City of Burbank Investment Portfolio Report for August 2021 Dated September 28, 2021

Dear City Council Members
Justin Hess, City Manager
Judie Wilke, Assistant City Manager
Jennifer Becker, Financial Services Director
Bob Liu, CFO Burbank Water & Power

This report fulfills City, Youth Endowment Services Fund, Parking Authority, Public Financing Authority, Successor Agency to the Redevelopment Agency and Housing Authority resolutions.

CITY PORTFOLIO OVERVIEW

The City must maintain \$96 million in liquidity at all times (maturities within one year plus real estate taxes due from the County in April and December) to meet our projected budgeted expenditures. We currently have \$296 million in liquidity, with \$181 million in our account at the Local Agency Investment Fund (LAIF), \$67 million in investments maturing within a year and \$48 million in real estate taxes due in April and December. Higher liquidity levels continue to be maintained in anticipation of future cash outflows.

The City Investment Pool ended August at \$442 million, slightly down from July's balance of \$443 million. Market value slightly decreased to 101.28% in August from 101.39% in July. The weighted average yield of the portfolio at the end of the month is 1.28%.

Credit News:

On September 21, Moody's revised US Bancorp's (USB) outlook from stable to negative while affirming its rating, stating that, "the rating action follows the announcement that USB will acquire the regional banking franchise of MUFG Union Bank, N.A. for \$5.5 billion in cash and \$2.5 billion of stock. The change in USB's rating outlook to negative from stable reflects the operational and integration risks that a sizeable acquisition can bring, as well as the regulatory risks and profitability pressure arising from the Consent Order and the associated remediation. The rating agency noted that these concerns are tempered by the low risk profile of assets acquired and the strength of USB's risk governance. USB's governance has been a key support of its high ratings with its very strong risk governance and concentration limit framework, which along with its business line diversity, has supported a positive assessment of the company's corporate behavior and an excellent financial track record through economic cycles evidencing exceptional stewardship."

On September 22, Standard & Poor's also revised US Bancorp's (USB) outlook from stable to negative while affirming its rating, stating that it, "reflects our view that USB's acquisition of MUFG Union Bank's core regional bank franchise heightens integration and operational risks. The acquisition is an \$8 billion cash and stock transaction that increases USB's loans and deposits by 20% and 21%, respectively, to \$355 billion and \$527 billion. It is the biggest acquisition USB has made since the financial crisis and should close in the first half of 2022, pending regulatory approval. We believe the integration risk is heightened by a consent order Union Bank received from the Office of the Comptroller of the Currency (OCC) for shortcomings in its information security and operational risk controls. USB's management team has indicated it believes it can resolve the consent order after the acquisition by converting Union Bank's platform onto USB's more robust operating system and applying more stringent governance standards. Separately, there is a risk of attrition of Union Bank's customers, especially in the competitive California market. The acquisition also adds to loan concentration in California. USB's loan exposure in California, which is already significant at roughly 30% of residential loans and 25% of commercial real estate loans, will grow after the acquisition of Union Bank, since the majority of the bank's loans reside there."

MARKET OUTLOOK

Widespread shortages stemming from supply chain challenges continue to plague the economy. Unfinished factory goods are piling up as manufacturers wait for parts that have been delayed. Record shipping volumes are congesting ocean routes and driving up freight costs. A shipping container that previously cost \$5,000-10,000 to travel from China to the US now costs \$20,000-30,000. When goods do arrive in the US, it is taking significantly longer for ships to be unloaded as ports do not have enough dockworkers and truck drivers. Unfortunately, it is expected that shortages will continue especially with the upcoming holidays. Factories all over the world are still limiting operations because of the lack of materials and continued pandemic-related disruptions. With the lack of supply and continued strong demand, inflation persists with the Consumer Price Index coming in at 5.3% in August and the Personal Consumption Expenditures (PCE) price index at 4.2% in July.

Meanwhile, the Federal Reserve indicated that it expects to start tapering its \$120 billion in monthly asset purchases possibly as soon as its next scheduled meeting in November. "If progress continues broadly as expected, the committee judges that a moderation in the pace of asset purchases may soon be warranted," the statement said. Furthermore, 9 of the 18 Federal Reserve officials anticipate raising rates by the end of 2022. The Fed also published their median projection for the federal funds rate to be 1% by the end of 2023 and 1.8% by the end of 2024.

Where the Fed Stands on Future Interest Rates

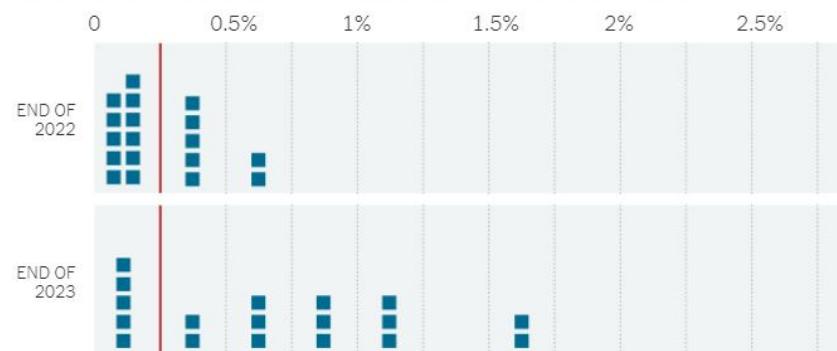

Current rate projections

What Federal Open Market Committee participants currently think rates should be in the next two years.

Previous projections

What F.O.M.C. participants in June thought rates should be in the next two years.

OFFICE OF THE CITY TREASURER
Investment Report | August 2021

INVESTMENT POLICY COMPLIANCE

I certify that the City's Investment Portfolio is in full compliance with the City's Investment Policy and California Government Code Section 53601, and I believe the Investment Pool contains sufficient cash flow from liquid and maturing securities, bank deposits, and income to meet the City's expenditure requirement for the next six months.

The chart to the left shows relevant rates (LAIF, the 12-month moving average of the 2-year treasury, and portfolio current yield) as of August 31, 2021, as well as current treasury yields and those from a year ago.

NOTE: Estimates for the interest earned on LAIF's loan to CalPERS (not allocated until just after the end of each quarter) are included in this month's LAIF yield. The effective rate of return published by LAIF was .22%; including an estimate of the bonus accrual for the loan to CalPERS, the yield reflected on the books for August is .32%. The rate of interest charged by LAIF on the CalPERS loan is the Constant Maturity 2-Year Treasury as of the last day of the quarter.
