City of Burbank Investment Portfolio Report for June 2021 Dated July 21, 2021

Dear City Council Members
Justin Hess, City Manager
Judie Wilke, Assistant City Manager
Jennifer Becker, Financial Services Director
Bob Liu, CFO Burbank Water & Power

This report fulfills City, Youth Endowment Services Fund, Parking Authority, Public Financing Authority, Successor Agency to the Redevelopment Agency and Housing Authority resolutions.

CITY PORTFOLIO OVERVIEW

The City must maintain \$96 million in liquidity at all times (maturities within one year plus real estate taxes due from the County in April and December) to meet our projected budgeted expenditures. We currently have \$333 million in liquidity, with \$225 million in our account at the Local Agency Investment Fund (LAIF), \$60 million in investments maturing within a year and \$48 million in real estate taxes due in April and December. Higher liquidity levels continue to be maintained in anticipation of future cash outflows.

The City Investment Pool ended June at \$481 million, up from May's balance of \$479 million. Market value slightly decreased to 101.23% in June from 101.45% in May. The weighted average yield of the portfolio at the end of the month is 1.21%, and the total rate of return fiscal year-to-date is 1.42%.

Credit News:

On July 12, Moody's downgraded US Bancorp's credit rating from A1 to A2 while removing it from negative watch, stating that "it expects U.S. Bank to continue to outperform the majority of its peers as the US economy recovers from the coronavirus pandemic. However, the margin of superiority will likely be narrower than in the past because its peers have also demonstrated resiliency during the pandemic-induced downturn. Additionally, the rating agency continues to believe that U.S. Bank's governance remains a key credit strength. It has demonstrated exemplary stewardship with a very strong risk governance and concentration limit framework, which along with its business line diversity, has supported a positive assessment of the company's corporate behavior, and ultimately strengthened its credit profile." Moody's also mentioned "capitalization as the weakest factor of U.S. Bank's financial profile" but that "it takes into account the bank's strong stress capital resilience in its capitalization assessment. U.S. Bank has a lower minimum stressed capital ratio under the regulatory stress scenarios compared to its large peers, since its starting capitalization is lower. This was a key factor in the downgrade."

On July 16, Standard & Poor's raised Adobe's credit rating from A to A+, stating that "U.S. digital media and marketing software provider Adobe Inc. has materially increased the scale of its revenue and profitability over the past several years while maintaining its leadership position, which we expect will continue over the medium term. The stable outlook reflects Adobe's predictable subscription pricing model, with recurring revenue of about 90%. We expect Adobe to maintain its market position, with strong consistent growth in EBITDA and free operating cash flow (FOCF), as well as its conservative financial policy."

MARKET OUTLOOK

Prices continue to increase with the latest Consumer Price Index inflation rate coming in at 5.4% for June, the highest since 2008. While more than a third of the increase may be attributed to skyrocketing prices for used cars and trucks, consumers also face rising costs for groceries, eating out, gas, and travel, among others. Businesses continue to face elevated shipping costs and supply chain bottlenecks. While certain commodities such as lumber have settled back down from the highs we saw earlier in the year, construction materials, including steel mill products, are still much higher compared to last year. Eager to take advantage of low mortgage interest rates and with the ability to work remotely, home buyers continue to prop up rising home prices especially as they leave big cities in search of bigger space in more affordable regions of the country.

Both the Federal Reserve and President Biden believe that inflation would be temporary and that the current environment is most similar to the period after World War II when supply shortages and pent-up demand led to postwar inflation that lasted over two years. The problem with inflation is that it hurts savers by eroding purchasing power and reducing the value of people's savings. On the other hand, it rewards debtors as the money they owe technically becomes lower in real terms. While inflation may empower workers to justify higher wages, those on fixed incomes may not be able to keep up with rising prices. There is also a risk that runaway inflation may force the Federal Reserve to raise rates much earlier than expected. Consumer and business expectations may also change, resulting in a higher likelihood that rapidly increasing prices are here to stay.

June had the highest inflation since 2008.

Meanwhile, the Delta variant continues to spread, and fuels worries that it may threaten the current economic recovery. After seeing a spike in Covid cases, Los Angeles County has reinstated restrictions mandating that masks be worn indoors, for both the vaccinated and unvaccinated. The county has surpassed the threshold to have “high” community transmission of the disease, the worst tier as defined by the U.S. Centers for Disease Control and Prevention. The 10-year Treasury yield has fallen to a 5-month low as investors consider a potential slower than expected economic recovery. We continue to monitor the situation and maintain adequate levels of liquidity in order to make any adjustments as necessary.

Coronavirus in L.A. County

The number of cases announced each day by local public health agencies.

New cases by day

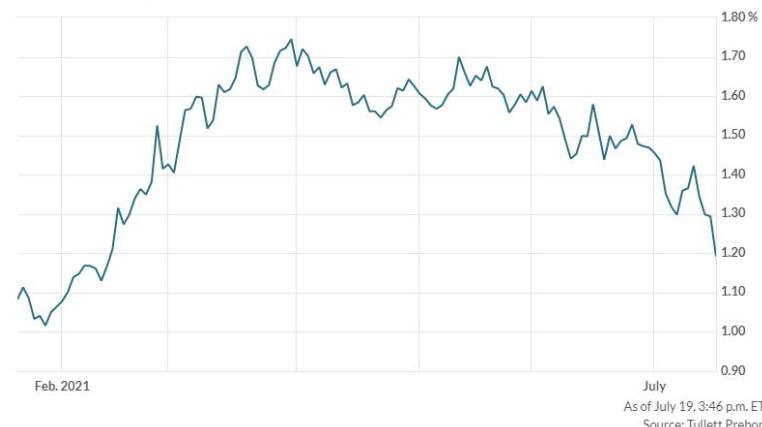

The seven-day average offers a more stable view of the trend than daily totals, which are subject to bureaucratic delays.

Investment Report | June 2021

INVESTMENT POLICY COMPLIANCE

I certify that the City's Investment Portfolio is in full compliance with the City's Investment Policy and California Government Code Section 53601, and I believe the Investment Pool contains sufficient cash flow from liquid and maturing securities, bank deposits, and income to meet the City's expenditure requirement for the next six months.

The chart to the left shows relevant rates (LAIF, the 12-month moving average of the 2-year treasury, and portfolio current yield) as of June 30, 2021, as well as current treasury yields and those from a year ago.

NOTE: Estimates for the interest earned on LAIF's loan to CalPERS (not allocated until just after the end of each quarter) are included in this month's LAIF yield. The effective rate of return published by LAIF was .20%; including an estimate of the bonus accrual for the loan to CalPERS, the yield reflected on the books for June is .33%. The rate of interest charged by LAIF on the CalPERS loan is the Constant Maturity 2-Year Treasury as of the last day of the quarter.
