## **Environmental Review for Activity/Project that is Categorically Excluded Subject to Section 58.5 Pursuant to 24 CFR 58.35(a)**

### **Project Information**

**Project Name:** Home Again Los Angeles (HALA) Access Center

**Responsible Entity:** City of Burbank

**Grant Recipient** (if different than Responsible Entity): N/A

**State/Local Identifier:** N/A

**Preparer:** City of Burbank

**Certifying Officer Name and Title:** Fred Ramirez, Assistant Community Development Director, City of Burbank, CA

**Consultant:** Kimley-Horn and Associates, Inc.

**Direct Comments to:** Simone McFarland, City of Burbank, [smcfarland@burbankca.gov](mailto:smcfarland@burbankca.gov)

**Project Location:** The proposed Home Again Los Angeles (HALA) Access Center (Project) Project Site is a 0.47-acre property located at 2244 North Buena Vista Street in the City of Burbank, California (Los Angeles County Assessor Parcel Number [APN] 2464-013-900). The location of the Project Site is depicted on **Figure 1, Regional Project Location Map** and **Figure 2, Project Location Map**.

### **Description of the Proposed Project** [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:

The proposed Project would adaptively reuse and convert the former Boys & Girls Club of Burbank (initially built as a City fire station) to a new access center for Home Again Los Angeles (HALA). HALA is a local 501(c)(3) nonprofit homeless services provider that offers five core programs for the unhoused and those on the verge of homelessness, including Shelter, Rapid Rehousing, Transitional Housing, Rental Relief, and Educational Workshop programs focused on homeless prevention and housing stability. The proposed Project Site is owned by the City of Burbank and includes several buildings/structures that were vacated in 2021 following 27 years of tenancy (from 1994 to 2021) by the Boys & Girls Club. The existing vacant structures at the Project Site include a large “main facility” (4,500 square feet), two portable trailers (850 square feet and 280 square feet, respectively), and five storage sheds (500 square feet in total) (Please refer to *Existing Conditions and Trends* below for more details). The proposed Project would renovate the

main facility and remove the portable trailers, storage sheds, and an exterior wall on the Project Site, allowing HALA to relocate its existing Burbank operation to 2244 North Buena Vista Street. The main component of the Project is the renovation of the main facility to create the HALA Access Center, which would include a community room, a job center, case management rooms, intake rooms, and community partner rooms. The new Access Center would allow HALA to provide wraparound services focusing on employment, financing, and housing to the unhoused and those on the verge of homelessness. To achieve this, the interior of the existing 4,500-square-foot building would be renovated and reconfigured, as shown in **Figure 3, Conceptual Site Plan** and **Figure 4, Floor Plan**. The proposed renovations include demolition of existing walls, doors, and plumbing fixtures (see **Figure 5, Demolition Plan**), and various upgrades to the building including, but not limited to: new roofing and water proofing; interior electrical and lighting upgrades; new flooring and a new drop ceiling; plumbing improvements (water heater and gas system); a fire safety system; energy modernization (insulation and windows); a new HVAC system; structural seismic retrofitting; hazardous materials abatement (asbestos removal); and interior and exterior painting. Other improvements to the surrounding portions of the property include demolition/removal of the two existing portable trailers at the northern property line, removing a small wall that is located along North Buena Vista Street and replacing it with a new gate, landscaping and irrigation improvements, demolition/removal of the existing storage structures at the rear of the property, and re-surfacing the existing basketball court (see **Figure 5**).

The proposed Project also includes plans for installation of two modular pre-fabricated units, housing a total of four “tiny home suites” that include bathrooms with a shower/tub, toilet and sink in each of the units at the north side of the property, where the existing portable trailers are currently located. The tiny homes along with a room in the Access Center will provide a minimum 120 SF habitable space per unit. The tiny home suites would provide interim housing offering families supportive services and a minimum six-month duration of stay, until they opt to move into permanent housing. Families will work with a dedicated case manager to develop a personalized strategic plan focusing on employment, finances, and housing, while awaiting placement in more permanent housing.

The proposed Project would require upgraded utility service connections, including installation of a new fire sprinkler water service line and Burbank Water and Power (BWP) electrical service upgrades. The proposed water service line would be installed underground from the Access Center to the point of connection beneath North Buena Vista Street, which would require excavating a maximum length of approximately 65 feet, to a maximum width of 2 to 3 feet, and 3 to 6 feet below ground surface (bgs). Once the new water service line is installed, the construction contractor would backfill excavated soils and restore disturbed ground surfaces to existing conditions. Additionally, new water supply and sewage connections to the proposed tiny homes may be required if the existing utilities serving the portable trailers are not suitable for use. However, the additional excavation for these connections would be minor.

It is anticipated that construction and renovation of all components discussed above would occur between October 2025 and September 2026.

### **Statement of Purpose and Need for the Proposal [40 CFR 1508.9(b)]:**

The proposed Project would facilitate the adaptive reuse of a vacant building and provide needed social services for the unhoused and those on the verge of homelessness in the City of Burbank and its surrounding communities. The new Access Center would provide wraparound services including, but not limited to, housing navigation, financial assistance, one-on-one case management, and financial literacy courses. Additionally, the proposed construction of four tiny home suites on the property would provide interim housing for families with children who are seeking placement in more permanent housing. Without the proposed Project, the need for transitional and supportive housing services in the City of Burbank would remain unfulfilled. The redevelopment of the site would provide increased value to the community by offering community services to support families experiencing homelessness, benefiting the greater City of Burbank.

The City of Burbank is seeking to reduce the number of people experiencing homelessness within the City. According to the 2024 Greater Los Angeles Homeless Count, there are 258 unhoused individuals in the City of Burbank. Of those individuals, 77 were identified as sheltered and the remaining 181 were designated as unsheltered or living within their vehicle or makeshift shelter.

To address homelessness, the City of Burbank approved the Five-Year Homelessness Plan for Fiscal Years 2022/23-2027/28, which aims to find solutions to the root causes of homelessness. The Five-Year Homelessness Plan includes actions, strategies, goals, and metrics for the next five years. The Five-year Plan includes the City's Strategic Playbook which provides a step-by-step scheme to deliver desired outcomes. The action areas of the Strategic Playbook include: 1) Capacity Building, 2) Advocacy, 3) Access, Outreach, & Engagement, 4) Shelter & Housing Accessibility, 5) Health & Stabilization, and 6) Homelessness Prevention.

