Which Boards would you like to apply for?

Transportation Commission: Submitted
Infrastructure Oversight Board: Submitted

Length of time as a Burbank Resident:

12 years

Burbank Registered Voter?

Yes No

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board, commission or committee?

I've been involved through Burbank Little League and other adult sports, and I'm ready to volunteer to help in government. I've worked for 3 years in alternative fueled vehicles and infrastructure, and I have a passion for sustainable, efficient, and neighborhood-friendly transportation.

Education

Master's in Business Administration: Finance Concentration, California State University, Northridge
Bachelor of Science: Mechanical Engineering, California State University, Northridge

Additional Pertinent Courses or Training

Licensed Professional Engineer (M34922), California Department of Consumer Affairs

Other Pertinent Skills, Experience or Interests

I've worked as a collegiate rugby coach for 10 seasons, and I feel like this committee would be a more multigenerational application of the skills I have developed over the years (listening, studying, engaging).

[Upload a Resume](#)

Community Involvement

Specify current or prior service on a City Board, Commission or Committee:

Burbank Transportation Commissioner

List Community activities in which you are involved:

Coach, Burbank Little League - 2018 - 2020

If you are related to any City of Burbank employee(s), please state their name(s), relationship(s), and department(s). If you are not related to a City of Burbank employee, please put N/A.

N/A

Conflict of Interest

Conflict of Interest:

Rules of law and ethics prohibit members from participating in and voting on matters in which they may have a direct or indirect conflict of interest including a financial interest. Are you aware of any potential conflicts of interest which may develop from your occupation or financial holdings in relation to your responsibilities as a member of the Board, Commission or Committee to which you seek appointment?

Yes No

If you answer yes, explain in detail any potential conflicts in the same manner as required by the Fair Political Practices Commission's Statement of Economic Interests (Form 700). (If you should have any questions about this matter or need further information as it relates to your situation, please advise the City Clerk prior to submitting your application.)

AB 1234 Training

The Board, Commission or Committee (collectively Board) you are seeking appointment to provides City reimbursement for attending trainings or conferences. Therefore, under State Law all members of the Board must receive at least two hours of ethic's training, as prescribed by the Fair Political Practices Commission, within one year of appointment and once every two years thereafter.

First Choice

FIRST choice for Board/Commission/Committee appointment:

Transportation

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position.

I have spent the last three years dedicated to hydrogen and natural gas refueling station design, financing, permitting, and construction activities for on the road vehicles. This involved working with state and local agencies like the CEC, CARB, and SCAQMD to find financing and allied interests. As a mechanical engineer, the efficient and safe movement of objects under power is my area of responsibility and I know what it is to design for multimodal transit. In my undergrad training, I led a team that designed, built, tested, and raced a human-powered vehicle (3 wheeled trike) at the American Society of Mechanical Engineers Human Powered Vehicle Challenge. I've also walked, ran, cycled, driven, and ridden the buses/trains throughout our city. We are a 100% clean energy car home: my wife drives a Chevy Bolt (BEV), and I a Toyota Mirai (FCEV) - although I do not advocate banning any fuels!

What are your goals in serving on this Board/Commission/Committee?

I want to use my experience as a professional and as a resident to help advise on solutions to transportation related issues brought to the Commission. As a parent of two young BUSD students, I also want to see the city finances managed sustainably with an eye toward synergies and shared victories. I would also like to see innovative outreach to stakeholders to increase usage of some assets (Burbank Bus, non-Chandler Bikeways, etc.) while driving down usage of overused ones (I-5, major streets).

Second Choice

SECOND choice for Board/Commission/Committee appointment:

Infrastructure Oversight Board

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position

I have spent the last three years dedicated to hydrogen and natural gas refueling station design, financing, permitting, and construction activities for on the road vehicles. This involved working with state and local agencies like the CEC, CARB, and SCAQMD to find financing and allied interests. As a mechanical engineer, the efficient and safe movement of objects under power is my area of responsibility and I know what it is to design for multimodal transit. In my undergrad training, I led a team that designed, built, tested, and raced a human-powered vehicle (3 wheeled trike) at the American Society of Mechanical Engineers Human Powered Vehicle Challenge. I've also walked, ran, cycled, driven, and ridden the buses/trains throughout our city. We are a 100% clean energy car home: my wife drives a Chevy Bolt (BEV), and I a Toyota Mirai (FCEV) - although I do not advocate banning any fuels!

What are your goals in serving on this Board/Commission/Committee?

I want to use my experience as a professional and as a resident to help advise on solutions to infrastructure related issues brought to the Board. As a parent of two young BUSD students, I also want to see the city finances managed sustainably with an eye toward synergies and shared victories. I would also like to see innovative outreach to stakeholders to upgrade our city with inclusive view points. Modern infrastructure is the skeleton upon which we will build the next hundred years of our city.

Supplemental Questions

Question applies to Infrastructure Oversight Board

Please list your experience, knowledge and/or expertise with City infrastructure and affiliated processes and procedures for projects (both major and routine/regular) and maintenance.

My early engineering career was spent on natural gas infrastructure as an Engineer for the local gas utility, including the natural gas piping system that supplies the City of Burbank. I have worked on energy efficient programs working with government customers, including cities, that involved analysis of electrical usage, heating/cooling demands, and critical infrastructure maintenance with respect to demand and supply alignment. I've worked in natural gas plants dealing with ongoing maintenance concerns, and designed replacement systems to enable safer and more efficient operation and preventative maintenance work. One of my first projects was upgrading the lighting in a compressor building to be brighter, more electrically efficient, and operationally easier to replace burned-out fixtures.

