3: maintain and enhance streets, Policy 3.2: complete streets, and Policy 5.1: maximize pedestrian and bicycle safety.

## PROJECT DESCRIPTION AND JUSTIFICATION

In 2016, Burbank was allocated grant funds for a project to provide real-time traveler information for local transit users with the installation of a Global Positioning System (GPS) based real-time arrival system on BurbankBus buses. The project will also provide wayfinding signage in the City for bicyclists by installing signs on major Class I bicycle corridors directing users to/from regional bicycle facilities and major transportation destinations. The project is 80 percent funded by Metro.

| Totals | \$280,000 | \$10,000 |  |  |  |  |  | \$290,000 |

PROJECT STATUS UPDATE
Metro initiated the project with the City in June 2016. The project was previously funded through 80 percent Federal Congestion Mitigation and Air Quality (CMAQ) funds and a City local 20 percent match. In August 2017, the Metro Board of Directors approved the City's request to modify the scope of work to remove expensive fixed message signs from the project and to change the grant funds from federal to Metro funding. Staff will be working with consultants to implement the real-time traveler information system and provide outreach to the community. The real-time traveler information system is anticipated to be in operation by Fall 2020.

## PROJECT DESCRIPTION AND JUSTIFICATION

In October 2018, Council adopted Resolution 18-29,038 to approve the Victory Boulevard signal synchronization project. This project will collect data and analysis to synchronize 24 traffic signals on Victory Boulevard between Buena Vista Street and Alameda Avenue, and on Buena Vista Street between Interstate 5 and Glenoaks Boulevard. The project will achieve Council Goal \#5: Traffic and Parking, and General Plan Policy 1.6: use technology to increase capacity and efficiency. The project is 100 percent funded by Metro Measure R Highway funds.

## PROJECT DESCRIPTION AND JUSTIFICATION

According to agreement provisions with the City of Los Angeles, the City of Burbank has cost-sharing responsibilities for capital improvements on the Hyperion amalgamated sewer system. The projected costs represent Burbank's portion of the financial obligation and are subject to change on an annual basis. Budget projections have been provided by the City of Los Angeles.

## PROJECT DESCRIPTION AND JUSTIFICATION

Flow metering and a sewer capacity analyses were performed in this portion of the collection system and capacity deficiencies were discovered. The project will include installing approximately 3,200 feet of 12 -inch to 18 -inch diameter sewer line parallel to the existing sewer system. A new pipe was previously installed along Cedar and Providencia Avenues, and within the new First Street as part of Phase 1. The alignment will continue under the railroad and Interstate-5 freeway, and generally along Providencia Avenue and Varney Street until it reaches the existing inverted siphon at the Burbank Western Channel as part of Phase 2.

## PROJECT DESCRIPTION AND JUSTIFICATION

Flow metering and a sewer capacity analyses were performed in this portion of the collection system and capacity deficiencies were discovered. The project will include installing approximately 5,000 feet of 18 -inch to 30 -inch diameter sewer line parallel to the existing sewer system under Johnny Carson Park and along Riverside Drive to the Beachwood Pump Station. This relief sewer will minimize the amount of sewage entering Los Angeles' Hyperion collection system and convey it to the pump station to be treated at the Burbank Water Reclamation Plant.

## PROJECT DESCRIPTION AND JUSTIFICATION

Rebuild existing 4 kV facilities on circuit $\mathrm{V}-2$ to 12 kV construction standards. Transfer 4 kV load to 12 kV circuit GS-10. The project is consistent with BWP's program to convert 4 kV circuits to 12 kV . Conversion to a higher voltage will reduce operation line losses on this circuit by approximately 90 percent. Rebuilding facilities to modern standards will ensure continued reliability and safety in this area.

| Department | Burbank Water and Power | Project Status | Future |
| Account Number | 496 PS31E 15022_0000 P23356 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Rebuild existing 4 kV facilities on circuit V-1 to 12 kV construction standards. Project is consistent with BWP's program to convert 4 kV circuits to 12 kV . Conversion to a higher voltage will reduce operating line losses on this circuit by approximately 90 percent. Rebuilding facilities to modern standards will ensure continued reliability and safety in this area.

| Account Number | 496 PS12Z 15042_0000 P22242 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Implement an advanced power grid Distribution Management System (DMS). This project is the initiation of Burbank's efforts to automate power grid control and event response. Currently, Power Supply does not have advanced analytical tools that provide real-time educated decisions to optimizing power grid connectivity while mitigating power grid issues. A DMS system provides the necessary advanced applications that continuously analyze, educate, and respond to the needs of the power system.

## PROJECT DESCRIPTION AND JUSTIFICATION

Construct new customer transformer stations one Mega Volt Ampere (MVA) and up, as necessary for the customer's benefit. Complete line extensions and relocate facilities. Purchase cost of the transformers is budgeted separately. Project installs facilities needed to serve loads from new developments as necessary.

| Account Number | 496 PS43C 15042_0000 P22647 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

The BWP campus network doesn't meet current technology bandwidth demands and has exceeded its useful life. The useful life continues to be extended beyond its anticipated standard life of five years. In addition, staff is experiencing network delays and the delays are affecting work productivity. Staff is evaluating a new solution to skip a generation of network hardware to increase capacity and improve performance. By reviewing other products and solutions, BWP can achieve significant performance improvements and increase additional capacity with a lower cost solution. Newer solutions will help support current and increased demands on the network.

## PROJECT DESCRIPTION AND JUSTIFICATION

Burbank Water and Power (BWP) proposes to implement a new customer web portal. The new portal will be a powerful customer engagement tool that gives greater control to BWP's customers. This new portal will also provide valuable customer behavior information to allow BWP to provide products and services that will benefit both the customer and the utility. BWP plans to find a more contemporary, interactive web portal that will allow BWP to further position itself as a premier municipal utility and continue to provide exceptional customer service.

| Department | Burbank Water and Power | Project Status | Continued |
| Account Number | 496 PS31E 15022_0000 P22178 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Replace one power transformer at an unspecified substation based on overall need and condition assessment. Approximately 61 percent of BWP's substation transformers are beyond their typical life expectancy of 30 to 40 years. As the age of BWP's transformer fleet increases, the probability of transformer failure will increase dramatically along with a statistical decline of reliability. In-service power transformer failures tend to be violent and often negatively affect or damage nearby equipment, leading to system outages. Therefore, BWP is anticipating that the need to replace up to seven transformer over the next twenty years based on current reliability data.