The proposed Project would address Strategic Playbook Action 3: Access, Outreach, and Engagement by increasing the number of partnerships with local 501(c)(3) non-profit homeless services providers who can expand access to social services. The proposed Project would specifically address Goal 3.1: Maintain and Expand Outreach and Engagement by providing new housing navigation and financial assistance programs to the unhoused population. Additionally, the proposed Project will further the City's goal of promoting fair and equal housing opportunities for all persons as contained in Burbank 2021-2029 Housing Element Goal 5, Policies 5.3, 5.4, & 5.5. Moreover, the proposed Project will further fair housing opportunities and provide homeless housing and services as outlined in Burbank's 2021-2029 Housing Plan Program no. 23 & 25.

The proposed Project would also address Action 4: Shelter and Housing Accessibility by increasing interim housing by implementing four "tiny homes" on the property that would house unhoused families with children. The proposed Project would specifically address Goal 4.1: Create interim housing for Burbank homeless. To address Goal 4.1, Burbank City Council approved a motion in November 2022, to move forward with exclusive negotiations with HALA to become the new tenant of the former Boys & Girls Club of Burbank to provide services to the unhoused community of Burbank. By strengthening housing options, the City can make significant strides in reducing inflows into homelessness and increasing successful outcomes.

### **Existing Conditions and Trends [24 CFR 58.40(a)]:**

The 2244 North Buena Vista Street property is currently owned by the City of Burbank. The property is developed with facilities associated with the former Boys & Girls Club of Burbank, which vacated the property in May 2021. Existing vacant structures on the Project Site include one main building (4,500 square feet), two portable buildings (one 850-square-foot computer room

and a 280-square-foot restroom), and storage sheds. The main building was originally built in 1956 and was a fire station until the 1990s. Accordingly, the main building is in a state of disrepair. Other amenities include a lawn and driveway along the front of the property, and a basketball court and additional parking space at the rear of the property. The landscaping and irrigation have not been maintained and will require replacement except for existing mature trees.

The Project Site is generally bounded by North San Fernando Boulevard to the north, North Brighton Street to the east, Thornton Avenue to the south, and North Buena Vista Street to the west. Surrounding land uses include a gas station, liquor store, and dry cleaners to the north, single-family residential homes to the east and south, and single-family residential homes, a hotel, and a fast-food restaurant to the west. An existing Metrolink railroad and Interstate 5 (I-5) are located on an elevated grade approximately 350 feet north of the Project Site, north of San Fernando Boulevard. The Hollywood Burbank Airport is located 1.1 mile to the west of the Project Site.

**Level of Environmental Review Determination:**

Categorically Excluded per 24 CFR 58.35(a), and subject to laws and authorities at §58.5 per 24 CFR 58.35(a)(3).

**Funding Information**

<b>Grant Number</b>	<b>HUD Program</b>	<b>Funding Amount</b>
FY 2021-2022	CDBG	\$500,000
FY 2023-2024	CDBG	\$766,634
FY 2022-2023	CDBG	\$413,756
FY 2023 -2024	CDBG	\$1,171.979

**Estimated Total HUD Funded Amount:**

\$2,852,369

**Estimated Total Project Cost (HUD and non-HUD funds) [24 CFR 58.32(d)]:**

Estimated project cost for renovation and the addition of the tiny home suites is \$5.1M. Of these funds, currently \$2,852,369 in Community Development Block Grant funding has been allocated.

## Compliance with 24 CFR 50.4, 58.5, and 58.6 Laws and Authorities

Compliance Factors: Statutes, Executive Orders, and Regulations listed at 24 CFR §58.5 and §58.6	Are formal compliance steps or mitigation required?	Compliance determinations
<b>STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR 50.4 &amp; 58.6</b>

---	---	------------------------------

Regulatory Setting

The Federal Clean Air Act governs air quality in the United States. In addition to being subject to federal requirements, air quality in California is also governed by more stringent regulations under the California Clean Air Act. At the Federal level, the United States Environmental Protection Agency (USEPA) administers the Clean Air Act (CAA). The California Clean Air Act is administered by the California Air Resources Board (CARB) at the State level and by the 35 air quality management districts and air pollution control districts at the regional and local levels. The South Coast Air Quality Management District (SCAQMD) regulates the air quality within the South Coast Air Basin (SoCAB), which includes the non-desert portions of Los Angeles, Riverside, and San Bernardino counties, all of Orange County, and the vicinity of the Project site.

A State or county’s compliance with national ambient air quality standards (NAAQS) under the Clean Air Act is categorized as nonattainment (exceeds the national standards), attainment (within the national standards), unclassifiable, or attainment/cannot be classified.

According to the USEPA, the SoCAB is currently designated as a nonattainment area with respect to the State O<sub>3</sub>, PM<sub>10</sub>, and PM<sub>2.5</sub> standards, and the federal O<sub>3</sub> and PM<sub>2.5</sub> standards. The SoCAB is designated as attainment or unclassified for the remaining State and federal standards.

SCAQMD Threshold

A significant adverse air quality impact may occur when a project individually or cumulatively interferes with progress toward the attainment of a standard by generating emissions that equal or exceed the established quantitative thresholds for pollutants or exceed a State or federal ambient air quality standard for any criteria pollutant. Emissions thresholds have been recommended by the SoCAB for project construction and operation.

Construction Emissions

Construction associated with the Project would generate short-term emissions of criteria air pollutants. The criteria pollutants of primary concern within the Project area include O<sub>3</sub>-precursor pollutants (i.e., ROG and NO<sub>x</sub>) and PM<sub>2.5</sub>. Construction-generated emissions are short term and of temporary duration, lasting only if construction activities occur, but would be considered a significant air quality impact if the volume of pollutants generated exceeds the SCAQMD’s thresholds of significance.

Construction results in the temporary generation of emissions resulting from demolition, infrastructure improvements (utility work), renovation of the existing building, installation of the prefabricated homes, paving, architectural coating, motor vehicle exhaust associated with construction equipment and worker trips, and the movement of construction equipment. Emissions of airborne particulate matter are largely dependent on the amount of ground disturbance associated with site preparation activities as well as weather conditions and the appropriate application of water.

