City of Burbank Investment Portfolio Report for November 2024 Dated December 31, 2024

Dear City Council Members

Justin Hess, City Manager
Courtney Padgett, Assistant City Manager
Jennifer Becker, Financial Services Director
Joe Lillio, CFO Burbank Water & Power

This report fulfills City, Youth Endowment Services Fund, Parking Authority, Public Financing Authority, Successor Agency to the Redevelopment Agency and Housing Authority resolutions.

CITY PORTFOLIO OVERVIEW

The City must maintain \$124 million in liquidity at all times (maturities within one year plus real estate taxes due from the County in April and December) to meet our projected budgeted expenditures. We currently have \$306 million in liquidity, with \$40 million in our account at the Morgan Stanley Institutional Liquidity Fund – Government Portfolio, \$129 million in our account at the California Asset Management Program, \$86 million in investments maturing within a year and \$51 million in real estate taxes due in April and December.

The City Investment Pool ended November at \$641 million, up from October's balance of \$635 million. Market value came in at 98.5% in November, up from 98.4% in October. The weighted average yield of the portfolio at cost at the end of the month is 3.41%.

Credit News

On December 5, Moody's downgraded the City of Oakland's pension obligation bond rating from Aa1 to Aa2, stating that "governance is a key driver for the rating action given that management has not made sufficient and timely budget adjustments to fully absorb the one-time pandemic relief monies that were used to fund operations, and declining revenue, in particular real estate transfer taxes. As such, the city has reduced its flexibility to address ongoing spending pressures. The Aa2 issuer rating positively reflects the city's large and diverse tax base that will continue to experience moderate growth. That growth will continue to support strong property wealth, currently at \$195,083 AV per capita. The city's local economy benefits from its central positioning in the San Francisco Bay Area, and while slowing the regional economy remains a credit strength. The rating also incorporates the city's challenged, yet still sound financial position."

On December 10, S&P's downgraded Intel's rating from BBB+ to BBB and changed its outlook from negative to stable, stating that "Intel Corp. faces a slow industry recovery and higher-than-expected new product start-up costs and manufacturing costs that are likely to last through 2025. The company's announcement of management changes will also add to business challenges. Although we expect Intel's discretionary cash flow (DCF), or free operating cash flow (FOCF) less buybacks and dividends, will improve as it implements cost-saving initiatives, we forecast its DCF-to-debt ratio will be neutral in 2025 and

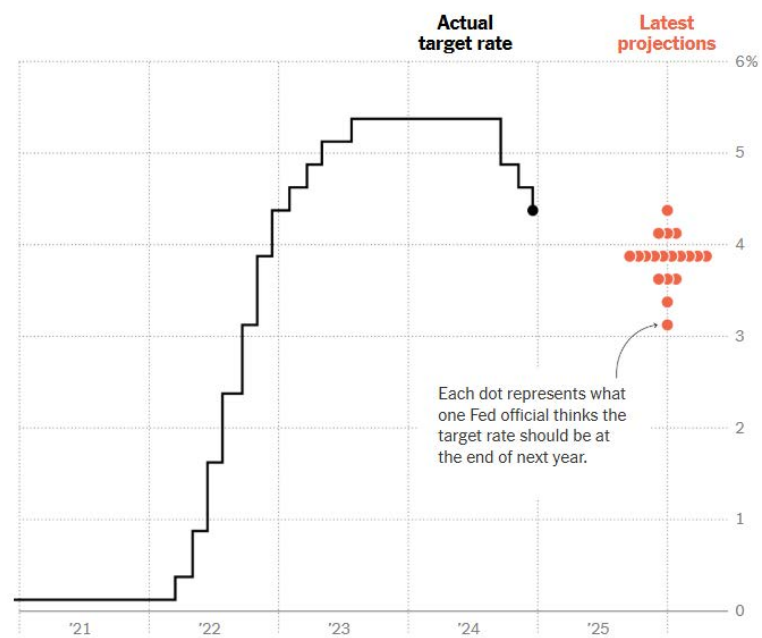

7% by the end of 2026, modestly lower than our previous forecast. The stable outlook reflects our view that despite the uncertainty brought on by the CEO departure and the ongoing challenges it faces in navigating secular industry headwinds and competitive pressure in its core business segments, we believe its client computing segment will benefit from an anticipated PC refresh cycle, and its Data Center and AI (DCAI) and Networking and Edge segments will also experience growth from a modest cyclical recovery in 2025.”