## PROJECT DESCRIPTION AND JUSTIFICATION

In FY 2020-21, an Oracle Enterprise Business System (EBS) upgrade is scheduled by the City's IT Department. This upgrade will move from version 12.1.3 to version 12.2. This upgrade is required to continue maintenance and support from Oracle. The budget amount is the Utility's share. In FY 2024-25, the City IT Department is planning for an additional EBS upgrade, as per the maintenance and support schedule from Oracle. The amount budgeted is an estimate, and represents the Utility's share of the upgrade. Should the City choose to go to a cloud-based version of the software, it is expected that the cost could be higher and be budgeted as an operations and maintenance expense.

## PROJECT DESCRIPTION AND JUSTIFICATION

The server hardware supporting the grid has come to end of life and out of warranty. New hardware is necessary to support existing critical systems and provide the means to implement new grid management tools for the Energy Control Center. The new hardware is required to support the systems in a cost effective low risk manner, while providing us the opportunity to consolidate where applicable, improve design, and reduce support costs.

## PROJECT STATUS UPDATE

Vendor Requests for Proposals (RFP) for the Energy Control Center System Replacement Project are under review, as of January 1, 2020. Vendor hardware requirements to support the new systems are being scrutinized with hardware orders expected to start some time in the final quarter of FY 2019-20, continuing into FY 2021-22.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2030
$\$ 30,000$ O\&M impact with a two percent increase beginning in year two of the project through year seven

## PROJECT DESCRIPTION AND JUSTIFICATION

Electrical faults inside a substation can sometimes result in excessive voltages between a person and the ground ("touch potential") or between each leg of a person ("step potential"). Ground grids are designed to protect personnel by reducing touch and step potentials to acceptable levels. As part of its ongoing efforts to improve safety, staff is evaluating the need for additional ground grid improvements where system conditions have changed or where ground grids have deteriorated. In addition to a ground grid study, some ground grid improvements, such as the replacement of existing ground grid cable, is anticipated and estimated in this scope of work.

| Department | Burbank Water and Power | Project Status | Continued |
| Account Number | 496 PS31E 15042_0000 P22163 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Implement three new modules for BWP's existing Gridview software package. The Revenue Protection module analyzes the existing meter data to flag possible locations of theft or lost revenue. The Conductor Loading module analyzes loads on all conductors in the distribution system. This will allow proactive identification of overloaded lines prior to failure, maintaining reliability and safety. The Voltage Monitoring module provides real-time monitoring of voltage from field equipment. This will allow BWP to receive voltage alerts in semi-real time and respond to voltage problems faster. Gridview modules will need updating in 2023 for compatibility with new ArcGIS software.

## PROJECT DESCRIPTION AND JUSTIFICATION

Install transformer temperature monitors on transformer banks at Hollywood Way and Warner substations. In order to extend the life of substation equipment while maintaining reliability BWP needs to install temperature monitors on all substation transformer banks, starting with the most heavily loaded and oldest transformers. Real-time transformer oil and winding temperature data will give Energy Control Center (ECC) an excellent indication of whether a transformer is being overloaded and react accordingly. In addition, temperature data will allow engineering to better estimate the remaining life expectancy of a given transformer.

## PROJECT DESCRIPTION AND JUSTIFICATION

We went live with our current Meter Data Management System (MDMS) in 2009. After a comprehensive system analysis, it was determined the current MDMS had reached it's useful life and the version in use was no longer supported by the existing vendor. The purpose of this project is to acquire and implement an upgrade or new MDMS. After a request for proposal process, the vendor was selected and the upgraded MDMS went live in September 2018.

## PROJECT DESCRIPTION AND JUSTIFICATION

With the passage of SB100, there is an established target of 100 percent clean energy by the year 2045. To meet this ambitious goal, BWP will need to actively seek renewable energy opportunities from both in-territory and out-of-territory generation assets. This project will focus on multiple in-territory solar energy resources spread throughout the service territory that will contribute towards BWP's renewable energy targets.

| Department | Burbank Water and Power | Project Status | On-going |
| Account Number | 496 PS12Z 15022_0000 P21937 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

The Pacific Direct Current Intertie (PDCI) is a $+/-500 \mathrm{kV}$ direct current transmission line that connects the Pacific Northwest power grid with Los Angeles. The line was built over 40 years ago. The total capital project expenditure requests for FY $2020-21$ are $\$ 275,000$. LADWP is the Operating Agent for the California end of the PDCI. Southern California Edison has a 50 percent interest in the PDCI. Burbank, Glendale, and Pasadena each have approximately a 3.85 percent share of the PDCI. BWP has investigated these projects and has found them to be prudent and necessary for the safe and reliable operation of this valuable asset.

| Department | Burbank Water and Power | Project Status | New |
| Account Number | 496 PS31E 15022_0000 P22328 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Upgrade the line relays at both ends of the 34.5 kV Winona-Lincoln Line from electromechanical to microprocessor-based. The existing relays have exceeded their typical life expectancy. Failure of a protective relay during a fault can put personnel in danger and cause excessive damage to equipment. The new microprocessor-based relays will improve safety and reliability through relay self-diagnosis and higher accuracy, aid troubleshooting with relay event reports, and reduce maintenance costs by increasing the testing interval from 3 to 5 years.

## PROJECT STATUS UPDATE

This project is currently in the planning phase.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2021
Project will reduce O\&M costs on this asset by increasing the maintenance cycle from 3 to 5 years.

| Project Name | Replace Battery \& Charger - Hollywood Way | FY2020-21 Appropriation | $\$ 86,512$ |
| Department | Burbank Water and Power | Project Status | New |
| Account Number | 496 PS31E 15022_0000 P22270 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Replace battery banks and charger at Hollywood Way Substation. Replacing this equipment maintains reliability and prevents rising maintenance costs due to aging and worn equipment. Based on recent battery test results, it is recommended to replace portions of the battery bank at six stations. In some cases older technology battery chargers are also replaced because new chargers have thermal compensation that prolongs the life of the batteries.

PROJECT STATUS UPDATE
This project will begin July 1, 2020.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2021
Replacing the banks will have a negligible impact on O\&M.