Construction-generated emissions associated with the Project were calculated using the CARB-approved CalEEMod computer program, which is designed to model emissions for land use development projects, based on typical construction requirements.

Construction is anticipated to occur over 11 months, beginning in October 2025 and ending in September 2026. The estimated construction emissions are shown in **Table 1: Construction Criteria Pollutant Emissions** and would not exceed SCAQMD construction emissions threshold. Therefore, regional construction emissions would be less than significant.

**Table 1: Regional Construction Criteria Pollutant Emissions**

Construction Year	Pollutant (Maximum Pounds Per Day) <sup>1</sup>					
	Reactive Organic Gases (ROG) <sup>2</sup>	Nitrogen Oxide (NO <sub>x</sub> )	Carbon Monoxide (CO)	Sulfur Dioxide (SO <sub>2</sub> )	Coarse Particulate Matter (PM <sub>10</sub> )	Fine Particulate Matter (PM <sub>2.5</sub> )
2025	0.51	4.42	6.36	0.01	0.35	0.19
2026	4.97	3.54	5.40	0.01	0.34	0.18
<i>SCAQMD Threshold</i>	<i>75</i>	<i>100</i>	<i>550</i>	<i>150</i>	<i>150</i>	<i>55</i>
<b>Exceed SCAQMD Threshold?</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>

1. Worst-case maximum seasonal emissions are reported.  
 2. VOC and ROG are used interchangeably.

Source: CalEEMod version 2022.1. Refer to **Appendix B** for model outputs.

Localized Significance Thresholds (LSTs) are used by the SCAQMD to assess the potential Project impact from on-site emissions at nearby sensitive receptors. The construction LSTs are based on the ambient pollutant concentrations for each source receptor area, distance to the nearest sensitive receptor, and maximum acres graded daily. The source receptor area (SRA) for the Project is the East San Fernando Valley (SRA 7) area.

CalEEMod calculates construction emissions based on the number of equipment hours and the maximum daily soil disturbance activity possible for each piece of equipment. **Table 2: Equipment-Specific Demolition Rates** shows that Project construction would disturb approximately 1.5 acres in a single day.

**Table 2: Equipment-Specific Demolition Rates**

Construction Phase	Equipment Type	Equipment Quantity	Acres Graded per 8-Hour Day	Operating Hours per Day	Acres Graded per Day
Demolition	Tractor	2	0.5	8	1
	Graders	0	0.5	8	0
	Dozers	1	0.5	8	0.5
	Scrapers	0	1.0	8	0
<b>Total Acres Graded per Day</b>					<b>1.5</b>
Source: CalEEMod version 2022.1. Refer to <b>Appendix B</b> for model outputs.					

SCAQMD’s LST guidance provides thresholds for projects disturbing 1-, 2-, and 5-acres in size at distances of 25, 50, 100, 200, and 500 meters to sensitive receptors. The nearest sensitive receptor is adjacent to the south of the Project site. The LST guidance recommends using the 25-meter threshold for receptors located 25 meters or less from the project site. Therefore, LSTs for 1.5 acres at 25 meters in SRA 7 were interpolated and used for the construction analysis.

**Table 3: Localized Significance of Construction Emissions** presents the unmitigated localized emissions during each construction phase, which would not exceed the LSTs and therefore would not cause or contribute to an exceedance of federal or state ambient air quality standards. Localized construction emissions would be less than significant.

**Table 3: Localized Significance of Construction Emissions**

Construction Phase	Pollutant (Maximum Pounds Per Day) <sup>1</sup>			
	Nitrogen Oxide (NO <sub>x</sub> )	Carbon Monoxide (CO)	Coarse Particulate Matter (PM10)	Fine Particulate Matter (PM2.5)
Demolition (2025)	4.33	5.65	0.21	0.15
Renovation of Existing Building (2025)	1.11	1.56	0.06	0.05
Renovation of Existing Building (2026)	1.02	1.55	0.05	0.04
Installation of Homes (2026)	1.02	1.55	0.05	0.04
Paving (2026)	3.48	4.44	0.15	0.13
Architectural Coating (2026)	0.86	1.13	0.02	0.02
Maximum Daily Emissions	4.33	5.65	0.21	0.15
SCAQMD Localized Screening Threshold (for 1.5 acres at 25 meters)	97	642	6	4
<b>Maximum Daily Emissions Exceed SCAQMD Threshold?</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>
1. Worst-case maximum seasonal emissions are reported.				
Source: CalEEMod version 2022.1. Refer to <b>Appendix B</b> for model outputs.				

Operational Emissions

Operational emissions for a commercial building and four residential units were calculated using CalEEMod version 2022.1. The Project’s operational emissions would be associated with mobile sources (i.e., motor vehicle use), area sources (e.g., landscape maintenance equipment, architectural coatings, etc.), and energy sources. The Project trip generation was populated utilizing CalEEMod defaults. The estimated operational emissions are shown in **Table 4: Regional Operational Criteria Pollutant Emissions** and would not exceed the SCAQMD operational emissions thresholds. Therefore, regional operational emissions would be less than significant.

**Table 4: Regional Operational Criteria Pollutant Emissions**

Construction Year	Pollutant (Maximum Pounds Per Day) <sup>1</sup>					
	Reactive Organic Gases (ROG) <sup>2</sup>	Nitrogen Oxide (NO <sub>x</sub> )	Carbon Monoxide (CO)	Sulfur Dioxide (SO <sub>2</sub> )	Coarse Particulate Matter (PM10)	Fine Particulate Matter (PM2.5)
2026	0.41	0.19	2.38	<0.01	0.44	0.11
<i>SCAQMD Threshold</i>	55	55	550	150	150	55
<b>Exceed SCAQMD Threshold?</b>	No	No	No	No	No	No

1. Worst-case maximum seasonal emissions are reported.  
 Source: CalEEMod version 2022.1. Refer to **Appendix B** for model outputs.

As noted above, LSTs are used by the SCAQMD to assess the potential Project impact from on-site emissions at nearby sensitive receptors. The operational LSTs acreage is based on the operational project site acreage. Therefore, LSTs for 1.5 acres at 25 meters in SRA 7 were interpolated and used for the operational analysis.

