

October 18,2024

I, Andrea Del Rio, recall on July 10, 2024, Marine Bezhanyan of 1083 E Harvard Rd and a woman identifying herself as her neighbor visited the Parks and Recreation Administration office. They requested to speak with Mike del Campo or Marisa Garcia, but were informed that neither were available at the time. The property owner sought to dispute a \$12,604.41 charge for damages to a city tree, explaining that the tree was still alive and she had only been lightly trimmed. Her neighbor interjected, denying that the Marine Bezhanyan had touched the tree and questioned whether there was proof of the tree being cut. The neighbor further alleged that the claims were discriminatory, citing issues with neighbors, and stated the Forestry Department has been neglecting maintenance around DeBell Golf Course, claiming this was a more pressing concern. The office staff assured them that their message would be relayed to Mike and Marisa