Question applies to Infrastructure Oversight Board

Please list your expertise and knowledge as it pertains to City infrastructure in any of the following areas (indicate which of the following apply and further explain each item below):

- Civil Engineering
- Architecture
- Project Management
- Urban Planning
- Traffic Engineering (including parking)
- Structures/Buildings
- Construction Management
- Budget/Financing
- Other related and pertinent experience

(Please type your response in the comment box below)

• Civil Engineering - as a licensed Mechanical Engineer, I have worked extensively with Civil Engineers on projects and have an excellent working knowledge of the discipline. Their input is critical for the literal foundation of the built environment. Having experienced the Northridge earthquake and its aftermath, I know how important it is to design our critical systems for the most extreme scenarios to ensure continuity of services when we need them most. • Architecture - the visual aesthetics of the built environment are an important part of how people and things interact. We have our historical architecture from the city's early days that is important to the character and history of our city. Through this lens we should engage architects with projects in the city to help enhance our built environment but not detract from the functionality. • Project Management - My engineering career has always been intertwined with project management. As a licensed Mechanical Engineer, it is often my discipline taking the lead in the projects, and therefore I have served as the project manager for nearly every capital project I have been involved in. Maintaining a budget, schedule, critical path tree, and updated communication to key stakeholders and disciplines are all attributes to a successfully managed project. • Urban Planning - Quality of life and efficient use of space are competing needs in a busy municipality. As a city that has three times as many folks commuting in to work than reside to work, Burbank has to balance the commercial needs of the businesses and customers with residents who sleep and recreate here. Furthermore, as we add more residents, we will need to provide both places for them to live, but to also eat, drink, and travel. Future-focused planning will allow for growth while minimizing the negative externalities (congestion, pollution, excess noise, lack of access to resources) that we all closely associate with increased development. • Traffic Engineering (including parking) - my licensure doesn't include traffic engineering, but I do have personal experience as a lifelong Southern California resident. Despite the national guidelines on vehicle speeds, I do not favor increasing speed limits to "80% of whatever vehicles could safely travel without a posted speed limit." The idea that we should let cars go faster than 35 mph because drivers "want to" is absurd given the spate of car collisions with pedestrians and our emphasis on public transportation as an important commuter resource. Safety should emphasize the most vulnerable first (pedestrians and cyclists), and not the loudest critics (single occupancy vehicles). Burbank is a destination city, and not a pass-through, so we should be mandating cars travel at a safe speed given all of the factors and not just what's important to drivers. Free parking is a cost that Burbank pays on behalf of the commuters and customers. We should include parking as a major category for discussion in conjunction with our development plans, encouraging the use of public transit and first/last mile options as viable. • Structures/Buildings - My licensure doesn't include Structural Engineering, but I do have thoughts from my personal experience. I think Burbank does a fair job of protecting its building heritage while allowing new development. I know that buildings often outlive their primary intended use, but that doesn't mean the first option should be demolition. Stakeholder feedback, including neighborhood commentary, should be incorporated into project development. I would encourage continued development and sharing of city standards (like for the Magnolia Park heritage signs) that has some kind of "carrot and stick" for developers to keep within or enhance the design standards. • Construction Management - I have extensive experience in construction management, most recently with vehicle fueling station development. As we have learned in the I-5 expansion project, requiring contractors to have more money on hand to deal with their shortcomings (like bad homework on utility locations) can be a major factor in construction schedules. As a city that owns a significant portion of the infrastructure in our borders, we need to be watching out for outside parties and their impact on our property. • Budget/Financing - Large infrastructure projects are notorious for being over budget, and this often stems from the budget developer being the information gatekeeper. It is most often a known entity that blows up the budget, and rarely an "Act of God." With this in mind, our city should maintain an archive of project budgets (budget to actuals) that can be referenced when judging future project budgets (if one doesn't already exist). A detailed historical record could be invaluable for providing context for project budget and financing decisions. This could provide evidence requiring a proportional emergency cash reserve to protect the City from financial mismanagement. • Other related and pertinent experience - I have spent the last three months as a Burbank Transportation Commissioner, back filling a vacancy. The Transportation Commission re-appointment is my first choice, but I would give my same duty of care and effort as a member of the Infrastructure Oversight Board.

Acknowledgement

Please Agree with the Following Statement

ALL INFORMATION SUBMITTED IS A PUBLIC RECORD AND WILL BE POSTED ON THE CITY'S WEBSITE. All City Board, Commission, and Committee members serve without compensation from the City. No person shall serve at the same time on more than one Board, Commission or Committee. All applicants must be electors of, and actually reside in the City of Burbank, with the exception of the Burbank Cultural Arts Commission and the Sustainable Burbank Commission. (Per BMC Section 2-1-405, 2-1-406, 2-1-407)

I Agree

Professional Profile

- High-performing engineer, project manager, and utility professional with more than 13 years of experience in project / program management and engineering.
- Strong financial background in analysis, financial design, project budgeting / tracking
- Highly skilled at building internal and external relationships with public and private agencies
- Experience leading interdisciplinary teams comprised of internal and external members
- Experienced presenter of technical and non-technical information to educate and persuade various audiences in both formal and informal settings

Employment

JL Engineering, Inc. - Burbank, CA

Principal

Dec 2019-Present

- Responsible for generating business for start-up engineering firm.
- Completed analysis of landfill gas collection piping system, report recommended upgrades, and following submittal directed repairs to field to improve methane production for electrical generation.
- Completed mechanical installation of replacement landfill-gas power plant. Served as on site project manager and project engineer, interpreted engineering system and improved design to better fit existing site conditions. Provided guidance to client on overall plant improvements to ensure smooth integration of the different systems. Analyzed generator cooling water system and designed the pump system to meet site demands. Improved wastewater treatment design to be operated by a programmable logic controller. Interfaced with City of Los Angeles Sanitation, LA Department of Water and Power technicians and engineers to bring about a seamless transition from the flaring of the gas to electrical generation.
- Hydrogen refueling station development at various sites in California - light and heavy duty locations.
- Consulting engineer for hydrogen station refueling projects in California. Provided feedback on equipment siting and other NFPA-2 related planning decisions.