**Table 5: Localized Significance of Operational Emissions** shows that the calculated operational emissions would not exceed the LSTs and therefore would not cause or contribute to an exceedance of federal or state ambient air quality standards. Localized operational emissions would be less than significant.

**Table 5: Localized Significance of Operational Emissions**

Activity	Pollutant (Maximum Pounds Per Day) <sup>1</sup>			
	Nitrogen Oxide (NO <sub>x</sub> )	Carbon Monoxide (CO)	Coarse Particulate Matter (PM10)	Fine Particulate Matter (PM2.5)
On-Site Emissions (Area and Energy Sources)	0.01	0.43	<0.01	<0.01
<i>SCAQMD Localized Screening Threshold (for 1.5 acres at 25 meters)</i>	97	642	2	1
<b>Exceed SCAQMD Threshold?</b>	No	No	No	No

1. Worst-case maximum seasonal emissions are reported.  
 Source: CalEEMod version 2022.1. Refer to **Appendix B** for model outputs.

Federal Conformity

In accordance with the General Conformity Rule, when a federal action is proposed in an area in nonattainment of the NAAQS, an assessment must be made to ensure that:

- Federal activities do not cause or contribute to new violations of National Ambient Air Quality Standards (NAAQS);
- Actions do not worsen existing violations of the NAAQS; and
- Attainment of the NAAQS is not delayed.

Some actions are exempt from the general conformity requirements, including actions subject to the Transportation Conformity Rule, those resulting in emissions below *de minimis* levels, those that are presumed to conform, and those specifically identified in the regulations as exempt.

The applicable *de minimis* pollutants and thresholds are determined by the attainment status of the ambient air in the vicinity of the project site. SoCAB is nonattainment (extreme) for ozone and nonattainment (moderate) for PM2.5. The *de minimis* thresholds for PM2.5 and the ozone precursor pollutants (NO<sub>x</sub> and VOC) are 100 tons per year and 10 tons per year, respectively. As shown in **Table 6: Clean Air Act Conformity**, the annual Project emissions would not exceed the federal *de minimis* threshold.

As shown in **Table 6**, criteria pollutant emissions under the Clean Air Act would remain below their respective thresholds and impacts would be considered less than significant.

**Table 6: Clean Air Act Conformity**

Annual Emissions (tons per year) <sup>1</sup>			
Year	VOC	NO <sub>x</sub>	PM <sub>2.5</sub>
2025 (Construction)	0.01	0.09	<0.01
2026 (Construction and Operations)	0.10	0.11	0.02
2027 (Operations)	0.06	0.03	0.02
<i>Federal De Minimis Level</i> <sup>2</sup>	<i>10</i>	<i>10</i>	<i>100</i>
<b>Is Threshold Exceeded?</b>	<b>No</b>	<b>No</b>	<b>No</b>

1. Emissions were calculated using CalEEMod version 2022.1. Refer to Appendix B: CalEEMod Data for the model outputs and assumptions used in this analysis.  
 2. De minimis levels are established within Title 40 of the Code of Federal Regulations, Section 93.153 (40 CFR 93.153). The Project is located within the Los Angeles County portion of the SoCAB, which is Federally designated as nonattainment (extreme) for ozone and nonattainment (moderate) for PM2.5. The SoCAB is federally designated as attainment (maintenance) for PM10, CO, and NO2 and unclassified/attainment for other criteria pollutants. Therefore, de minimis levels do not apply to other pollutants.

<p><b>Contamination and Toxic Substances</b></p> <p>24 CFR Part 50.3(i) &amp; 58.5(i)(2)</p>	<p>Yes    No</p> <p><input type="checkbox"/>    <input checked="" type="checkbox"/></p>	<p><b><i>Phase I Environmental Site Assessment</i></b></p> <p>A Phase I Environmental Site Assessment (ESA) was conducted in August 2023 to document the presence of any hazardous materials that could affect the environmental quality of the Project Site, and to determine the potential for contamination to be present at the Project Site due to previous releases of hazardous substances or petroleum products (Conservation Consulting International [CCI], 2023) (refer to <b>Appendix C.1</b>). The findings of the Phase I ESA regarding the report’s recognized environmental conditions (RECs) are summarized below</p> <ul style="list-style-type: none"> <li>• The Phase I ESA did not identify evidence of aboveground storage tanks (ASTs) or underground storage tanks (USTs) on the Project Site. According to information reviewed from the Burbank Fire Department, one steel, 1,500-gallon diesel fuel UST and associated dispenser/piping associated with the former fire department facility was removed from the property in 1999.</li> <li>• A gasoline and dry-cleaning station is located adjacent to the Project Site. The gasoline station is listed as case-closed Leaking Underground Storage Tank (LUST) site which impacted the soil, soil vapor, and groundwater beneath the Project Site. The dry-cleaning facility has historically used tetrachloroethene (PCE) on the Project Site. Given the south-southeasterly groundwater flow direction in the vicinity, the Phase I ESA concluded that the subsurface environment beneath the Project Site may have been impacted.</li> <li>• The Project Site is located within the contaminated groundwater plume associated with the San Fernando Valley (Area 1) National Priorities (NPL) site. The groundwater plume includes elevated concentrations of PCE and trichloroethene (TCE). According to the maps reviewed in</li> </ul>
--	---	---

		<p>the Phase I ESA, the Project Site is located within the boundaries of the contaminated groundwater plumes, and a vapor encroachment condition (VEC) could not be ruled out.</p> <p>The Phase I ESA recommended that soil vapor sampling and/or indoor air sampling may be an appropriate measure to determine whether a VEC exists due to the NPL site or adjacent gasoline and dry-cleaning station.</p> <p><b><i>Phase II Environmental Site Assessment</i></b></p> <p>Following the Phase I ESA, a Phase II ESA was prepared by CCI dated October 20, 2023 (<b>Appendix C.2</b>), which included the evaluation of soil, soil vapor, and indoor air conditions through the installation of soil borings and soil vapor probes, and the collection and analysis of soil, soil vapor, and indoor air samples.</p> <p>Based on the results of the Phase II ESA, there does not appear to be a VEC for the Project Site. In general, the VOC concentrations detected in the interior air samples were similar to the exterior air sample concentrations. Given these similarities, CCI determined that the interior concentrations appeared to be the result of ambient air conditions in the Burbank area and not a result of a VEC or historical Property activities.</p> <p>CCI also compared the elevated air sample results to the Cal/OSHA Permissible Exposure Limits (PELs) for the 8-hour Time Weighted Average (TWA). The benzene, carbon tetrachloride, and chloroform concentrations were all well below their respective PELs. The results indicate that the indoor air quality on the Property appears significantly below levels considered to be safe for human activities.</p>
--	--	---

