Parks and Recreation Department

4. Memo  Evaluate Extending BurbankBus Fixed-Route Service into the Hillside Area
Community Development Director
At the April 28, 2020 City Council meeting, Mayor Springer requested a report and draft letter of opposition to Assembly Bill (AB) 828. The bill would suspend foreclosures, allow courts to adjudicate whether tenant remains in possession during unlawful detainer case if tenant can prove loss of income or increased expenses due to COVID. The bill also stated that courts may establish repayment plans and potentially reduce rent by 25%. AB 828 was amended on May 18, 2020 and the rent reduction provision was removed and it was sent to the Senate Rules Committee. AB 828 is one of 80 or so housing bills that staff is tracking and staff will pay careful attention to how this bill progresses and prepare letters of support or opposition as appropriate.
**CITY OF BURBANK**  
**PARKS AND RECREATION**  
**ANNOTATED AGENDA/MEETING SUMMARY**

Meeting: Parks and Recreation Board  
Date: Thursday, June 11, 2020

**Staff Present:** Marisa Garcia, Parks and Recreation Director; Diego Cevallos, Deputy Director; Mike Del Campo Landscape and Forestry Services Superintendent; Kristen Smith, Deputy Director; Erin Barrow, Recreation Service Manager; Paula Ohan, Administrative Analyst II; Meri Young, Administrative Analyst II; Rena Ghamelian, Recording Secretary; Daniel Amaya, Clerical Worker and Web Ex Host.

**Board Members Present:** Ms. Burghdorf, Mr. Gussow, Mr. DePalo, Ms. Peguero Gamio, Ms. Lowers

**Board Members Absent:**

<td></td>
<td>for any Departmental need. She also petitioned to having Phase 4 of the Utility Box Beautification Program be considered in the Magnolia Park area. Lastly, she asked for an update on the Community Garden project. Mr. Dawson Dill a 6-year resident of Burbank called in to convey his thanks to the Department for the various programs they provide the community and share his concern of the Rose Parade Float drawings. He has noticed that in the last few years most of the floats do not represent people of color. He would like to see diversity on the float to better represent Burbank.</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>Response to Oral Communications</td>
<td>Barry Gussow addressed Mr. Dill’s comment, sharing that float decisions are made in advance and a committee makes the design choice. Marisa Garcia shared with Mr. Dill that the choosing of the float design is done by a non-profit organization called Burbank Tournament of Roses Association. The Department will provide their contact information for Mr. Dill to share his thoughts. Marisa Garcia responded to Ms. Takahashi with an update on the community garden project. Marisa Garcia expressed her gratitude for Suzanne Weerts’ comments regarding Staff and the Department. Ms. Peguero Gamiño voiced her agreement with Mr. Dill and appreciates the comment of adding diversity to the Burbank Rose Float.</td>

| 7 | Park Facility Tour | Kris Smith presented the Park Facility Tour. Staff recommended that the Parks and Recreation Board select a date and time in which the Board would like to facilitate a park facility tour. The Staff would like the Board to visit the following sites:  
- Batting Cages project at McCambridge Park;  
- Fitness Equipment at Ralph Foy Park;  
- Community Garden at Chandler and Pass;  
- Shade Structures at Johnny Carson Park;  
- Dog Park site at Johnny Carson Park; |
|   |   | It was moved by Mr. DePalo seconded by Mr. Gussow and carried 5-0 to hold the Park Facility Tour on Thursday July 30th 4:00 p.m. to 6:00 p.m. |
| 8 | Capital Improvement Program Status Update | Meri Young presented the Capital Improvement Program Status Update. As part of the City's Annual Budget Process, staff requested funding for the infrastructure projects, which fall into the following categories: maintenance, Programmatic capital, and CIP. Ms. Young reviewed the projects that have been completed in Fiscal Year 2019-2020. She also provided a list of anticipated projects that will completed in Fiscal Year 2020-2021.  
Mr. Gussow is very pleased with what they have accomplished this year and is looking forward to all the new projects. He suggested the possibility of keeping the bunker project active, renovating a bunker or two each fiscal year.  
Ms. Lowers expressed her excitement in the much-needed Verdugo Gym Floor project. She expressed that the gym floor has been long overdue.  
Ms. Burgdorf asked about the cost of completing a bunker.  
Mr. Del Campo shared that it is roughly about 15-20 thousand dollars, this is based on square footage and the work involved.  
Mr. DePalo wanted information on the location of the batting cage at Olive and the type of use the City is anticipating. |
|   |   | Noted and filed. |
Mr. Cevallos shared that the batting cages will be a single use cage, it will provide an area for the coach and player to practice. The batting cages will be a joint use venture with the Burbank Unified School District. The primary users will be the Burbank High School, Burroughs High School and the Park and Recreation programs. Mr. Cevallos shared that the Sports Office will be permitting the cages out when not in use.

MEMORANDUM

DATE: June 16, 2020

TO: Justin Hess, City Manager

FROM: Patrick Prescott, Community Development Director  
VIA: David Kriske, Assistant Director-Transportation  
BY: Adam Emmer, Transportation Services Manager

SUBJECT: City Manager Tracking List #2247– Evaluate Extending BurbankBus Fixed-Route Service into the Hillside Area

At its September 10, 2019 regular meeting, the City Council asked staff to evaluate extending BurbankBus fixed-route service into the Burbank Hillside residential neighborhood. The memorandum responds to the City Council’s request by analyzing the route, cost, and service parameters of a possible hillside fixed-route transit service that would connect to Downtown Burbank.