# City of Burbank Project Information Sheet <br> FY2020-21 <br> BWP-Electric Utility 

|  |  |  |  |
| :--- | :--- | :--- | :--- |
| Project Name | Replace Burbank Subtn Getaways | FY2020-21 Appropriation | $\$ 504,535$ |
| Department | Burbank Water and Power | Project Status | On-going |
| Account Number | 496 PS31E 15022_0000 P22293 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Replace circuit getaways out of Burbank Substation. Project may include installing new duct packages, replacing cable, and rebuilding riser poles. Under BWP's planning criteria, the transformers, busses, and equipment at the Burbank Substation are rated to handle 65MW of electric load. However, the cable in the circuit getaways that leave the station are only rated to handle 48MW of load. This project upgrades these getaways to better utilized the existing Burbank Substation.

| Project Name | Replace GE Bus Relays at Capon | FY2020-21 Appropriation | $\$ 0$ |
| Department | Burbank Water and Power | Project Status | Future |
| Account Number | 496 PS31E 15022_0000 P23728 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

The General Electric (GE) bus relays at Capon station will be replaced with BWP standardized Schweitzer Engineering Labs (SEL) relays. The GE bus relays at Capon are over 20 years old and parts have been recommended by GE for replacement. The individual replacement parts are almost as expensive as relays that BWP has standardized on.

| Department | Burbank Water and Power | Project Status | On-going |
| Account Number | 496 PS31E 15022_0000 P22174 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Replace obsolete or worn 4 kV and 12 kV air circuit breakers in metal-clad switchgear or outdoor 4 kV oil circuit breakers in open rack substations with Vacuum Circuit Breakers (VCBs). Replacing this equipment maintains reliability, while preventing rising maintenance costs due to aging and obsolete equipment. Replacement with vacuum circuit breakers would reduce the possibility of potential failures, decrease maintenance costs, improve safety by reducing arc flash energy due to faster opening times, and eliminate the hazards associated with insulating oil.

## PROJECT STATUS UPDATE

Facilities are replaced as condition assessment requires.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2026
Replacing existing vaults will reduce O\&M costs by a negligible amount.

# City of Burbank Project Information Sheet <br> FY2020-21 <br> BWP-Electric Utility 

| Project Name | Repl Batteries \& Chargers-TBD | FY2020-21 Appropriation | $\$ 0$ |
| :--- | :--- | :--- | :---: |
| Department | Burbank Water and Power | Project Status | Future |
| Account Number | 496 PS31E 15022_0000 P22789 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Replace battery bank and charger at a electrical substation where the condition of the batteries warrant replacement. Replacing this equipment maintains reliability and prevents rising maintenance costs due to aging and worn equipment. In some cases older technology battery chargers are also replaced because new chargers have thermal compensation that prolongs the life of the batteries.

## PROJECT DESCRIPTION AND JUSTIFICATION

Several of BWP's protective relays used for protecting subtransmission lines and substation busses are manufactured by General Electric (GE). The manufacturer has recommended replacement of these relays due to issues that may compromise the reliable operation of these relays. In order to ensure that BWP's electric system maintains its high level of reliability, the replacement of several of these GE relays may be necessary.

| Department | Burbank Water and Power | Project Status | Future |
| Account Number | 496 PS31E 15022_0000 P22788 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Replace existing Remote Terminal Units (RTU) with new equipment in order to eliminate double entry configuration of data from Intelligent Equipment Devices (IED) to BWP's Supervisory Control and Data Acquisition (SCADA), and to eliminate communication and data issues attributed to existing RTU equipment. Existing RTU has been difficult to configure, troubleshoot, and maintain when compared to BWP's current standard. New relays would improve maintenance by removing problematic equipment and utilizing current standards which simplifies maintenance and troubleshooting of equipment.

## PROJECT DESCRIPTION AND JUSTIFICATION

Replace bushings on power transformers or circuit breakers that are expected to fail based on electrical testing. In order to maintain our current level of reliability, BWP has increased its electrical testing of power transformers and power circuit breakers. As a result of this electrical testing in 2017, Electrical Equipment crews identified several bushings that required replacement and some that need additional consideration. To date, new bushings were either ordered or installed on the high voltage side of two station power transformers. This budget was established in anticipation of additional bushing replacements on power transformers and circuit breakers which may be required after further electrical testing this year.

| Department | Burbank Water and Power | Project Status | New |
| Account Number | 496 PS31E 15022_0000 P22333 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Install transformer gas monitors on transformer banks at Naomi and Keystone substations. In order to extend the life of substation equipment while maintaining reliability, BWP needs to install gas monitors on all substation transformer banks starting with the most heavily loaded and oldest transformers. Real-time gas monitoring with multi-gas units would improve reliability by notifying BWP of a potential transformer issue in between annual oil samples.

| Account Number | 496 PS31E 15022_0000 P22332 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Install transformer gas monitors on transformer banks at Receiving Station E and switching stations. In order to extend the life of substation equipment while maintaining reliability, BWP needs to install gas monitors on all substation transformer banks starting with the most heavily loaded and oldest transformers. Real-time gas monitoring with multi-gas units will improve reliability by notifying BWP of a potential transformer issue in between annual oil samples.

| Department | Burbank Water and Power | Project Status | Future |
| Account Number | 496 PS31E 15022_0000 P22304 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Upgrade existing overhead ( OH ) conductor on circuit $\mathrm{M}-11$ to 477 mcm aluminum. Under peak loading conditions several customers on circuit $\mathrm{M}-11$ are receiving low voltage. Upgrading the heavily loaded conductors will reduce the voltage drop to the customers and bring them back within planning criteria and the upgrade will reduce line losses in this section by approximately 29 percent.

## PROJECT DESCRIPTION AND JUSTIFICATION

BWP is studying the optimal sizing and location of capacitor banks on the distribution system. Capacitors will be installed on distribution lines throughout the system. Reactive power, measured in Volt-Ampere Reactives (VARs), is a natural phenomenon of Alternating Current (AC) power systems that increases the current on a line without creating additional energy that can be used to do work (run a motor or light a bulb). This current creates heat losses in the line and reduces efficiency. By balancing the VARs on the distribution system, BWP can reduce these losses and increase the capacity on the lines to distribute real power.

| Project Name | Voltage Regulator Replacements | FY2020-21 Appropriation | $\$ 0$ |
| Department | Burbank Water and Power | Project Status | Future |
| Account Number | 496 PS31E 15022_0000 P22936 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

BWP's 4 kV electrical substations have three voltage regulators on each feeder. These voltage regulators change the voltage level to the 4 kV distribution feeder. With the increasing age of BWP's 4 kV substations, BWP maintenance expects that several of these regulators will require replacement in the upcoming years. This project reserves funding for replacing several regulators based on their condition.