Fiedler Group – Pasadena, CA

Sr. Mechanical Project Manager Engineer

Feb. 2019-Dec 2019

- Responsible for the Mechanical Engineering department specializing in hydrogen refueling stations and project management for permitting hydrogen refueling stations in many states.
- Acted as Project Manager for dozens of projects including the first heavy duty hydrogen refueling station in North America. As the Engineer of Record for the Mechanical system; this project was fully permitted by the AHJs and ready for construction.
- Designed and submitted for plan check review and comment hydrogen refueling stations for light, medium, and heavy duty vehicles.
- Permitted operational hydrogen mobile fueling units in various cities in California for Fuel Cell Vehicle (FCV) infrastructure
- Collaborated with numerous Fire Department AHJ's resulting in the permitting of hydrogen refueling stations using NFPA 2, NFPA 30A, and local Fire Codes.

Southern California Gas Company – Los Angeles, CA

Senior Market Advisor, Natural Gas Vehicles Program

2017-Feb 2019

- Responsible for financing the conversion of medium and heavy-duty vehicles from diesel to compressed natural gas (CNG) powered using federal, state, and local government funding as well as private capital.
- Completed twelve public speaking/presentation engagements in sixteen months. Invited to speak as a subject matter expert on the technology, environmental impacts, and the financing of CNG vehicles and renewable natural gas. Invited to be a Plenary Panelist at the 2018 Environmental Justice Conference covering Technology's Role in the Future of Environmental Justice, hosted by the Southern California Air Quality Management District moderated by the AQMD Executive Director.
- Developed and delivered a \$4.8 million proposal to South Coast Air Quality Management District in response to a program announced for air pollution control projects that reduce / mitigate emissions / toxic exposure. Worked as the lead in developing the proposal, working closely with the Environmental Affairs department and NGV Project Managers to build/upgrade four company-owned Heavy-Duty accessible CNG stations to expedite the adoption of CNG powered replacement trucks.
- Developed a Utility Incentive Proposal for CNG vehicle conversion. Utility incentive would support customer adoption by decreasing the upfront capital cost of adopting a CNG vehicle over an existing diesel-powered vehicle.

Senior Customer Programs Advisor/Customer Programs Advisor II

2010-2017

- Managed three State energy efficiency state partnerships: University of California & California State University Partnership, California Department of Corrections & Rehabilitation Partnership, and the State of California Partnership (all other non-affiliated state departments). Also managed one local governmental partnership with the City of Simi Valley from 2013 to 2015.

- Increased the UC / CSU partnership projects from 11% of three-year energy saving goal to 52% by the end of 2011 and 105% of annual energy savings goal through 2012.
- Signed the first-ever \$1 million On-Bill Finance loan offered by SoCalGas for an energy efficiency project.
- Finished the 2010-2012 program cycle at 132% of energy savings goal for the California Department of Corrections and Rehabilitation & Investor Owned Utility (CDCR/IOU) Energy Efficiency Partnership Program.
- Completed 2012 with the State of California Partnership with 108% of the annual energy savings goal achieved.

Engineer II / Associate Engineer

2007-2010

- Managed various projects at all active company natural gas storage fields.
- Engineered and managed the design and installation of a major fresh water pump assembly project. Budgeted, ordered and tracked the materials, designed piping / fittings, sized & chose pump, supervised construction and installation.
- Supervised design and drawing development for two new plant fire protection water systems to include electric and diesel-powered pumps and hydrants. Directed the engineering firm in the design of the fire system to ensure that the pump assembly would meet the specifications of the existing fixed foam fire protection system.
- Directed the design development and supervised the initial construction of a pipe bridge with sections spanning a total of one thousand feet. Directed the environmental permitting through the City of Los Angeles and the California Coastal Commission.
- Replaced and installed new overpressure sensors and relief valves on critical piping systems which were previously undersized. Managed the material procurement and engineered the system redesign and piping modifications.
- Analyzed a water disposal system and created a fluid model used to support storage zone expansion.
- Managed catch basin rebuilding project. Repaired damage in environmentally-sensitive areas. Engineered the repair, directed contractor, inspected the work being performed, and ensured project was completed on time and on budget.
- Audited and corrected pipe and instrumentation drawings during an as-built survey of relief valves.
- Followed up on a fire protection audit of the storage fields to correct all code compliance issues.

Education

- Master's in Business Administration: Finance Concentration, California State University, Northridge, May 2013
- Bachelor of Science: Mechanical Engineering, California State University, Northridge, June 2007

Computer Skills

AutoCAD, SAP, MS Project, Visual Basic for Applications, MatLab, SynerGEE Gas Modeling, Solid Works, Trimble GIS

Professional Associations

- Licensed Professional Engineer, M34922 – California Department of Consumer Affairs
- Occidental College, Women's Rugby Club – Coach
- National Society of Professional Engineers – Member
- American Society of Mechanical Engineers – Member
- Tau Beta Pi – Engineering Honor Society, CA Kappa Vice President 2006-2007, Member

Community Involvement

Specify current or prior service on a City Board, Commission or Committee:

Republican Presidential Task Force, Republican National Committee.

List Community activities in which you are involved:

Participate in a charity walk or run, Volunteer at a local nonprofit, Organize a clothing drive, Participate in a national giving or remembrance day, Ask for charitable donations instead of birthday or Christmas gifts, Host a fundraising event and donate the money, Inspector of Elections. Instructor of Aikido, City Community of City of Pasadena, youth students.

If you are related to any City of Burbank employee(s), please state their name(s), relationship(s), and department(s). If you are not related to a City of Burbank employee, please put N/A.

N/A

Conflict of Interest

Conflict of Interest:

Rules of law and ethics prohibit members from participating in and voting on matters in which they may have a direct or indirect conflict of interest including a financial interest. Are you aware of any potential conflicts of interest which may develop from your occupation or financial holdings in relation to your responsibilities as a member of the Board, Commission or Committee to which you seek appointment?

