3. What We’ve Heard
4. Phased Approach
5. Status
6. Timeline
7. Data Presentation
8. Question/comment
Late 90’s: Regional traffic generated by studios and commercial properties in Media District

1998: City Council adopted NPP to address:
• Cut-through traffic
• Speeding
• Spillover of commercial parking

2001: Permanent measures installed
WHAT WE’VE HEARD

Recent Past
Need to alleviate:
• Cut-through traffic
• Neighborhood parking
• Speeding

Present
• Raisin’ Cane’s
• Metro BRT
• Olive/Sparks/Verdugo intersection

Future
Does the 1998 NPP still serve the neighborhood effectively?
PHASED APPROACH

Phase 1: Short-term temporary measures
  • Immediate need to control spill-over and cut-through traffic around drive-thru
  • Could include turn restrictions and traffic control

Phase 2: Long-term NPP update
  • Broader analysis of entire NPP
  • Assessment of Phase 1 measures
  • CEQA documentation
STATUS

Contracted with on-call consultant who collected data
Two-Phase Approach:
1. Short-term temporary measures
2. Long-term NPP update

DATA PRESENTATION
QUESTIONS AND COMMENTS

Neighborhood observations, experience. What has worked? What do you like? What are your concerns? What roadway conditions do you wish to see?