		<p>Finally, the Phase II ESA concluded the former fire department diesel UST has not adversely affected the subject property.</p> <p>Based on the results of the Phase I ESA and Phase II ESA, the proposed Project Site does not contain hazardous materials, contamination, or toxic vapors with the potential to result in adverse impacts.</p> <p>Sources: CCI, Phase I Environmental Site Assessment Building 57, Boys and Girls Club. August 29, 2024.</p> <p>CCI, Phase II Environmental Site Assessment, Building 57, Boys and Girls Club. October 20, 2023.</p>
<p><b>Endangered Species</b></p> <p>Endangered Species Act of 1973, particularly section 7; 50 CFR Part 402</p>	<p>Yes    No</p> <p><input type="checkbox"/>    <input checked="" type="checkbox"/></p>	<p>A review of the U.S. Fish and Wildlife Service (USFWS) Information for Planning and Consultation (IPaC) database and the California Department of Fish and Wildlife (CDFW) California Natural Diversity Database (CNDDDB) was conducted to identify listed, proposed, and candidate species with the potential to occur in the Project area. Of the special-status species identified during the database review, five species are federally listed (i.e., officially designated as threatened or endangered by USFWS) and five species are listed at the state level by CDFW. Four species are listed at both the federal and state levels.</p> <p>Furthermore, according to IPaC, the Project Site does not overlap with any critical habitat for any threatened, endangered, or candidate plant or wildlife species.</p> <p><b>Table 7</b> and <b>Table 8</b> below show the federal and state special-status species that may occur in the Project area. It should be noted that proposed and candidate species identified below are not currently afforded protection under the federal or state Endangered Species Act.</p>

**Table 7: USFWS Listed, Proposed, and Candidate Plant and Wildlife Species in the Project Area**

Species	Status
Coastal California Gnatcatcher ( <i>Polioptila californica californica</i> )	Threatened
Southwestern Willow Flycatcher ( <i>Empidonax traillii extimus</i> )	Endangered
Southwestern Pond Turtle ( <i>Actinemys pallida</i> )	Proposed Threatened
Western Spadefoot ( <i>Spea hammondi</i> )	Proposed Threatened
Monarch Butterfly ( <i>Danaus Plexippus</i> )	Candidate
Nevin’s Barberry ( <i>Berberis nevinii</i> )	Endangered
Slender-horned Spineflower ( <i>Dodecahema leptoceras</i> )	Endangered
Least Bells vireo ( <i>Vireo bellii pusillus</i> )	Endangered
USFWS. 2024b. IPaC Information for Planning and Consultation. <a href="https://ipac.ecosphere.fws.gov/">https://ipac.ecosphere.fws.gov/</a> . Accessed on September 5, 2024. (see <b>Appendix E.1</b> )	

**Table 8: CDFW Listed Plant and Wildlife Species in the Project Area**

Species	Status
Southwestern willow flycatcher ( <i>Empidonax traillii extimus</i> )	Endangered
Least Bells vireo ( <i>Vireo bellii pusillus</i> )	Endangered
Crotch’s bumble bee ( <i>Bombus crotchii</i> )	Candidate Endangered
Nevins barberry ( <i>Berberis nevinii</i> )	Endangered
San Fernando Valley spineflower ( <i>Chorizanthe parryi</i> var. <i>Fernandina</i> )	Endangered
Slender-horned spineflower ( <i>Dodecahema leptoceras</i> )	Endangered
CDFW (California Department of Fish and Wildlife). 2023a. California Natural Diversity Data Base (CNDDDB). Database. Accessed September 5, 2024 (see <b>Appendix E.2</b> ).	

		<p>While the IPaC and the CNDDDB search results indicate there is the potential for federally listed species and state-listed species to occur in the Project area, none of the species have known occurrences on the Project Site. As the Project Site and surrounding area are highly disturbed and without substantial vegetation, water bodies, or naturally occurring features, there is a very low potential for the Project site to provide suitable habitat for any of the species listed in Tables 7 and 8.</p> <p>Furthermore, the surrounding roadway network is highly trafficked by vehicles, including I-5 to the north, which further limits the ability of wildlife species to access the Project Site.</p> <p>Source: USFWS. 2024b. IPaC Information for Planning and Consultation. <a href="https://ipac.ecosphere.fws.gov/">https://ipac.ecosphere.fws.gov/</a>. Accessed on September 5, 2024.</p> <p>CDFW. 2023a. California Natural Diversity Data Base (CNDDDB). Database. Accessed September 5, 2024.</p>
<p><b>Explosive and Flammable Hazards</b></p> <p>24 CFR Part 51 Subpart C</p>	<p>Yes    No</p> <p><input type="checkbox"/>    <input checked="" type="checkbox"/></p>	<p>According to the Phase I ESA prepared by CCI in August 2023, the Project Site does not contain any aboveground storage tanks (ASTs) (refer to <b>Appendix C.1</b>).</p> <p>A search of the CalEPA Regulated Site Portal was conducted to identify hazardous facilities with ASTs storing hazardous substances of a flammable or explosive nature within a 1-mile radius of the Project Site. A radius map and table depicting all potentially hazardous ASTs are depicted in <b>Appendix D: Explosives and Flammable Hazards Worksheet</b>. To address this risk, regulations at 24 CFR Part 51 Subpart C require HUD-assisted projects to be separated from certain facilities by a distance that is based on the contents and volume of the AST, or to implement mitigation measures.</p>

