COMMUNITY DEVELOPMENT

City of Burbank 2244 North Buena Vista Street Project

The City of Burbank is proposing to upgrade and remodel an existing 4,329 square foot building to create a new location for Home Again Los Angeles (HALA), a local nonprofit organization, who will provide services to homeless families. The building would serve as their headquarters office and include case management rooms, community room, job center, and intake/assessment room in conjunction with the proposed interim housing along with the construction of four tiny home cabins to provide interim housing for homeless families on a site. The Project site is owned by the City and upon City Council final approval, will be leased to HALA.

The City is hosting two Community Meetings to present the project plans and answer community questions. Join either option to learn about project updates and share your thoughts and ideas.

Community Meeting #1 (Virtual)

Wednesday, March 5, 2025
6:00-8:00 pm

Community Meeting #2

Thursday, March 6, 2025
6:00-8:00 pm