Yes No

If you answer yes, explain in detail any potential conflicts in the same manner as required by the Fair Political Practices Commission's Statement of Economic Interests (Form 700). (If you should have any questions about this matter or need further information as it relates to your situation, please advise the City Clerk prior to submitting your application.)

AB 1234 Training

The Board, Commission or Committee (collectively Board) you are seeking appointment to provides City reimbursement for attending trainings or conferences. Therefore, under State Law all members of the Board must receive at least two hours of ethic's training, as prescribed by the Fair Political Practices Commission, within one year of appointment and once every two years thereafter.

First Choice

FIRST choice for Board/Commission/Committee appointment:

Burbank Cultural Arts Commission.

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position.

Serve my community through positive leadership and to minimize the benefits of Burbank life for all citizens. Better economy with better living costs, better price of labor and etc. Communications skills, Honesty, Technical Competency, Work Ethic, Flexibility, Determination and Persistence, Ability to Work in Harmony with Co-Workers, Eager and Willing to Add to Their Knowledge Base and Skills.

What are your goals in serving on this Board/Commission/Committee?

1. Decide-Think of something I want to do or work towards. 2. Write it down. Carefully. 3. Tell someone-Telling someone we know about our goals also seems to increase the likelihood that we will stick at them. 4. Break my goal down- This is especially important for big goals. 5. Plan my first step. 6. Keep going. 7. Celebrate.

Second Choice

SECOND choice for Board/Commission/Committee appointment:

Transportation Commission/ Position: Commissioner.

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position

A graduate degree, especially an BA, is in advantage. Leadership-Set the direction for the entire department, providing guidance and mentorship to employees, and taking responsibility for overall performance. Transportation expertise-Knowledgeable about industry trends, supply chain processes, best practices, and compliance requirements. Organizational-Drive projects from start to finish and assign responsibilities, keeping track of several processes at once and making sure that deadlines are met. Communication- I am excellent, well-rounded communicators adept at making presentations, facilitating meetings, negotiating contracts, and holding one-on-one conversations. I am proactive and agile, taking swift action to effectively execute projects, ensuring that projects are in line with their allotted budgets and establishing rates with carriers and providers.

What are your goals in serving on this Board/Commission/Committee?

To provide advice to the Mayor and City Council regarding intermodal transportation issues as directed with the goal of establishing a system of transportation and circulation within and around the City of Burbank that will make it possible for all people utilizing various modes of transportation to reach their destination safely and easily with minimum disturbance to adjacent uses. To recommend to the Mayor and the Council policies and programs with the objectives of the Burbank Comprehensive Plan. To advise the Mayor and City Council regarding transportation needs of future City development, and to maintain and enhance the quality of life in Burbank by creating transportation systems which move people effectively and safely.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board, commission or committee?

I have a passion for building a sustainable future for generations to come and have dedicated my career to this mission. I have worked at two utilities in roles that have helped accelerate the transition to a carbon free world. I have experience working on smart grid technologies, energy innovation, renewable energy, electric vehicles, energy efficiency, and clean energy programs. In my role, I have helped local governments with sustainability plans, reach codes, GHG inventories, and carbon reduction strategies. I have also worked with the UC and CSU systems to make their campuses more sustainable through the development of the nation's first GHG emissions incentive program (the Clean Energy Optimization Pilot). I think I would be a good addition to the Sustainable Burbank Commission because I will bring pragmatic solutions to solving real world problems. While my preference is to be on the Sustainable Burbank Commission, I also have a passion for transportation. In particular, I have a passion for transportation electrification and mass transit and making Burbank a more walkable and bikeable city.

Education

Conflict of Interest

Conflict of Interest:

Christopher Malotte

Rules of law and ethics prohibit members from participating in and voting on matters in which they may have a direct or indirect conflict of interest including a financial interest. Are you aware of any potential conflicts of interest which may develop from your occupation or financial holdings in relation to your responsibilities as a member of the Board, Commission or Committee to which you seek appointment?

Yes No

If you answer yes, explain in detail any potential conflicts in the same manner as required by the Fair Political Practices Commission's Statement of Economic Interests (Form 700). (If you should have any questions about this matter or need further information as it relates to your situation, please advise the City Clerk prior to submitting your application.)

AB 1234 Training

The Board, Commission or Committee (collectively Board) you are seeking appointment to provides City reimbursement for attending trainings or conferences. Therefore, under State Law all members of the Board must receive at least two hours of ethic's training, as prescribed by the Fair Political Practices Commission, within one year of appointment and once every two years thereafter.

First Choice

FIRST choice for Board/Commission/Committee appointment:

Sustainable Burbank Commission

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position.