PROJECT FUNDING AND EXPENDITURE DETAIL

## PROJECT STATUS UPDATE

This project is in the initiation phase.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2023
Reduces maintenance of worn equipment

|  |  |  |  |
| :--- | :--- | :--- | :--- |
| Project Name | Install LED Luminaires | FY2020-21 Appropriation | $\$ 330,000$ |
| Department | Burbank Water and Power | Project Status | On-going |
| Account Number | 129 PS61B 70006_0000 P21873 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Capital purchase of Light Emitting Diode (LED) luminaire materials to replace existing 100W (watt), 250W and 400W High Pressure Sodium (HPS) luminaires citywide. Replace about 100 fixtures on a monthly basis until all ( $\sim 9500$ ) streetlight fixtures have been converted. Utilize efficient technology for further improvements to the street lighting system in the City. LED fixtures consume less power than HPS fixtures and last longer than HPS lamps. Implementation of LED technology will increase energy-efficiency, maintain and improve illumination level, and reduce maintenance costs related to street lighting.

## PROJECT STATUS UPDATE

Crews are called out after hours to repair or replace streetlights damaged during vehicular accidents.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

On-going
A high volume of knockdowns requires a high amount of crew resources and adds significant cost to the streetlight budget.

|  |  |  |  |
| :--- | :--- | :--- | :--- |
| Project Name | Replace STLT w/ LED 12kV Conv. | FY2020-21 Appropriation | $\$ 20,000$ |
| Department | Burbank Water and Power | Project Status | On-going |
| Account Number | 129 PS61B 70006_0000 P22502 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Install LED (light emitting diode) luminaires to replace existing HPS (high pressure sodium) luminaires on power poles within the 12 kV conversion areas. During pole-line rebuild work is already being performed to transfer the streetlight mast-arm from the old poles to the new poles. The incremental labor cost to replace the luminaire is minimal, therefore new LEDs will be installed at the same time the streetlight mast-arms are being transferred. Utilize efficient technology for further improvements to the street lighting system in the City. LED fixtures consume less power than HPS fixtures, they last longer than HPS lamps, and the cost is comparable to HPS luminaires. Implementation of new LED technology will increase energy-efficiency, maintain and improve illumination levels, and reduce maintenance costs related to street lighting.

## PROJECT STATUS UPDATE

A portion of the existing streetlights in $\mathrm{N}-13, \mathrm{~N}-15, \mathrm{~N}-18$, and $\mathrm{N}-21$ conversion areas were converted to LEDs in FY 2019-20. A portion of the existing streetlights in V-7, W-1, V-4, V-9 and V-12 conversion areas will be converted to LEDs in FY 2020-21.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 30, 2024
Energy and maintenance costs will reduce as more HPS luminaires are replaced with long-life LEDs.

| Account Number | 129 PS61B 70006_0000 P21876 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

Install additional streetlights and alley lights at the request of residential and commercial customers. New streetlights are installed when they are initiated by customer requests and low light levels are confirmed by street lighting analysis. Replace deteriorating street lighting wood poles by Octaflute and Marbelite streetlight standards as identified by the citywide pole inspection program. This project improves the safety and illumination levels of the citywide streetlight system.

## PROJECT DESCRIPTION AND JUSTIFICATION

Various locations will be identified as part of a review of Public Works (PW) development projects requiring water facility adjustments and minor relocations. Project provides for relocation and adjustment of water meter boxes and valve covers due to construction of street improvements, sewers, and storm drains by the PW Department. Replacement of existing facilities increases reliability, reduces system leaks, and reactive maintenance.

| Department | Burbank Water and Power | Project Status | Future |
| Account Number | 497 PS51D 15022_0000 P23755 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

This old 20" cast iron transmission main conveys pumped water uphill directly from the Valley Pumping Plant (VPP) to the water distribution network and the reservoirs. This project will clean the tuberculated interior of the pipe and line it with a cement grout. Based on physical sampling and testing, the pipe is still in good condition. Removal of the interior's build-up will improve water quality, and lining the pipe with a layer of cement grout will inhibit further corrosion and enhance the hydraulic capacity of this critical transmission main.

PROJECT FUNDING AND EXPENDITURE DETAIL

## PROJECT STATUS UPDATE

This project will be bid in FY 2022-23.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2023
This project will reduce reactive maintenance and improve system flow operation.

## PROJECT DESCRIPTION AND JUSTIFICATION

Replace approximately 25 existing hydrants with new hydrants. Project provides funding for installation of new fire hydrant heads and replacement hydrants for ones that become obsolete (replacement parts unavailable). Projects are located in various parts of the City and the work is expected to continue at this rate until approximately the 150 identified hydrants have been replaced. Additional hydrant replacements may also be requested by the Burbank Fire Department. The annual hydrant replacement program has resulted in the replacement of 102 hydrants over the last 5 years.

## PROJECT STATUS UPDATE

This is an annual hydrant replacement program that has resulted in the replacement of 102 hydrants over the last 5 years.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2025
Replacement of existing facilities increases reliability, and reduces system leaks and reactive maintenance.

## PROJECT DESCRIPTION AND JUSTIFICATION

Tie over existing services to newly constructed water mains. When new water mains are constructed in response to new construction or redevelopment, existing services must be connected to the new main before the old main can be abandoned. Services for customers who are not part of the redevelopment are a cost to BWP where mains are being built or upgraded. This is an ongoing condition. Replacement of existing facilities increases reliability, reduces system leaks, and reactive maintenance.

| Department | Burbank Water and Power | Project Status | Continued |
| Account Number | 497 PS51D 15022_0000 P21753 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

The projected life cycle of our current water meters is 20 years. The project includes the ongoing replacement of meters, new measuring chambers for existing intermediate meters, and replacement of water meter boxes (440) that have been damaged or deteriorated. It provides replacement of water meters, or the internal measuring elements that have become inaccurate and no longer register water deliveries leading to lost revenue. Meter replacement cycles are determined by industry standards and ongoing testing of meters in use. Replacement of meter boxes is necessary for boxes that have deteriorated and pose safety hazards to the public. Projects are located in various areas of the City and are of an ongoing nature.

| Account Number | 497 PS52B 15022_0000 P21897 | Project Priority | 2 |

## PROJECT DESCRIPTION AND JUSTIFICATION

New recycled hydrants will be installed on existing pipelines. The projects are located at various locations within the City. The proposed budget assumes four hydrants per year will be added to the recycled water system. Recycled water hydrants will be provided for street sweeping, street tree maintenance, and construction water to reduce potable water demand. Increase in the use of recycled water will help reduce potable water use and our reliance on Metropolitan Water District (MWD) purchased water.

