

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

City Council
City of Burbank
Burbank, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information, including the Air Quality Management District Special Revenue Fund (AQMD), of the City of Burbank, California (the City) as of and for the year ended June 30, 2018, and have issued our report thereon dated January 14, 2019.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the City of Burbank's internal control over financial reporting as it relates to the AQMD as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the AQMD's financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over AQMD financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting related to the AQMD.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the AQMD's financial statements are free of material misstatements, we performed tests of its compliance with applicable provisions of Assembly Bill 2766 (AB2766), Chapter 1705 (Health and Safety Code Sections 44220 through 44247), noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance related to AQMD. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance related to AQMD. Accordingly, this communication is not suitable for any other purpose.