Experience: Senior Advisor, Public Sector Strategy & REN Coordination, Southern California Edison, Rosemead, CA (2012 – current) • Leading EE Modernization effort for SCE seeking to streamline how SCE delivers DSM programs to customers to drive greater energy savings, community engagement, and cost effectiveness. • Development and implementation of \$20M Clean Energy Optimization Pilot, a first of its kind, customer-friendly offering designed to incent pilot participants to reduce GHG emissions through on-site energy related measures. First year evaluation showed 33% greater than expected results in ¾ of a year. • SCE representative to the California Energy Efficiency Coordinating Committee (CAEECC). Manage customer service perspective for EE regulatory work including comments and reply comments on Potential and Goals, Business Plan, REN Joint Cooperation Memos, Local Government Terms and Conditions and any data requests • Strategy and Program management for \$20M+/yr. Regional Energy Networks (Southern California Regional Energy Network (administered by LA County) and Tri-County Regional Energy Network(administered by Counties of Ventura, Santa Barbara, and San Luis Obispo)). • Program management for \$1.2M/yr. Statewide Energy Efficiency Collaborative (SEEC). SEEC is a collaborative of CA investor owned utilities and three non-governmental organizations to promote energy efficiency and sustainability best practices to local governments throughout the state. • Program management for work related to CA Long-Term Energy Efficiency Strategic Plan. Responsibilities included reviewing local government GHG inventories, sustainability plans, reach codes, and outreach reports. Smart Grid Program Analyst, Arizona Public Service, Phoenix, AZ (2011-2014) • Managed and coordinated Operational Technology Advisory Committee – executive committee that sets the course for the company regarding various technologies. • Managed all aspects of transportation electrification for APS, including implementation of Electric Vehicle Time-of-Use rate, interfacing with Customer Service and Transmission & Distribution to manage electric vehicle load, and regulatory filings. This included a regulatory compliance filing on electric vehicles submitted to the Arizona Corporation Commission each year. • Worked with various consultants and APS personnel to develop and get executive approval for \$250M 5-year smart grid strategy. • Educated internal and external stakeholders and the public through presentations on APS's electric vehicle program. Additionally, worked with the other AZ utilities to increase support for and participation in EVAZ Electric Vehicle Policy Stakeholder Group. EVAZ is a diverse group of stakeholders including utilities, OEMs, local governments, and others interested in electric vehicles with the goal of driving increased adoption of electric vehicles. • Led multiple business unit initiatives to develop strategy for optimizing and electrifying APS motorized fleet. • Assisted with multiple business unit initiative to develop company strategy for demand response. • Managed \$1.5M Chase Field battery storage and electric vehicle charging station deployment; the first EV chargers to be deployed on city streets in the US. • Led multiple business unit initiative to develop company strategy for energy storage. • Assisted with multiple business unit initiative to develop company strategy for microgrids. • Assisted with the marketing, deployment, and testing of Home Energy Information Pilot Program. This pilot tested the feasibility of demand response capable thermostats and smart phone energy information apps. • Assisted with the deployment of APS Schools and Government Solar Program and presented to internal stakeholders and community relations representative about Schools and Government Solar Program Education: Arizona State University MS Engineering Technology, Alternative Energy, Dec. 2011 University of California, San Diego BS Physics, Minor in Political Science, March 2008

What are your goals in serving on this Board/Commission/Committee?

I would like to play a role in the development of city plans to build a sustainable, livable world in Burbank for generations to come. In particular, I would like to help develop a Green New Deal for Burbank, revisions to the Sustainability Action Plan, and help develop strategies that can drive Burbank to be a leader in sustainability.

Second Choice

SECOND choice for Board/Commission/Committee appointment:

Transportation Commission

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position

Experience: Senior Advisor, Public Sector Strategy & REN Coordination, Southern California Edison, Rosemead, CA (2012 – current) • Program management for \$1.2M/yr. Statewide Energy Efficiency Collaborative (SEEC). SEEC is a collaborative of CA investor owned utilities and three non-governmental organizations to promote energy efficiency and sustainability best practices to local governments throughout the state. • Program management for work related to CA Long-Term Energy Efficiency Strategic Plan. University of California, San Diego

BS Physics, Minor in Political Science, March 2008

Relevant Experience

Senior Advisor, Public Sector Strategy & REN Coordination, Southern California Edison, Rosemead, CA (Jul 2016 – current)

- Leading EE Modernization effort for SCE seeking to streamline how SCE delivers DSM programs to customers to drive greater energy savings, community engagement, and cost effectiveness. Policy proposals include a GHG emissions reduction goal, 4-year application cycles, alignment of EE Potential and Goals with EE reporting and measurement, and cost-effectiveness realignment. Policy proposals currently under consideration by CPUC.
- Development and implementation of \$20M Clean Energy Optimization Pilot, a first of its kind customer friendly offering designed to incent pilot participants to reduce GHG emissions through on-site energy related measures. First year evaluation showed 33% greater than expected results in ¾ of a year.
- SCE representative to the California Energy Efficiency Coordinating Committee (CAEECC). Manage customer service perspective for EE regulatory work including comments and reply comments on Potential and Goals, Business Plan, REN Joint Cooperation Memos, Local Government Terms and Conditions and any data requests
- Strategy and Program management for \$20M+/yr. Regional Energy Networks (Southern California Regional Energy Network and Tri-County Regional Energy Network).
- Program management for \$1.2M/yr. Statewide Energy Efficiency Collaborative (SEEC). SEEC is a collaborative of CA investor owned utilities and three non-governmental organizations to promote energy efficiency and sustainability best practices to local governments throughout the state.

Marketing Analyst 2, Southern California Edison, Rosemead, CA (Aug 2014 – Jul 2016)

- Assisted with any regulatory work for DSM Partnerships. Work included developing two program abstracts, two Program Implementation Plans, a Partnership dashboard, and a comparison tool for changes associated with the CA Long-Term Energy Efficiency Strategic Plan.
- Program management for work related to CA Long-Term Energy Efficiency Strategic Plan. Responsibilities included refresh of Strategic Plan offering, development of Strategic Plan Best Practices Report, approving Strategic Plan applications, reviewing deliverables, interacting with project managers, and reporting on progress of work-to-date.
- Led SCE's Operational Excellence initiative for Public Sector Energy Efficiency Program group, resulting in more than 75 fewer contracts, consolidation of 5 partnerships, and over \$2.5M in savings.
- Approved any co-branded marketing piece that partners develop as part of their partnership. This process was streamlined through my development of a co-branding checklist and use of the OneVoice approval process.

Smart Grid Program Analyst, Arizona Public Service, Phoenix, AZ (Sept 2012 – Aug 2014)

- Managed all aspects of transportation electrification for APS, including implementation of Electric Vehicle Time-of-Use rate, interfacing with Customer Service and Transmission & Distribution to manage electric vehicle load, and regulatory filings. This included a regulatory compliance filing on electric vehicles submitted to the Arizona Corporation Commission each year.
- Educated internal and external stakeholders and the public through presentations on APS's electric vehicle program. Additionally, worked with the other AZ utilities to increase support for and participation in EVAZ Electric Vehicle Policy Stakeholder Group. EVAZ is a diverse group of stakeholders including utilities, OEMs, local governments, and others interested in electric vehicles with the goal of driving increased adoption of electric vehicles.
- Managed \$1.5M Chase Field battery storage and electric vehicle charging station deployment; the first EV chargers to be deployed on city streets in the US.
- Led multiple business unit initiatives to develop strategy for optimizing and electrifying APS motorized fleet.