## PROJECT DESCRIPTION AND JUSTIFICATION

Replacement of water services due to tree root damage and other typical problems of old services. Provides for work on water services that have been damaged by tree roots or have become uneconomical to repair or have lost capability to provide required service. Projects are located in various areas and the work is of a continuing nature.This is an annual project to replace impacted services as needed. Replacement of existing facilities increases reliability, reduces system leaks, and reactive maintenance.

## PROJECT DESCRIPTION AND JUSTIFICATION

Installation of new recycled water services and meters at parcels abutting an existing recycled water main. The services will be located at various locations throughout the City and the work is of a continuing nature. Recycled water services and meters must be provided where requested or required due to redevelopment of properties. Increase in the use of recycled water will help reduce potable water use and our reliance on Metropolitan Water District (MWD) purchased water.

Forecasted Project Completion Date:
On-going Operating \& Maintenance Impact:

June 2021
This project will not impact on-going operating and maintenance costs.

in Entrance itor Parking

Accrual Basis of Accounting - Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Expenses emphasize the matching of the obligation to disburse economic resources (cash and all other assets causing a change in net assets) to the period in which the obligation was incurred by the City.

Appropriation - An authorization by the City Council to make expenditures/expenses and to incur obligations for a specific purpose within a specific time frame.

Assessed Valuation - A dollar value placed on real estate or other property by Los Angeles County as a basis for levying property taxes.

Audit - A view of the City's accounts by internal audit staff or an independent auditing firm to substantiate fiscal year-end fund, salaries, reserves, and cash on hand.

Balanced Budget - A budget in which projected revenues plus approved use of fund balance equals planned expenditures.

Basis of Accounting - All Governmental Funds are accounted for on a modified accrual basis, i.e. revenues are recorded when susceptible to accrual. Expenditures are recorded when the liability is incurred, except for compensated absences not payable within one year and principal and interest for long-term debt which is recorded when due. All Proprietary Fund types are accounted for using the full-accrual basis of accounting which recognizes revenues when earned and expenses are recognized when incurred.

Basis of Budgeting - Basis of budgeting refers to the method used for recognizing revenues and expenditures in the budget. Generally, the City uses the modified accrual basis for budgeting of all Governmental Funds and full accrual basis for Proprietary Funds.

Beginning / Ending (Unappropriated) Fund Balance - Unencumbered resources available in a fund from the prior/current fiscal year after payment of the prior/current fiscal years expenditures/expenses. This is not necessarily cash on hand.

Bond - A City may raise capital by issuing a written promise to pay a specific sum of money, called the face value or principal amount, at a specific future date or dates, together with periodic interest at a special rate.

Budget - A fiscal plan of financial operation listing an estimate of proposed applications or expenditures/expenses and the proposed means of financing them for a particular time period. The budget is proposed until it has been approved by the City Council through a series of study sessions and a formal budget hearing in June. Burbank's fiscal year is July 1 through June 30.

Capital Expenditure - The non-recurring outlay of funds to acquire an asset generally having substantial cost and/or useful life. These are budgeted as either capital improvement or capital outlay.

Capital Improvement Program - A financial plan of proposed capital improvement projects with single- and multiple-year capital expenditures/expenses. The Capital Improvement Program plans for five years and is updated annually.

Capital Outlay - A budget appropriation category for equipment having a unit cost of more than $\$ 5,000$ and an estimated useful life of over one year.

Capital Projects - Physical structural improvements with a cost of $\$ 5,000$ or more and a useful life of one year or more. Examples include a new park, building modifications, and water main construction.

City Charter - Legal authority approved in 1927 by the voters of Burbank under the State of California Constitution establishing the current Council Manager form of government organization

City Manager's Transmittal Letter - A general discussion of the budget. The letter contains an explanation of principal budget items and summaries.

Debt Service - Payment of the principal and interest on an obligation resulting from the issuance of bonds, notes, or Certificates of Participation.

Debt Service Requirements - The amount of money required to pay interest on outstanding debt and required contributions to accumulate monies for future retirement of term bonds.

Deficit - An excess of expenditures or expenses over revenues (resources).
Department - An organizational unit comprised of divisions or programs. It is the basic unit of service responsibility encompassing a broad mandate of related activities.

Depreciation - The expiration of the useful life of a fixed asset over a determined period of time attributable to wear and tear, deterioration, action of the physical elements, inadequacy, and obsolescence. Also, the portion of the cost of a fixed asset charged as an expense during a particular period.

Discussion Paper - Discussion papers are a vehicle through which departments may present proposals for creating or expanding services/programs to the City Council for consideration. If approved, the subject appropriations are then added to the budget.
Division - A sub-section (or activity) within a department which furthers the objectives of the City Council by providing specific services or a product.
Encumbrances - A legal obligation to pay funds, the expenditure/expense of which has not yet occurred. They cease to be encumbrances when the obligations are paid or otherwise terminated.

Enterprise Fund - A type of fund established for the total costs of governmental facilities and services operated in a manner similar to private enterprises. These programs are entirely or predominantly self-supporting.

Expenditure - The actual spending of Governmental Funds set aside by an appropriation.
Expense - The actual spending of Proprietary Funds (Enterprise and Internal Service Fund types) set-aside by an appropriation.

Executive Team - The City's Management team, consisting of the City Manager, Assistant City Manager and the head of each City Department.
Fiscal Year - A twelve-month period of time to which a budget applies. In Burbank, it is July 1 - June 30.
Full-Time Equivalent Position (FTE) - A part-time position converted to the decimal equivalent of a full-time position based on 2,080 hours per year. For example, a seasonal employee working four months, or 690 hours, would be equivalent to 0.3 of full-time position.

Fund - An independent fiscal and accounting entity used to record all financial transactions related to the specific purpose for which the fund was created.

Fund Balance - The amount of financial resources available for use. Generally, this represents the detail of all the annual operating surpluses and deficits since the fund's inception.

