

As your current City Treasurer, I am grateful for the opportunity to serve Burbank. My mission is to safeguard the City's portfolio and generate investment returns to provide the services you deserve.

Despite the challenges we face today, over my tenure I have drawn from 15 years of finance and strategy experience to help us achieve:

- A \$10 million increase to our city's investment market value from June 2019 to June 2020
- An increase to our portfolio's fiscal year-to-date return, from 2.05% in June 2019 to 2.18% in June 2020
- Cost savings by streamlining operations and expanding electronic payments

I received my M.S. in Financial Engineering from Columbia University and hold a B.S. in Management Engineering and a B.A. in Economics. I am an active member of the Government Investment Officers Association, Government Finance Officers Association, California Municipal Treasurers Association, and California Society of Municipal Finance Officers.

I proudly call Burbank home and have served on the Civic Pride Committee and the Burbank Moms Club.

I would be honored to have your vote and your continued support to keep our investments and programs safe, protect our way of life, and continue building a better Burbank.