MARKET OUTLOOK

The Federal Reserve cut its funds rate another 25 bps in December. With the continued strength of the US economy and lingering inflation, the Fed also presented its updated forecast, now projecting just two rate cuts in 2025, two cuts in 2026, and one in 2027. In addition, the Fed forecasted higher inflation with more officials expecting risks to be weighted to the upside. While primarily due to the avian flu outbreak, the average price of a dozen eggs, for example, has increased 147% since 2023. Fed Chair Powell added that the decision, in contrast to previous cuts, “was a closer call, but we decided it was the right call because we thought it was the best decision to foster achievement of both of our goals, maximum employment and price stability. We see the risks as two-sided: moving too slowly and needlessly undermine economic activity and the labor market, or move too quickly and needlessly undermine our progress on inflation.”

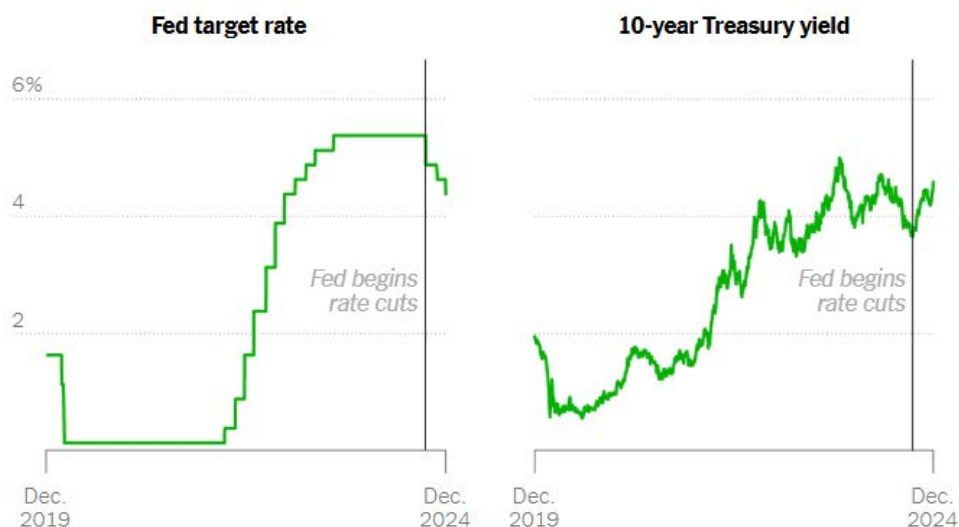

It should be noted that the 10-year Treasury yield has continued to rise even as the Fed has cut rates. Even as short term rates decline, investors are worried about higher inflation in the long run, the impact of stimulative government policies, and the growing federal deficit. As a result, loans that use the 10-year Treasury yield as a benchmark have remained elevated. 30-year mortgage rates, for example, have increased from ~6.1% to ~6.9% since the Fed started lowering rates in September, and as a result, continue to discourage home buying. Meanwhile, with uncertainties around inflation and government policies, the yield curve has stopped its inversion that began in 2022 and is now just relatively flat. As it normalizes, it should continue to steepen with investors expecting to be compensated higher for holding longer maturity bonds.

Where Fed Officials Expect Rates Will Be

 Investment Report | 2024

INVESTMENT POLICY COMPLIANCE

I certify that the City's Investment Portfolio is in full compliance with the City's Investment Policy and California Government Code Section 53601, and I believe the Investment Pool contains sufficient cash flow from liquid and maturing securities, bank deposits, and income to meet the City's expenditure requirement for the next six months.