Gann Appropriations Limit - Article XIII-B of the California State Constitution provides limits regarding the total amount of appropriations in any fiscal year from tax proceeds.
General Fund - The primary fund of the City used to account for all revenues and expenditures of the City not legally restricted as to use. This fund is used to offset the cost of the City's general operations. Departments financed by the General Fund include Police, Fire, Park, Recreation \& Community Services, and others.

General Obligation Bond - Bonds used for various purposes and repaid by the regular (usually via the General Fund) revenue raising powers of the City

Grant - Contributions, gifts of cash, or other assets from another governmental entity to be used or expended for a specific purpose, activity, or facility. An example is the Community Development Block Grant provided by the Federal Government.

Infrastructure Oversight Board- A seven-member board appointed by the City Council to act as an advisory body on City infrastructure and traffic programs. The board reviews and recommends projects, programs, policies, and practices in accordance with adopted plans.

Interfund Transfers - Monies transferred from one fund to another. These transfers may finance the operations of another fund or to reimburse the fund for certain expenditures/expenses.

Internal Service Fund - Funds used to accumulate money to ensure adequate maintenance and replacement of a variety of durable capital goods, and/or to provide various internal services to other departments.

Materials, Supplies and Services - Operational expenditures/expenses which are ordinarily consumed within a fiscal year and which are not included in departmental inventories.

Municipal Code - A book that contains the City Council approved ordinances currently in effect. The Code defines City policy with respect to areas such as planning, etc.

Objectives - The expected results or achievements of a budget activity.
Operating Budget - Annual appropriation of funds for on-going program costs, including salaries and benefits, services and supplies, debt service, capital outlay, and capital improvements.

Ordinance - A formal legislative enactment by the City Council. It has the full force and effect of law within City boundaries unless pre-empted by a higher form of law. An Ordinance has a higher legal standing than a Resolution.

Performance Measures - Quantitative and/or qualitative measures of work performed related to specific departmental or program objectives.

Public Financing Authority - The Public Financing Authority is a separate entity attached to the City which participates in public financing of city projects and activities.

Reimbursement - Payment of amount remitted on behalf of another party, department, or fund.
Reserve - An account used to record a portion of the fund balance as legally segregated for a specific use.
Resolution - A special order of the City Council which has a lower legal standing than an ordinance.
Revenues - Amounts received for taxes, fees, permits, licenses, interest, intergovernmental sources, and other sources during the fiscal year.

Revenue Bond - A type of bond usually issued to construct facilities. The bonds are repaid from the revenue produced by the operation of these facilities.

Salaries and Benefits - A budget category which generally accounts for full-time and temporary employees, overtime expenses, and all employee benefits, such as medical, dental, and retirement.

Special Revenue Funds - This fund type collects revenues that are restricted by the City, State, or Federal Government as to how they may be spent.

Working Capital - The difference between the current assets and the current liabilities. It represents the operating liquidity available to the City on a day to day basis.

Workload Budget - A repeat of the most recent budget, with adjustments for contractual obligations such as MOUs or multi-year contracts, State or Federal mandates, internal service fund rate adjustments, scheduled equipment replacement, and necessary one-time expenditures.

## FUND DESCRIPIIONS

The basic accounting and reporting entity for the City is a fund. A fund is an independent fiscal and accounting entity used to record all financial transactions related to the specific purpose for which the fund was created. Funds are established for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The various funds are grouped within three broad fund types, governmental funds, proprietary funds and fiduciary funds. The following section provides further detail as to the specific funds within these broad categories.

## GOVERNMENTAL FUNDS

General Fund (001) - The General Fund is used to account for the general operations of the City such as Police, Fire, etc. It is used to account for all financial resources except those required to be accounted for in another fund.
General City Capital Projects Fund (370) - This fund is used to account for financial resources to be used for the acquisition or construction of major facilities other than those financed by Proprietary, Special Assessment, and/or Trust Funds. The primary source of the fund is contributions from the General Fund (Fund 001). However, this fund is restricted for capital use only.

Special Revenue Funds - These funds are used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. Special Revenue Funds are:

Transportation Funds (Prop A-104, Prop C-105) - These funds are used to provide for the distribution and use of Local Return funds generated by a $1 / 2$ cent Sales Tax revenue restricted to fund transportation related activities (Prop A, approved by LA County voters in 1980), and projects that benefit and support local transit services (Prop C, approved by LA County voters in 1990).
Air Quality Management District (AQMD) Fund (106) - Funds derived from a small portion of the annual vehicle registration license fees collected by the South Coast Air Quality Management District. These funds are used to fund the City's rideshare program and projects that reduce vehicle emissions.

Measure R Transportation Fund (107) - The Local Return Transportation and Traffic and Street Improvement Fund provides for the distribution and use of Local Return funds generated by a $1 / 2$ cent Sales Tax that was approved by Los Angeles County voters in 2008. Funds are utilized to improve local transit services, transportation infrastructure, public improvements and citywide roadway related capital improvement projects.
Measure M Transportation Fund (108) - The Local Return Transportation Fund provides for the distribution and use of Local Return funds generated by a $1 / 2$ cent Sales Tax that was approved by Los Angeles County voters in 2016. Funds are primarily utilized for street and road maintenance and improvement projects managed by the Public Works Department.

General City Grants Fund (121) - This fund is used to account for grant funds the City receives from Federal, State, and County sources.

Community Development Block Grants (CDBG) Fund (122) - The fund provides resources from the U.S. Department of Housing and Urban Development (HUD) for activities that benefit persons with low and moderate income.

Road Maintenance and Rehabilitation Fund (RMRA) (123) - This fund addresses deferred maintenance on the local street and road system through the use of gas tax revenues and the Transportation Improvement Fee that took effect on January 1, 2018.

Drug Asset Forfeiture Fund (124) - The City receives a portion of funds derived from drug asset seizures within the City's boundaries. These funds can only be expended on specific police related capital and onetime items.

State Gas Tax Fund (125) - This fund is used to account for monies received and expended from the State Gas Tax allocation. These monies are specified for work on street projects within the City.

## FUND DESCRIPIONS

Public Improvements Fund (127) - This fund accounts for monies received through the receipt of Development Impact Fees, and is restricted to projects identified in the City's Infrastructure Blueprint and Community Facilities Element.