- Managed and coordinated Operational Technology Advisory Committee – executive committee that sets the course for the company regarding various technologies. This included giving several executive presentations on electric transportation, vehicle safety technologies, and home thermal storage technologies.
- Worked with various consultants and APS personnel to develop and get executive approval for \$250M 5-year smart grid strategy.
- Developed Transformer Load Management Tool business case and acted as project manager for Transformer Load Management Tool development and roll out.
- Assisted with multiple business unit initiative to develop company strategy for demand response.
- Led multiple business unit initiative to develop company strategy for energy storage.
- Assisted with multiple business unit initiative to develop company strategy for microgrids.
- Assisted with the marketing, deployment, and testing of Home Energy Information Pilot Program. This pilot tested the feasibility of demand response capable thermostats and smart phone energy information apps.
- Developed and maintained budget/forecast tool for smart grid programs.

Sr. Program Coordinator, Arizona Public Service, Phoenix, AZ (Dec 2011 – Sept 2012)

- Assisted with the deployment of Schools and Government Solar Program. This included creating work orders, updating databases, and running reports
- Developed list of pre-qualified schools to increase participation in the program
- Presented to internal stakeholders and community relations representative about Schools and Government Solar Program

Renewable Energy Summer Intern, Arizona Public Service, Phoenix, AZ (June 2011 – Dec 2011)

- Modeled production output and forecasted 20-year budget for solar production-based incentive programs
- Researched and presented on the physical and economic feasibility of smart inverters
- Led team to develop a Renewable Energy Book of Programs
- Researched and monitored regulatory and government affairs related to renewable energy and smart grid
- Developed process documentation for Renewable Energy data collection and reporting
- Processed small, medium, and large non-commercial renewable incentive applications

Fluidics and Device Systems Engineer Summer Intern, Applied Biosystems, Foster City, CA (Summers of 2005 & 2006)

- Designed, executed, and analyzed data for an experiment testing thermo-profile of Diffractive Optics Real Time PCR Machine
- Designed, executed, and developed an experiment evaluating the fluorescence signal capturing ability of diffractive optics setup
- Designed, executed, and analyzed data of experiment assessing PCR viability of diffractive optics setup. Assisted in development of cell sorting device
- Designed, executed, and analyzed data for experiment testing speed and intensity of cell movement in cell sorting device
- Analyzed data and results and presented a formal report to division

Other Work Experience:

System Design Administrator - SunRenu Solar - Scottsdale, AZ (Sept 2010 - Apr 2011)

Assistant Underwriter - CIBA Insurance Services - Glendale, CA (Nov 2009 - May 2010)

Deputy Field Organizer - Campaign for Change - Fort Collins, CO (Sept 2008 - Nov 2008)

Manager/Valet - Sunset Parking Services - San Diego, CA (Nov 2005 - Sept 2008)

Shift Manager - Old Fashioned Kettle Korn - Sherman Oaks, CA (Sept 2000 - Sept 2005)

Relevant Skills and Abilities

Engineering/science skills

- Computer skills (PowerPoint, Excel, Word, Access, Tableau, Matlab, Assembly Code), basic electronics skills (oscilloscope, function generator, microprocessors), and machining skills (lathe, drill press, milling machine)

Other abilities

- Ability to lead others, problem solve, learn quickly, and adapt to new situations

- Ability to relate technical details to non-technical, business-driven people
- Ability to understand and explain economic impacts of a given program or technology

Awards/Achievements

Finalist for SEPA Utility of the Year Award

Finalist for Public Utilities Fortnightly Top Innovator Award

Nominee for Ted Craver Leadership in Business Innovation (2020)

SCE Spot Bonus SC02 - Significant contributions that lead to major growth, innovation or cost-savings (June 2018)

Which Boards would you like to apply for?

Police Commission: Submitted
Transportation Commission: Submitted

Length of time as a Burbank Resident:

18 years

Burbank Registered Voter?

Yes No

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board, commission or committee?

Having served for 18 years, I would like to continue being part of the solution. I am familiar with the Police Department, having served 23 years in the military, including two years in a combat environment. I believe I have a unique understanding of their job. Having worked in transportation for many years, I think I can help coordinate with the Burbank TMO to assist our community with the last mile between public transit and their destination.

Education

MFA Acting for Film and Screenwriting - New York Film Academy, 2017/2019 Masters of Business Administration and Management - Webster University 1985 BA Political Science - Villanova University 1981 AA Military Science - Valley Forge Military College 1979

Additional Pertinent Courses or Training

Pepperdine University, Executive Certificate -Transportation and Para Transportation Mgmt, 2000
University of Notre Dame, Executive Certificate - Negotiations and Conflict Management, 2015

Other Pertinent Skills, Experience or Interests

Having served as the Chairperson of both the Traffic and the Transportation Commission, I believe I have a unique insight into our community's needs. In addition, as an active member of a variety of community organizations, I have a broad view of the problems and concerns of our citizens. I believe that this provides me an opportunity to bring various points of view forward.

Upload a Resume

Transportation Commission 2003 - 2007 Traffic Commission 2007 - 2019. Transportation Commission 2019 to the present. Past chairperson of both.

List Community activities in which you are involved:

City of Burbank Veterans Committee, Leadership Burbank Class of 2008, Kiwanis - Past Lt Governor/Past President, Scouts BSA Scoutmaster Troop 219, VFW - Life Member/Trustee, Knights of Columbus - Former District Deputy/Past Grand Knight/Trustee, American Legion - Life Member

If you are related to any City of Burbank employee(s), please state their name(s), relationship(s), and department(s). If you are not related to a City of Burbank employee, please put N/A.

