(a) Capacity units are based on the typical discharges of the SFD, MFD, Mobile Home, and Boarding House. California Association of Sanitation Agencies (CASA) is in the process of evaluating capacity units based on sampling data provided by California agencies.

(b) Evaluate individual process discharges. Default value shown.

(c) Allocate to the restaurant and lodging.

(d) Square footage added to an existing single-family residential dwelling unit will be evaluated for additional sewer facilities charges on a proportional basis considering the square footage of the existing residence and the average household size of 1,800 square feet.

(e) Accessory Dwelling Units (ADU) greater than 750 square feet will be assessed a proportional sewer facilities charge based on the single-family residential rate and average household size of 1,800 square feet.

SECTION 4. FEE WAIVERS FOR SPECIAL ANIMAL SHELTER EVENTS

(Added 6/22/99, Resolution 25,543)
(Last Update 5/24/22, Resolution 22-29,321)

Description	Amount	Unit/Time

(A) With the approval of the Parks and Recreation Department Director or their designee, the Animal Shelter Superintendent may designate specific days or weeks for special fee events such as Senior Day or Senior Week. These events will be scheduled to encourage adoption from the Animal Shelter and allow the Parks and Recreation Department Director or their designee to waive fees. The Animal Shelter will publicize the events along with eligibility requirements. Eligibility requirements will be set by the Animal Shelter Superintendent.

(B) Notwithstanding the Fees established in Section 2, Registration Fees and Section 3, Adoption Fees of this Article, all applicable fees will be waived for the adoption of a dog, cat, or bunny as a personal pet by eligible participants such designated periods. The waiver is for the specified fees and will be at the time of the adoption only, and does not affect any future fees, such as the next year's registration.

(C) Adoption fees shall be waived for all United States Military Veterans. For the purpose of this Fee Schedule, a "veteran" is defined as a "person who served in the active military, naval, or air service, and who was discharged or released therefrom under conditions other than dishonorable. To verify qualification for the program, veterans must present proof of their veteran status by providing a Certificate of Release or Discharge from Active Duty (DD Form 214) or their retired United States military identification card at the time of adoption. A veteran will be limited to a maximum of three adoptions and the waiver program will be capped at a maximum of $1,500 in veteran adoption subsidies annually.

(3) The cost payable to others for transmission of the utility's electricity over transmission facilities owned by others;

(4) The cost payable to others for power system operation and dispatching the utility's electricity;

(5) The cost of water required for electrical generation;

(6) Taxes and other fees for the transmission of the utility's electricity;

(7) The costs payable to others for the operation and maintenance for the utility's transmission facilities located outside Burbank;

(8) The costs of payments made to the City for the ECAC portion of gross sales of electrical energy under Section 33 of the Charter;

(9) Costs of funding for competitiveness

(10) The rates stated in this fee schedule are based on the overall ECAC rate indicated in (A). Any increase or decrease in the ECAC rate above or below this level shall be applied as a uniform cents/kWh charge to each energy rate block in each rate schedule.

Limitation:

The monthly ECAC shall not increase or decrease by more than ten (10) percent from the prior month's ECAC.

SECTION 14. STANDBY SERVICE (SCHEDULE S)
(Last Update 6/2/26, Resolution 26-29,706)

Description	Amount	Unit/Time
(A) Back-Up Service and Maintenance Service Electric capacity and energy supplied by BWP during a scheduled or unscheduled outage of the Customer's generation facilities to replace power ordinarily generated by the Customer. Electric capacity and energy will be provided for outages scheduled with BWP at least 30 days in advance. Scheduled outages will not be permitted during the months of June through October. During other periods, BWP will not unreasonably withhold approval of Maintenance Service. Customers shall notify BWP as soon as possible (not to exceed 24 hours) after the initiation of each unscheduled outage of the Customer's generation facilities.		
(1) Demand Charge		
(a) Primary Service Peak kVA	$23.50	kVA
(b) Secondary Service Peak kVA	$25.50	kVA
(2) Energy Cost Adjustment Charge Section 13		
Effective January 1, 2026	$0.0340	kWh
Effective January 1, 2027	$0.0340	kWh
(a) During an Energy Cost Crisis, the ECAC for Back-Up Service or Maintenance Service shall be equal to the average variable cost of the most expensive 10 megawatts of resources actually operated by BWP. In the case of utility-operated resources, this is calculated as the variable fuel cost plus $0.01/kWh. In the case of purchased power, this is calculated as the purchase rate, plus any required wheeling cost, plus $0.01/kWh.		
(b) An Energy Cost Crisis shall be defined as any day when the variable cost of purchased power delivered at SP 15 or Palo Verde exceeds $0.10/kWh as reported by the Intercontinental Exchange (ICE), or the cost of natural gas delivered in Southern California as reported by Gas Daily exceeds $10.00 per million BTU. The General Manager or designee will notify all Standby Service Customers by email on a day-ahead basis of any day when the day-ahead prices reach these levels and on a same-day basis when the real-time market prices reach these levels. The General Manager or designee may choose to forgo Energy Cost Crisis pricing at his or her discretion.		
(3) Minimum Charge		
The Minimum Charge shall be the Demand Charge.		
(a) Primary Service Peak kW/kVA	$23.50	kVA
(b) Secondary Service Peak kW/kVA	$25.50	kVA

(B) Supplemental Service

Electric capacity and energy are supplied by BWP on a regular basis to supplement Customer generation.