HUD Affordable Housing Fund (128) - Funds received from the U.S. Department of Housing and Urban Development (HUD) to increase the City's supply of affordable housing and provide supportive services for homeless individuals and families.
Street Lighting Fund (129) -
to maintain, repair and upgrade the City's streetlight system to provide roadway and alley illumination to the City's residential and commercial customers.
Youth Endowment Services (YES) Fund (130) - This fund was created in the early 1990's to help accumulate funds to support youth activities and projects. The primary source of revenue was from the former Redevelopment Agency, which was dissolved in February 2012.
Successor Agency (208) - This fund was established pursuant to state law for the administration of the dissolution and wind-down activities of the former Burbank Redevelopment Agency (RDA). The Successor Agency is in charge of making enforceable obligation payments and disposing of former RDA property.
Debt Service Funds - These funds are used to account for the accumulation of resources, and the payment of, general long term principal and interest. Debt Service Funds are:

Successor Agency Debt Service Fund (208) - Fund 208 is responsible for debt service and bond payments that were previously administered by the former Redevelopment Agency that was dissolved in February 2012.

Housing Authority Funds - Established to administer the Section 8 Rental Assistance Program for the creation of affordable housing units. The Housing Authority has also been designated as the Successor Housing Agency to oversee ongoing obligations and responsibilities of the former Redevelopment Agency's affordable housing projects and programs.

Section 8 Voucher Program Fund (117) - To account for monies received and expended in housing assistance to low and moderate income families. Funds are provided by receipts from the Federal Section 8 Housing Assistance Fund (HUD) program, the Federal Section 8 Voucher program and the Federal Rehabilitation program.

Low/Moderate Income Housing Fund (305) - To account for financial resources used to increase and improve the supply of low and moderate income housing in the community. Prior to the former Redevelopment Agency being dissolved on February 1, 2012, the primary source of these funds was a twenty percent contribution of tax increment revenues generated from the former Redevelopment project areas. In accordance with the FY 2012-13 State Budget (AB 1484), excess housing funds were given back during FY 2012-13, with counties responsible for distributing these funds to all the applicable taxing agencies.

Parking Authority Fund (310) - To account for financial resources to be used for the acquisition, construction, maintenance and operation of public parking facilities. The primary source of funds has been parking permit fees.

## FUND DESC RIPIONS

## PROPRIETARY FUNDS

Enterprise Funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprise - where the intent of the governing body is that the costs (expenses including depreciation) of providing goods and services to the users on a continuing basis be financed or recovered primarily through user charges. Enterprise Funds are:

Water Reclamation and Sewer Fund (494) - This fund is used to account for the operation and maintenance of the Water Reclamation Plant and sewage system.
Electric and Water Funds $(496,497)$ - These funds are used to account for the production, distribution, and transmission of potable water and electricity to residents and businesses located within the City.

Refuse Collection and Disposal Fund (498)- This fund accounts for the activities involved in the collection and disposal of refuse throughout the City.

Internal Service Funds - These funds are used to account for financing of goods and services provided by one department to other City departments on a cost-reimbursement basis. Internal Service Funds are:

City Self Insurance Funds $(530,531)$ - These funds are used to finance and account for the City's Workers Compensation, general liability, and property insurance programs.
Vehicle Equipment Replacement Fund (532) - This fund accounts for the operation, maintenance, and timely replacement of the vehicular fleet and equipment utilized by general government departments on a rental fee basis.

Office Equipment Replacement Fund (533) - This fund is used to account for the acquisition, maintenance, and replacement of office and operating equipment utilized by City departments.

Municipal Infrastructure Fund (534) - Previously the Municipal Building Maintenance Fund, this fund was reorganized for FY 2019-20, and now provides for the maintenance and replacement of all general City infrastructure (non-enterprise). This fund receives 50 percent of the City's Transaction \& Use Tax revenue, resulting from the passage of Measure P in November 2018, in addition to an annual General Fund Maintenance of Effort (MOE) contribution of $\$ 4.7$ million.

Communications Equipment Replacement Fund (535) - This fund is used to account for the maintenance and timely replacement of the City's communication equipment.
Information Technology Fund (537) - This fund is used to account for the acquisition, maintenance, and replacement of technology infrastructure (including computer equipment, hardware, and software) utilized by City departments.

## FIDUCIARY FUNDS

Agency Funds - These funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Examples of Agency Funds are:

Deferred Compensation Fund (644) - This fund is used to account for employee earnings deferred for payment at a later point in time, gains or losses on investment of amounts deferred, and payment of amounts deferred when paid to participants in the program.
Special Assessment Fund (665) - This fund is used for the Debt Service Payments on assessment bond used to finance improvements. This special assessment district is secured by liens against the assessed properties. Activities financed through assessments include street lighting, utility, and other general infrastructure improvement.

## BURBANK COMMUNITY PRORLE

## General

The City of Burbank, California is located in the greater metropolitan Los Angeles area, approximately 12 miles northeast of downtown Los Angeles, nestled between the Hollywood Hills and the Verdugo Mountains. The city connects to Los Angeles basin via Interstate 5 and State Highway 134, along with the Metrolink Antelope Valley and Ventura lines.

Burbank is an established community that experienced modest population growth in the early 1980's, and steady population growth during the last two and a half decades. With a population of 105,861 , it is one of the largest populated cities in Los Angeles County. The economy represents a diverse blend of industrial, commercial, and residential development.

## Municipal Government

The City of Burbank was incorporated as a general law city on July 8, 1911 and adopted its City Charter on January 13, 1927. Burbank is administered by a Council-Manager form of government. The five City Council members, of whom one serves as Mayor, are elected at-large for four-year terms. Elections are staggered at two-year intervals.

As of June 30, 2020, the total City employee population is 1,459 with 1,153 full-time, 149 part-time, and 157 temporary employees. Six associations represent the City's employees: the Burbank City Employees' Association (BCEA), the Burbank Fire Fighters Association (BFF), the Burbank Fire Fighters-Chief Officers' Unit (BFF-COU), the Burbank Police Officers' Association (BPOA), the International Brotherhood of Electric Workers Local 18 (IBEW), and the Burbank Management Association (BMA). All the associations are subject to the Mayors-MilliasBrown Act, which requires each association to meet and confer with the City in an effort to develop a "Memorandum of Understanding" (MOU). Negotiations with each group are conducted prior to the adoption of the annual budget each fiscal year or the expiration of the applicable MOU. The City completed multi-year contracts with BFF, BMA, BPOA, and BFF-COU. Negotiations with BCEA and IBEW are currently underway.

## BURBANK COMMUNITY PRORLE

## Population

The following table summarizes the California Department of Finance estimates of population from 2010 through 2020. The population has grown at a fairly steady rate and accounts for a two percent increase over this ten-year time period.