		<p>The acceptable separation distances for each regulated facility were calculated using HUD’s online Acceptable Separation Distance (ASD) Electronic Assessment Tool (see <b>Appendix D</b>). The distance between the Project Site exceeds the ASD for all identified ASTs regulated under 24 CFR Part 51 Subpart C. Therefore, the proposed Project would not have the potential to expose people to explosion or fire hazards associated with hazardous materials storage containers regulated under 24 CFR Part 51 Subpart C.</p> <p>Source: CalEPA Regulated Site Portal.  <a href="https://siteportal.calepa.ca.gov/nsite/map/help">https://siteportal.calepa.ca.gov/nsite/map/help</a>. Accessed May 12, 2025.</p>
<p><b>Farmlands Protection</b></p> <p>Farmland Protection Policy Act of 1981, particularly sections 1504(b) and 1541; 7 CFR Part 658</p>	<p>Yes    No  <input type="checkbox"/>    <input checked="" type="checkbox"/></p>	<p>The U.S. Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) Web Soil Survey rates the Project parcel as “Prime Farmland if Irrigated.” However, the Farmland Protection Policy Act (FPPA) (7 USC §4201 <i>et seq.</i>), excludes from the definition of “prime farmland” land that is already in or committed to urban development or water storage (<i>Id.</i> at § 4201(c)(1)(A). The Project is located on land already committed to and in the process of being developed for urban use. Accordingly, it would not qualify as “Prime Farmland” as defined by the FPPA. Furthermore, the California Department of Conservation Farmland Mapping and Monitoring Program Map, identifies the Project site as being on Urban and Built-Up Land. Therefore, there would be no impacts to farmland.</p> <p>Sources: USDA. 2019. NRCS Web Soil Survey.  <a href="https://websoilsurvey.nrcs.usda.gov/app/WebSoilSurvey.aspx">https://websoilsurvey.nrcs.usda.gov/app/WebSoilSurvey.aspx</a>. Accessed September 15, 2024.</p> <p>California Department of Conservation. 2024. California Important Farmland Finder.  <a href="https://maps.conservation.ca.gov/DLRP/CIF/">https://maps.conservation.ca.gov/DLRP/CIF/</a>. Accessed September 5, 2024.</p>

<p><b>Floodplain Management</b></p> <p>Executive Order 11988, particularly section 2(a); 24 CFR Part 55</p>	<p>Yes    No</p> <p><input type="checkbox"/>   <input checked="" type="checkbox"/></p>	<p>As previously discussed under <i>Flood Insurance</i>, the Project Site is not located in a designated flood zone or Special Flood Hazard Area based on review of FEMA flood maps (see <b>Appendix A</b>). As no construction or operational activities would occur within a designated floodplain, the proposed Project would not conflict with 24 CFR Part 55.</p>
<p><b>Historic Preservation</b></p> <p>National Historic Preservation Act of 1966, particularly sections 106 and 110; 36 CFR Part 800</p>	<p>Yes    No</p> <p><input type="checkbox"/>   <input checked="" type="checkbox"/></p>	<p>A Historic Property Inventory and Evaluation Report was prepared to assess whether the Project Site contains any cultural resources that may be eligible for listing in the National Register of Historic Places (NRHP), otherwise identified as Historic Properties, and to identify any potential Project effects on such properties (see <b>Appendix F: Historic Property Inventory and Evaluation Report</b>).</p> <p>The assessment did not identify Historic Properties within the “Area of Potential Effects” (APE), and due to the level of previous disturbance from prior development, it was determined that the APE has a low likelihood for buried archaeological resources. Furthermore, the City sent letters inviting Native American tribes to consult on the Project under Section 106 on November 25, 2024, but no responses were received.</p> <p>Based on the Historic Property Inventory and Evaluation Report and Native American tribal outreach, the City proposed a finding of “No Historic Properties Affected.” The City submitted a formal request for review of this finding to the State Historic Preservation Office (SHPO) on March 19, 2025. No comments were received from SHPO, and SHPO did not respond to a follow-up email that was sent at conclusion of the 30-day review period. Thus, City of Burbank intends to proceed with the environmental review process based on the original “No Historic Properties Affected” finding pursuant to 36 CFR Section 800.3(c)(4). Therefore, the proposed Project would comply with the NHPA.</p>

<b>Noise Abatement and Control</b>  Noise Control Act of 1972, as amended by the Quiet Communities Act of 1978; 24 CFR Part 51 Subpart B	Yes    No <input type="checkbox"/> <input checked="" type="checkbox"/>	See discussion below.
<p><u>HUD Noise Standards</u></p> <p>The Department of Housing and Urban Development (HUD) Noise Guidebook provides minimum national standards applicable to HUD programs to protect citizens against excessive noise in their communities and places of residence (Article 51.101(a)). Article 51.101(a)(8) of the Noise Guidebook establishes a 65 dB L<sub>dn</sub> exterior noise level criterion as acceptable and allowable for outdoor activity areas of new residential projects. Article 51.101(a)(9) of the Noise Guidebook establishes a 45 dB L<sub>dn</sub> interior noise level criterion as acceptable and allowable for new residential projects.</p> <p><u>Construction</u></p> <p>The proposed Project would generate short-term noise during construction. Construction activities would include demolition, renovation of existing building, installation of homes, paving, and architectural coating. Construction is anticipated to occur over a period of about 11 months, beginning in October 2025 and ending in September 2026. Noise impacts resulting from construction depend on the noise generated by various pieces of construction equipment, the timing and duration of noise generating activities, and the distance between construction noise sources and noise sensitive areas. Construction noise impacts primarily result when construction activities occur during noise-sensitive times of the day (e.g., early morning, evening, or nighttime hours), the construction occurs in areas immediately adjoining noise sensitive land uses, or when construction lasts over extended periods of time.</p> <p>Following FTA’s methodology, the construction equipment was assumed to operate at the center of the Project site to represent a worst-case noise scenario as construction activities would routinely be spread throughout the construction site and would operate at different intervals. The nearest receptors for which FTA has defined construction thresholds are residential uses located approximately 52 feet to the south of the center of the Project site.</p> <p>As indicated in <b>Table 9: Typical Noise Levels Generated by Construction Equipment</b>, Project construction noise levels would range from 76 dBA to 85 dBA at the nearest residential uses located approximately 52 feet from on-site construction activities. Project construction would result in a temporary increase in ambient noise levels in the project vicinity. Construction would be limited to the hours outlined in the City’s General Plan Noise Element, which are 7 a.m. and 7 p.m. on the weekdays and 8 a.m. to 5 p.m. on Saturday. Therefore, the impact from construction noise would not be significant due to the temporary nature of these activities and limits on the duration of noise imposed by the City.</p>		

**Table 9: Typical Noise Levels Generated by Construction Equipment**

<b>Equipment</b>	<b>Average Noise Level at 52 Feet (dBA L<sub>eq</sub>)</b>
Air Compressor	80
Backhoe	80
Concrete Mixer	85
Concrete Pump	82
Dozer	85
Generator	82
Impact Wrench	85
Loader	80
Paver	85
Pneumatic Tool	85
Roller	85
Saw	76
Shovel	82
Truck	84
Source: Federal Transit Administration. 2018. Transit Noise and Vibration Impact Assessment Manual.	