(1) Supplemental Service shall be billed at the appropriate rate schedule in accordance with the General Service rate classifications in the BWP Rules and Regulations except as stated below.

Refer to Schedule D, L-TOU, or XL-TOU as appropriate

The Billing Demand for Supplemental Service shall be equal to the total demand by the Customer less the Billing Demand for Back-up and Maintenance Service, and less any exempt generation, in any month.

(C) Customers Exempted from Schedule S

(1) Customers with less than 20 kW of on-site generation.

(2) Customers with an on-site generation that is used exclusively when service from the utility is not available, plus testing not to exceed 48 hours per year.

(3) Customer generation from renewable energy systems (such as solar or wind) with capacities of no more than 250 kW, or that qualify for Net Energy

SECTION 8. WATER COST ADJUSTMENT CHARGE (WCAC)

(Last Update 6/3/25, Resolution 25-29,616)

Description		Amount	Unit/Time

(A) Purpose

The Quantity Charge is subject to a purchased Water Cost Adjustment Charge (WCAC) as specified in this section in order to compensate the City for its varying costs of purchasing or producing water. The WCAC shall be adjusted when the WCAC reserve balance is less than one month or greater than three months purchased water and shall be calculated to the nearest $0.005 per HCF. The monthly WCAC shall not increase or decrease by more than ten (10) percent from the prior month's WCAC.

(B) Formula

For all water rates, except the school rate, the adjustment shall be determined in accordance with the following formula:

$$\text{Adjustments (mills per unit)} = \frac{1000 \times \text{Estimated Water Costs}}{\text{Estimated Units of Water Sales} \times .95}$$

Description	Amount	Unit/Time

(C) Definitions

(1) “Estimated Water Costs” shall mean the total cost to the City of purchased water delivered to the City from the Metropolitan Water District (MWD) or other independent suppliers, basin replenishment water, related MWD charges, Readiness to Service Charge and Capacity Reservation Charge, chemical costs for treating the water, including granular activated carbon, compliance water testing, ULARA watermaster expense related to the maintenance, protection, and/or development of basin water resources and the total cost to the City for electric power to pump water. All such costs shall be estimated monthly by the General Manager for the next 12-month period. The WCAC reserve balance will be adjusted by any under or over-collections of water costs exceeding the WCAC reserve balance limits experienced by the City. The City Council will be advised of any change in the WCAC rate.

(2) "Estimated Units of Water Sales" shall mean: the hundreds of cubic feet of potable water sales for the next 12-month period as estimated by the General Manager.

SECTION 9. MISCELLANEOUS WATER CHARGES

(Last Update 6/2/26, Resolution 26-29,706)

The total charge shall be the sum of the Water Availability Charge, Quantity Charge, and Water Cost Adjustment Charge (WCAC) as established in this section.

SECTION 11. PHYSICAL SOLUTION WATER COST

(Added 6/22/99, Resolution 25,543)
(Last Update 6/2/26, Resolution 26-29,706)

Description	Amount	Unit/Time

The water rights in the Upper Los Angeles River Area were established by the JUDGMENT AFTER TRIAL BY COURT in Superior court Case No. 650079, entitled The City of Los Angeles, A Municipal Corporation, Plaintiffs vs. City of San Fernando, et al., Defendants. Under the Judgment, certain parties have rights to Physical Solution Water upon payment of specified charges. Valhalla and Lockheed have the right to 300 acre-feet and 25 acre-feet of water respectively.

From time to time, other property owners, not covered by the Judgment, have a need to produce groundwater for temporary and/or long-term dewatering activities relating to construction, building foundations, basements or underground facilities, and for property soil and groundwater contamination clean up activities. The water is typically discharged to a storm drain or sewer. The City of Burbank should be compensated for the removal of this water from the groundwater basin. The charge for this water will be the Physical Solution Water Charge plus an Administrative Fee.

(A)	Physical Solution Water Charge The charge for Physical Solution water in Burbank is determined by Section 9.4 of the Judgment.			
	(1)	For Fiscal Year 2026-27 the charge to Vahalla and Lockheed for the first 300 acre-feet and 25 acre-feet respectively will be $1,242.18 per acre-foot.	$1,242.18	Acre-foot
	(2)	Vahalla and Lockheed production exceeding that specified in 1 above, and all other production for dewatering or soil/groundwater clean up activities, will be charged $1,824.73 per acre-foot.	$1,824.73	Acre-foot
(B)	Administrative Fee			
	An Administrative Fee of $55.00 will be added to each monthly bill.		$55.00	
	It is the responsibility of the producer to report the monthly water extraction to the Burbank Water & Power Department, Water Division and the Upper Los Angeles River Area Watermaster. The extraction volume shall be reported prior to the 15th of the following month.			

ARTICLE XII
FIBER OPTIC RATES AND CHARGES

SECTION 1. GENERAL SERVICE

(Last Update 6/6/23, Resolution 23-29,429)

Description		Amount	Unit/Time
(A)	Dark Fiber Lease Rate (applicable to retail service only)	$245.00	Per Fiber/Per Mile/Per Month

(B) Minimum Charge
The minimum charge shall be one mile.

(C) New Service Installations

The connection fee for New Installations is an aid-in-construction charge to recover costs incurred in providing fiber optic service. For each project, an estimate will be generated. Billing will be for actual charges unless they exceed the original estimate, in which case billing will be for the estimated amount only. This is a one-time, non-recurring charge.