N/A

Conflict of Interest

Conflict of Interest:

Rules of law and ethics prohibit members from participating in and voting on matters in which they may have a direct or indirect conflict of interest including a financial interest. Are you aware of any potential conflicts of interest which may develop from your occupation or financial holdings in relation to your responsibilities as a member of the Board, Commission or Committee to which you seek appointment?

Yes No

Mr. Paul W. McKenna, Jr.

If you answer yes, explain in detail any potential conflicts in the same manner as required by the Fair Political Practices Commission's Statement of Economic Interests (Form 700). (If you should have any questions about this matter or need further information as it relates to your situation, please advise the City Clerk prior to submitting your application.)

N/A

AB 1234 Training

The Board, Commission or Committee (collectively Board) you are seeking appointment to provides City reimbursement for attending trainings or conferences. Therefore, under State Law all members of the Board must receive at least two hours of ethic's training, as prescribed by the Fair Political Practices Commission, within one year of appointment and once every two years thereafter.

First Choice

FIRST choice for Board/Commission/Committee appointment:

Police Commission

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position.

As the son of a police officer and having 23 years of military service I believe that I have a unique perspective on police work. I have been in armed situations where split-second life or death decisions had to be made. I have seen good police officers and those that have disappointed me. In the end, I am glad that I live under the umbrella of the Burbank Police Department. Regrettably having worked with college-age students it greatly concerned me when I realized that many were actually afraid of the police. I would consider changing this my highest priority.

What are your goals in serving on this Board/Commission/Committee?

Having served in highly stressful situations, I understand better than most the pressure placed on a Police Officer every day. However, in the current climate, we need to work on communicating the needs of both the community and the police. I believe that nothing is more important than establishing mutual trust and respect. Above all, as a community, we can only move forward by confirming our citizens' confidence in our officers and our department.

Second Choice

SECOND choice for Board/Commission/Committee appointment:

Transportation Commission.

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position

Having served on both the Traffic and Transportation Commission, I have used my years of transportation experience to help our community traverse the last mile. That mile between public transportation and their destination. For over 20 years, I have worked with the BTMO. Sharing these lessons learned can only benefit Burbank.

Mr. Paul W. McKenna, Jr.

What are your goals in serving on this Board/Commission/Committee?

It is building a bridge between our city's efforts to provide transportation and to the people that we serve — making as many people as possible aware of the options that have are available and if they do not work maybe a combination of options will. Sometimes it just takes a few minutes and someone that has done it before to show people how to get the job done.

Conflict of Interest

Conflict of Interest:

Rules of law and ethics prohibit members from participating in and voting on matters in which they may have a direct or indirect conflict of interest including a financial interest. Are you aware of any potential conflicts of interest which may develop from your occupation or financial holdings in relation to your responsibilities as a member of the Board, Commission or Committee to which you seek appointment?

Yes No

If you answer yes, explain in detail any potential conflicts in the same manner as required by the Fair Political Practices Commission's Statement of Economic Interests (Form 700). (If you should have any questions about this matter or need further information as it relates to your situation, please advise the City Clerk prior to submitting your application.)

AB 1234 Training

The Board, Commission or Committee (collectively Board) you are seeking appointment to provides City reimbursement for attending trainings or conferences. Therefore, under State Law all members of the Board must receive at least two hours of ethic's training, as prescribed by the Fair Political Practices Commission, within one year of appointment and once every two years thereafter.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board, commission or committee?

I have lived in Burbank since 1999 and started working in Burbank in 1994. This city has given a great deal to me and my family over the years. Our older daughter just graduated from JBHS last week and our younger daughter is entering her Senior year at Burbank High. Now that our daughters are older, I have a little more free time and I am looking to dedicate this time to the community. Burbank is a crown jewel of Southern California. Being our own city allows us numerous advantages not afforded to so many other parts of Los Angeles. I have so much gratitude for the privilege of living here and I want to continue to give back, now at a higher level of service.

Education

Buena Park High School - Buena Park, CA (1986) University of California, Santa Barbara - Santa Barbara, CA - B.A. Film Studies (1990) Glendale College - Glendale, CA (2018 - Present)

Therefore, under State Law all members of the Board must receive at least two hours of ethic's training, as prescribed by the Fair Political Practices Commission, within one year of appointment and once every two years thereafter.

First Choice

FIRST choice for Board/Commission/Committee appointment:

Parks, Recreation and Community Services Board

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position.

As a Burbank resident, I am extremely familiar with the Parks and Recreation facilities and programs. I have been a member of the Verdugo Aquatic Facility and both of our daughters attended the Summer Daze, Aquatic and Art programs over multiple years. In addition, I did serve on the Providencia Elementary School Site Council for 2 years. As such, I am familiar with the responsibilities of making financial decisions which affect the community and decisions for an overall greater cause. My professional background is in entertainment, and in 2015 I co-founded the organization, Association of Media Content Users and Providers (AMCUP). This is an organization of approximately 200 members who share information about intellectual property rights and stills and footage research. While this is not directly associated to parks and recreation, starting this organization has required a great deal of teamwork, organization and decision making. All of these skills I will apply to being a member of the Parks, Recreation and Community Services Board.

What are your goals in serving on this Board/Commission/Committee?

If there's anything we've learned over the last 15 months, it's how precious our time outside of our homes is. Time outside, in the sunshine and fresh air, is vital to both our physical and mental health. Burbank's parks provide respite for our residents. I want to join this commission to ensure that our parks remain safe, clean, accessible and enjoyable for all residents. It is imperative that our children have their playgrounds, the teens have their athletic and recreation programs and even the adults have their places for exercise and piece-of-mind. Lastly, I want to contribute to the many indoor activities available to the community. We have such a diverse group of artistic and educational offerings and I am excited to see that those programs continue.