Operational Noise - Exterior

The primary noise sources within the Project vicinity are mobile traffic noise along San Fernando Boulevard, Buena Vista Street, and I-5, and train pass-bys along the Metrolink railroad tracks to the north of the Project site. HUD provides noise standards for new development and these values are shown in **Table 10: HUD Noise Standards**, below.

**Table 10: HUD Noise Standards**

<b>Threshold</b>	<b>Day-Night average sound level (L<sub>dn</sub>) (in decibels)</b>	<b>Special approvals and requirements</b>
<b>Acceptable</b>	Not exceeding 65 dB <sup>(1)</sup>	None
<b>Normally Unacceptable</b>	Above 65 dB but not exceeding 75 dB	Special Approvals <sup>(2)</sup> Environmental Review <sup>(3)</sup> . Attention <sup>(4)</sup>
<b>Unacceptable</b>	Above 75 dB	Special Approvals <sup>(2)</sup> Environmental Review <sup>(3)</sup> . Attenuation <sup>(5)</sup>
1. Acceptable threshold may be shifted to 70 dB in special circumstances pursuant to § 51.104(b) for requirements. 2. See § 51.104(b) for requirements 3. See § 51.104(b) for requirements 4. 5 dB additional attenuation required for sites above 70 dB but not exceeding 75 dB (see § 51.104(a).) 5. Attenuation measures to be submitted to the Assistant Secretary for CPD for approval on a case-by-case basis.		

Existing roadway noise levels were calculated for the roadway segments in the Project vicinity using the Federal Highway Administration (FHWA) Highway Traffic Noise Prediction Model (FHWA-RD-77-108) and existing Annual Average Daily Traffic (AADT) from the California Department of Transportation (Caltrans) and Replica HQ. The noise prediction model calculates the average noise level at specific locations based on traffic volumes, average speeds, roadway geometry, and site environmental conditions. The average vehicle noise rates (also referred to as energy rates) used in the FHWA model have been modified to reflect average vehicle noise rates identified for California by Caltrans. The Caltrans data indicates that California automobile noise is 0.8 to 1.0 dBA higher than national levels and that medium and heavy truck noise is 0.3 to 3.0 dBA lower than national levels.

The nearest freeway to the Project site is the I-5 to the north. According to the Caltrans ADT data for the year 2022, this segment of the I-5 has approximately 182,000 daily vehicles. Assuming a one percent annual growth rate, it is assumed that this segment of I-5 would have approximately 189,390 daily vehicles in opening year 2026. The Project site is bounded by San Fernando Boulevard to the north and Buena Vista Street to the west. According to Replica HQ ADT data, the streets listed above have approximately 6,237 and 12,453 daily vehicles as of year 2023, respectively, with an assumed 6,426 and 12,830 daily vehicles by opening year 2026 assuming a one percent growth rate. The average daily noise levels along roadway segments in proximity to the Project site are shown in **Table 11: Traffic Noise Levels** and would not exceed HUD exterior noise threshold (65 dBA) at the Project site.

**Table 11: Traffic Noise Levels**

Roadway Segment	Existing			Opening Year (2026)			Significant Impact?
	AADT <sup>1</sup>	Distance to Roadway Centerline (feet)	dBA CNEL	AADT <sup>3</sup>	Distance to Roadway Centerline (feet)	dBA CNEL	
<b>San Fernando Boulevard</b>							
Between Buena Vista Street and North Brighton Street	6,237	180	56.1	6,426	180	56.1	<b>No</b>
<b>Buena Vista Street</b>							
Between San Fernando Boulevard and Thornton Avenue	12,453	65	63.8	12,830	65	63.9	<b>No</b>
<b>I-5</b>							
Between Hollywood Way and Empire Avenue	182,000	420	60.9 <sup>2</sup>	189,390	420	61.0 <sup>2</sup>	<b>No</b>
1. Annual Average Daily Traffic (AADT) data derived from Caltrans, <i>ArcGIS Traffic Volumes AADT</i> , <a "="" href="https://gisdata-caltrans.opendata.arcgis.com/datasets/d8833219913c44358f2a9a71bda57f76_0/explore?location=34.198715%2C-118.337801%2C18.67; and Replica HQ, &lt;i&gt;Annual Average Daily Traffic 2023 for Los Angeles County&lt;/i&gt;, &lt;a href=" https:="" www.replicahq.com="">https://www.replicahq.com/</a> . 2. Based on intervening structures and concrete freeway barriers, the perceived sound would be reduced by approximately 14 dBA per Noise Tools Net, <i>Sound Propagation Level Calculator</i> , <a href="https://noisetools.net/barriercalculator?source=[6.1]&amp;receiver=[1.5,1281]&amp;barrier=[1.6,1.117,3,1,1.6,4]">https://noisetools.net/barriercalculator?source=[6.1]&amp;receiver=[1.5,1281]&amp;barrier=[1.6,1.117,3,1,1.6,4]</a> . 3. Assuming a 1 percent growth rate per year.							

Other primary noise sources are the existing railroad tracks located 280 feet to the north of the Project site. Train counts were taken on October 1 to October 2, 2024. Based on the worst-case scenario, 36 total trains would pass-by the Project site at a speed of approximately 31 miles per hour. Utilizing FTA Noise Impact Assessment Methodology, the noise level from trains would be approximately 58 dBA and would not exceed the HUD exterior noise threshold. Therefore, noise impacts from mobile sources would be less than significant.

