

City of Burbank – Community Development Department BUILDING DIVISION

SETBACK CERTIFICATION REQUIREMENT

When a setback certification is required to certify the location of new construction and additions of a structure or a pool in relation to setbacks, this certification must be completed by a surveyor licensed by the State of California. A copy of the certification shall be given to the Building Division Inspector prior to the first inspection. **The following is a list of Land Surveyors who have worked in Burbank or who requested to be on the list. However, a project owner may hire any California state-licensed surveyor of their choosing:**