The Burbank Hillside neighborhood is the large single- and multi-family neighborhood east of Glenoaks Boulevard. While the Hillside does not have significant transit service, it is directly adjacent to Downtown Burbank where significant transit service converges. BurbankBus currently does not operate in the Hillside neighborhood or anywhere east of Interstate 5, although the Pink Route connects the western portion of the city to Downtown Burbank at the Downtown Burbank Metrolink Station. Metro’s 183 bus service provides weekday hourly service through a portion of the Hillside neighborhood on its path between Downtown Burbank and the city of Glendale. It operates along a circuitous route via Olive Avenue, Kenneth Road, Cypress Avenue, Bel Aire Drive, and Alameda Avenue.

To investigate the City Council’s request, staff developed a potential route that would operate as a single-direction service originating and terminating at the City’s Downtown Metrolink Station. Given BurbankBus does not currently operate east of Interstate 5, staff assumed the Hillside service would be provided as an all-new BurbankBus route. Having the proposed route originate at the Downtown Metrolink station would facilitate connections with the regional rail system (Metrolink), BurbankBus’ Pink Route (providing connections with Metro rail services at the Universal City Metro Station), Metro bus services, and Santa Clarita Transit.
A potential Burbank Bus Hillside route would very likely duplicate portions of Metro Line 183 and Metro Line 92. The route would serve that portion of the Hillside neighborhood, who would potentially use the proposed services in lieu of current Metro bus services. It would also serve key trip generators in Downtown Burbank as well as Burbank High School. A representation of the potential route appears below.

The potential route would travel the following path:

- Exit the Downtown Metrolink Station along Front St.
- Right on First St.
- Left on Verdugo Ave.
- Left on Glenoaks Bl. (light)
- Right on Cypress Ave. (light)
- Right on Bel Aire Dr. (2-way stop; Bel Aire does not stop)
- Right on Verdugo Ave. (2-way stop; Bel Aire does not stop)
- Right on Kenneth Rd. (4-way stop)
- Left on Olive Ave. (4-way stop)
- Left on Glenoaks Bl. (light)
- Left on Verdugo Ave. (light)
- Right on First St.
- Left into Downtown Metrolink Station

The potential route covers a distance of 4.4 miles. Based on the likely operating speed, a run-time of between 19 and 22 minutes is anticipated. This run-time would support 30-minute service frequency. The route was identified for broad planning and cost purposes and would have to be further evaluated prior to implementation to determine stop locations, roadway and parking conditions, and the vehicle’s ability to negotiate turns.
along the proposed alignment. The narrow streets, high use of on-street parking, and uncontrolled street intersections would require additional analysis to determine how effectively a large transit bus could serve this neighborhood.

For service planning purposes, staff assumed all-day service consisting of a 13-hour service day (6:00 a.m. to 7:00 p.m.) with 30-minute service frequency utilizing one vehicle. Based on these basic service parameters, the estimated cost is presented below.

<table>
<thead>
<tr>
<th></th>
<th>Hours</th>
<th>Cost/hour</th>
<th>Total Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Daily</td>
<td>13</td>
<td>$59.16</td>
<td>$769.08</td>
</tr>
<tr>
<td>Weekly</td>
<td>65</td>
<td>$59.16</td>
<td>$3,845.40</td>
</tr>
<tr>
<td>Annually</td>
<td>3,315</td>
<td>$59.16</td>
<td>$196,115.40</td>
</tr>
</tbody>
</table>

The cost estimates are based on the City’s current transit operations contractor rate of $59.16 per hour and the assumption that the City’s current fixed-route fleet is sufficient to accommodate the proposed service. Additional costs related to bus stop installation including signage and associated rider amenities have not been included within the operational cost estimates.

Further, staff evaluated the proposed Hillside service using the City Council’s recently adopted BurbankBus Service Policies. The City Council established four core service principles to guide future BurbankBus service development: 1) minimum 15-minute service frequency, 2) all-day service, 3) point-to-point service (i.e., no loops), and 4) connect with regional transit hubs. As envisioned the proposed Hillside service would address only two of the four service development principles (Principles 2 and 4).

Based on historic ridership data for Metro Line 183, staff estimates the proposed Hillside route would provide less than 100 rides per day. This is comparable to the low ridership that the City experienced on the Golden State Circulator service, which was recently discontinued due to low ridership and high cost. This translates to a projected cost per ride of nearly seventy-five dollars ($75.00), and is nearly eight-times higher than the current BurbankBus system-wide cost per ride of ($9.46). This ridership estimate also does not take into account the impacts that the COVID-19 pandemic is having on transit service overall.

The Fiscal Year 2019-20 BurbankBus annual operating budget is $2,069,343. Implementation of the proposed Hillside service would require allocation of 9.5% of the annual budget and necessitate service reductions to more productive BurbankBus routes or an increase in the operating budget to cover the new service.

Due to low historic ridership, duplication of existing services provided by Metro, anticipated cost per passenger trip, impacts to other BurbankBus routes and only partial adherence with adopted BurbankBus service development policies, staff recommends against implementing a proposed Hillside bus service.