Second Choice

SECOND choice for Board/Commission/Committee appointment:

Transportation Commission

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position

While I have no direct civic transportation experience, I have been a Burbank resident for over 21 years and moved to the immediate area in 1992. I know the streets of Burbank like the back of my hand. I have used public transportation as well as the bike paths, bike lanes and sidewalks. My professional background is in entertainment, and in 2015 I co-founded the organization, Association of Media Content Users and Providers (AMCUP). This is an organization of approximately 200 members who share information about intellectual property rights and stills and footage research. While this is not directly associated to transportation, starting this organization has required a great deal of teamwork, organization and decision making. All of these skills I will apply to being a member of the Transportation Board.

What are your goals in serving on this Board/Commission/Committee?

My primary goal for serving on this committee is to ensure that Burbank remains as safe as possible for those using the roads, freeways, bike lanes and sidewalks. Burbank is primarily a safe place. We have our share of accidents, but accidents will happen. However, we need to stay on top of traffic in the city. We need to anticipate increases in population and traffic. In addition, we need support for public transportation. I am looking forward in time for my children and want to make sure that Burbank remains the city they have grown up in.

Interests & Experiences

Please tell us about yourself and why you want to serve.

Why are you interested in serving on a board, commission or committee?

I'm interested in joining a board or commission because of a personal drive to service of my community. Twelve years ago, because of that drive, I made a big career change from financial analysis and corporate consulting to go to seminary. Upon graduation in 2014 I moved to Burbank in 2014 to serve in my first congregation upon ordination. During my tenure there I also volunteered as a member of a local chapter of the Rotary Club, took the Leadership Burbank course, and then served on the Board of Leadership Burbank for two years. I also served as a member of the Burbank Ministerial Association and took part in several interfaith initiatives. I now have a senior position at a congregation in Pasadena; however, my family has our roots firmly planted in Burbank. I continue to take an active interest in my community and serve where I can be useful. From the example and advice of trusted friends and leaders in our city, I believe that serving on a board, commission, or committee is the natural next step for me to apply my skills, experience, and relationships to being of greater service to the city my family and I have made our beloved home.

Education

MA in Rabbinic Studies & Ordination, American Jewish University, Los Angeles, California BS in Economics, Towson University, Towson, Maryland Graduate studies in finance at George Washington University Recent courses in Political Science, Comparative Politics, and Political Economy at Pasadena City College

Additional Pertinent Courses or Training

Leadership Burbank, Class of 2016 Completed CERT (Community Emergency Response Team) training with Los Angeles Fire Department Completed training to join CEMP (California Emergency Mobile Patrol), including certification in search & rescue (SARTEC III), CPR & Basic Life Support, and various FEMA crisis response & command center protocols

Other Pertinent Skills, Experience or Interests

Financial analysis and management Creative problem solving Community and consensus building Public speaking and written communication

Community Involvement

Specify current or prior service on a City Board, Commission or Committee:

No prior service

List Community activities in which you are involved:

Rotary Club of Burbank (Noon Chapter) Community Emergency Response Team - Search & rescue volunteer support for LAPD (primarily San Fernando Valley)

If you are related to any City of Burbank employee(s), please state their name(s), relationship(s), and department(s). If you are not related to a City of Burbank employee, please put N/A.

N/A

Conflict of Interest

Conflict of Interest:

Rules of law and ethics prohibit members from participating in and voting on matters in which they may have a direct or indirect conflict of interest including a financial interest. Are you aware of any potential conflicts of interest which may develop from your occupation or financial holdings in relation to your responsibilities as a member of the Board, Commission or Committee to which you seek appointment?

Yes No

If you answer yes, explain in detail any potential conflicts in the same manner as required by the Fair Political Practices Commission's Statement of Economic Interests (Form 700). (If you should have any questions about this matter or need further information as it relates to your situation, please advise the City Clerk prior to submitting your application.)

AB 1234 Training

The Board, Commission or Committee (collectively Board) you are seeking appointment to provides City reimbursement for attending trainings or conferences. Therefore, under State Law all members of the Board must receive at least two hours of ethic's training, as prescribed by the Fair Political Practices Commission, within one year of appointment and once every two years thereafter.

First Choice

FIRST choice for Board/Commission/Committee appointment:

Park, Recreation and Community Services Board

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position.

Education: Leadership Burbank, municipal support training (CERT & CEMP), BS degree in Economics
Experience: financial analysis, financial management, computer systems & data analysis, oral & written communication
Interest: I'm an avid outdoors person - many family hikes in Stough Canyon, Wildwood Canyon, Griffith Park, and elsewhere. My children have grown up playing in McCambridge Park and Robert Gross Park, and they are perennial campers in the Burbank Parks summer day camps.

What are your goals in serving on this Board/Commission/Committee?

My goal as a member of the board is the same as my goal as an avid user of our local parks: To use my experience, skills, relationships, and leadership to help our parks, recreational offerings, and community services to be the best they can be, with a commitment to high quality, service to all members of our diverse community, and constant improvement in a safe and sustainable way.

Second Choice

John Carrier

SECOND choice for Board/Commission/Committee appointment:

Transportation Commission

Describe any qualifications, experience, and education, as well as any technical or professional background you may have relative to the duties of this position

Education: Leadership Burbank, municipal support training (CERT & CEMP), BS degree in Economics
Experience: financial analysis, financial management, computer systems & data analysis, oral & written communication

What are your goals in serving on this Board/Commission/Committee?

My goal as a member of this commission and as a citizen of Burbank is to apply my skills, experience, relationships, and leadership to help maintain and improve the transportation modes and infrastructure that are so vital to our thriving local economy and the high quality of life our residents enjoy. I understand that we are a city that doubles in population during the working day (with all the workers coming in from outside Burbank to local employers). This means that we must strike a delicate balance between maximizing the efficient flow of people from all over and maintaining liveability and tolerable traffic for our residents. I hope that my background in economics, financial management, data analysis and creative problem solving will be useful in service to addressing these needs, and that my skill and experience as a communicator will help us build community consensus and support for workable and sustainable solutions.