## CITY OF BURBANK POPULATION

| Year | Population |
| :--- | ---: |
| 2010 | 103,340 |
| 2011 | 104,405 |
| 2012 | 104,732 |
| 2013 | 104,739 |
| 2014 | 105,019 |
| 2015 | 105,207 |
| 2016 | 105,110 |
| 2017 | 105,033 |
| 2018 | 107,149 |
| 2019 | 105,952 |
| 2020 | 105,861 |

## Industry and Employment

Burbank is a jobs rich City home to more than 12,475 businesses representing 154,020 employees. Burbank's major employers represent a variety of interests such as entertainment, technology, aviation, medical care, education and media related industries. In the past, employment was concentrated in the aerospace industry. Lockheed, a major aerospace employer, relocated out of the Burbank area in the 1990's, along with some related auxiliary component manufacturers. The sites of these firms have largely been redeveloped into various industrial and commercial uses, such as the Burbank Empire Center, and are located within close proximity to the Hollywood Burbank Airport.

The Hollywood Burbank Airport was named the "Best Airport in the United States" by Fodor's Travel in 2019. It is located three miles northwest of downtown Burbank and serves the northern greater Los Angeles areas of Glendale, Pasadena, and the San Fernando Valley. The Federal Aviation Administration categorizes the airport as a medium-hub primary commercial service facility catering to approximately 5.9 million passengers annually prior to the COVID-19 pandemic. With the passage of Measure B in November 2016, planning for the 14-gate replacement passenger terminal is now complete. Construction is
 scheduled to begin in early 2021.

## BURBANK FACTS

The production facilities of Warner Brothers Studios and The Walt Disney Company place Burbank in the forefront of Southern California's entertainment industry. Along with the entertainment giants, Burbank has nearly 1,000 media-related companies, employing approximately 35,829 employees. Other notable media companies Burbank is home to include The Burbank Studios, Blizzard Entertainment, ABC Inc., Nickelodeon, Cartoon Network, DC Comics, Legendary Entertainment, New Line Cinema, iHeart Radio, and KCET.

In the private and public industry, Providence St. Joseph Medical Center, Hollywood Burbank Airport, Burbank Unified School District and City of Burbank have steadily become the top employers of the City.

The following table highlights some of the top employers within the City of Burbank.

| Company Name | No. of <br> Employees | Products/Services |
| :---: | :---: | :---: |
| Warner Bros. Entertainment, Inc. | 4,378 | Entertainment |
| The Walt Disney Company | 4,008 | Entertainment |
| Providence St. Joseph Medical Center | 2,850 | Medical |
| Hollywood Burbank Airport | 2,850 | Aviation |
| Burbank Unified School District | 1,170 | Education |
| Deluxe Shared Services LLC | 1,495 | Entertainment |
| City of Burbank | 1,459 | Government |
| ABC, Inc. | 1,180 | Entertainment |
| Entertainment Partners | 796 | Entertainment |
| Nickelodeon Animation | 602 | Entertainment |

## BURBANK FACTS

Libraries: Three locations open 156 hours per week serving 850,000 users per year with a collection of more than 500,000 print and electronic items, free programs for all ages, public computers and wireless internet access, research and information assistance, and special services for low-literacy adults.

Parks \& Recreation: The Parks \& Recreation Department operates and maintains 41 parks and facilities, including 26 public parks, three recreation centers, one community center, two senior centers, two public pools, a nature center, a golf course, nineteen playgrounds, and fifteen baseball fields. The Department also provides a variety of recreational and community programs including: special interest classes; youth and adult sports programs; day camps; afterschool programs; nature programs; cultural arts activities; a congregate and home-delivered meal program; senior recreation activities; volunteer programs for residents of all ages; and year-round community events.

Streets: Approximately 280 miles of streets of which 47.9 miles are arterials, 50.3 miles of paved alleys, 368 miles of sidewalks, 192 signalized intersections, and 2 intersections with flashing signals.

Transportation: The City's BurbankBus provides weekday fixed-route transportation services to Burbank residents and employees. The BurbankBus transit system connects regional rail stations, including the Downtown Burbank Metrolink, Burbank Airport-North Metrolink, and Metro North Hollywood Red Line / Orange Line Stations, to the City's Media District and Airport area employment centers. The NoHo-Airport, Metrolink/Media District, and Golden State Circulator routes provide allday service and the NoHo-Media District route is available during peak periods. BurbankBus also offers a demand-responsive Senior and Disabled transit service that provides direct, curb-to-curb transportation to any destination within the City for Burbank's senior and disabled residents. More BurbankBus information can be found at www.burbankbus.org.

Police/Fire Services: The Police and Fire headquarters is located at Third Street and Orange Grove and five fire stations are located throughout the City.

## Safe Routes to School

In FY 2019-20, The Public Works Department completed the construction of the Safe Routes to School project. The primary goal of this project was to improve traffic safety around schools, encouraging more students to walk and bike to schools.

Safety improvements include construction of concrete bulb-outs, pedestrian ramps, asphalt repaving, installation of high visibility crosswalks, 15 mile per hour school speed zones, and related traffic signage around George Washington Elementary School, Thomas Jefferson Elementary School, and John Muir Middle School.

McCambridge Park War Memorial

In partnership with the Burbank Veterans Committee, the McCambridge Park War Memorial renovation was completed in November of 2019 to honor Burbank residents who have served in the military by recognizing the sacrifices they made in World War I, World War II, the Korean War, the Vietnam War, and other recent conflicts. Additions include five new memorials engraved with the names of fallen veterans, service flags, lighting, plants, benches, and irrigation.

## RSCAL YEAR 2019-20 HIGHUGHIS

## Streets, Alleys, and Concrete Improvements

The largest local residential paving project in Burbank Public Works history lead to the paving approximately 130 city blocks and constructing approximately 75 new curb ramps in FY 2019-20. This work was mainly performed in the Media District, but included some hillside locations as well.

## Leyland Sewer Relief Project

Approximately 1,700 Linear Feet (LF) of 18-inch diameter sewer main and manholes were constructed along Leland Way, adjacent to the Burbank Western Channel, from the alley northwest of the intersection of Leland Way and Broadway (north) to the intersection of Leland Way and Broadway (south). This project provides additional storage capacity and the ability to bypass wastewater flows away from private properties during heavy rainfall events.