Operational Noise - Interior

According to HUD, the interior noise standard is 45 dBA. However, the interior noise standard is not applicable to the Project, as the Project would provide transitional housing for people experiencing homelessness.

### **Additional Studies Performed:**

Appendix A: FEMA FIRMette

Appendix B: Air Quality and Greenhouse Gas Emissions Modeling Data, Kimley Horn & Associates, Inc.

Appendix C.1: Phase I Environmental Site Assessment, Conservation Consulting International

Appendix C.2: Phase II Environmental Site Assessment, Conservation Consulting International

Appendix D: Explosive and Flammable Hazards Worksheet

Appendix E.1: USFWS IPaC Results

Appendix E.2: CNDDDB State-Listed Species

Appendix F: Historic Property Inventory and Evaluation Report, Kimley-Horn

### **Field Inspection (Date and completed by):**

- Limited XRF Lead-Assessment (May 12, 2023), A-Tech Consulting, Inc.
- Phase I ESA Site Survey (August 18, 2023): David A. Jonas, Conservation Consulting International and David Conrad, Burbank Community Development Department.
- Phase II Field Surveys and Sampling (September 25, 2023—October 3, 2023), Conservation Consulting International.
- Historic Property Inventory and Evaluation Report APE Survey (January 27, 2025): Kimley-Horn & Associates, Inc.

### **Summary of Findings and Conclusions:**

Based on the results of the environmental analyses and technical studies provided herein and/or appended to this CEST, the proposed Project would not have an adverse impact on the human or physical environment and would comply with the other applicable Federal environmental laws and authorities listed in §58.5. The proposed Project is consistent with adopted local plans and policies and would allow for the provision of social services and temporary housing for the unhoused population in the City of Burbank. Therefore, the proposed Project would have a beneficial effect on the quality of the human environment.

### **Mitigation Measures and Conditions [40 CFR 1505.2(c)]**

As stated above, the proposed Project would not result in any adverse environmental impacts. Accordingly, no mitigation measures or conditions are needed to avoid a potentially significant environmental impact, and the City of Burbank as Responsible Entity has not adopted any such measures/conditions for the proposed Project.

**Determination:**

- This categorically excluded activity/project converts to Exempt, per 58.34(a)(12) because there are no circumstances which require compliance with any of the federal laws and authorities cited at §58.5. **Funds may be committed and drawn down after certification of this part** for this (now) EXEMPT project, OR
- This categorically excluded activity/project cannot convert to Exempt because there are circumstances which require compliance with one or more federal laws and authorities cited at §58.5. Complete consultation/mitigation protocol requirements, **publish NOI/RROF and obtain “Authority to Use Grant Funds”** (HUD 7015.16) per Section 58.70 and 58.71 before committing or drawing down any funds; OR
- This project is now subject to a full Environmental Assessment according to Part 58 Subpart E due to extraordinary circumstances (Section 58.35(c)).

## 8. User Changes to Default Data

# 1. Basic Project Information

## 1.1. Basic Project Information

Data Field	Value
Project Name	Buena Vista
Construction Start Date	9/1/2025
Operational Year	2026
Lead Agency	—
Land Use Scale	Project/site
Analysis Level for Defaults	County
Windspeed (m/s)	2.50
Precipitation (days)	23.8
Location	2244 N Buena Vista St, Burbank, CA 91504, USA
County	Los Angeles-South Coast
City	Burbank
Air District	South Coast AQMD
Air Basin	South Coast
TAZ	3923
EDFZ	18
Electric Utility	Burbank Water & Power
Gas Utility	Southern California Gas
App Version	2022.1.1.26

## 1.2. Land Use Types

Land Use Subtype	Size	Unit	Lot Acreage	Building Area (sq ft)	Landscape Area (sq ft)	Special Landscape Area (sq ft)	Population	Description
General Office Building	4.50	1000sqft	0.24	4,500	5,923	—	—	—

Mobile Home Park	4.00	Dwelling Unit	0.07	1,530	1,520	—	12.0	—
Parking Lot	7.00	1000sqft	0.16	0.00	0.00	—	—	—

### 1.3. User-Selected Emission Reduction Measures by Emissions Sector

No measures selected

## 2. Emissions Summary

### 2.1. Construction Emissions Compared Against Thresholds

Criteria Pollutants (lb/day for daily, ton/yr for annual) and GHGs (lb/day for daily, MT/yr for annual)

## 5.4. Vehicles

### 5.4.1. Construction Vehicle Control Strategies

Non-applicable. No control strategies activated by user.

## 5.5. Architectural Coatings

Phase Name	Residential Interior Area Coated (sq ft)	Residential Exterior Area Coated (sq ft)	Non-Residential Interior Area Coated (sq ft)	Non-Residential Exterior Area Coated (sq ft)	Parking Area Coated (sq ft)
Architectural Coating	3,098	1,033	6,750	2,250	420

## 5.6. Dust Mitigation

### 5.6.1. Construction Earthmoving Activities

Phase Name	Material Imported (cy)	Material Exported (cy)	Acres Graded (acres)	Material Demolished (Ton of Debris)	Acres Paved (acres)
Demolition	0.00	0.00	0.00	52.0	—
Paving	0.00	0.00	0.00	0.00	0.16

### 5.6.2. Construction Earthmoving Control Strategies

Non-applicable. No control strategies activated by user.

## 5.7. Construction Paving

Land Use	Area Paved (acres)	% Asphalt
General Office Building	0.00	0%
Mobile Home Park	—	0%
Parking Lot	0.16	100%

## 5.8. Construction Electricity Consumption and Emissions Factors

kWh per Year and Emission Factor (lb/MWh)

Year	kWh per Year	CO2	CH4	N2O
2025	0.00	1,130	0.03	< 0.005
2026	0.00	1,130	0.03	< 0.005

## 5.9. Operational Mobile Sources

5.9.1. Unmitigated

Land Use Type	Trips/Weekday	Trips/Saturday	Trips/Sunday	Trips/Year	VMT/Weekday	VMT/Saturday	VMT/Sunday	VMT/Year
General Office Building	43.8	9.95	3.15	12,110	393	89.2	28.3	108,639
Mobile Home Park	20.0	18.4	17.0	7,060	216	200	184	76,401
Parking Lot	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0.00

5.10. Operational Area Sources

5.10.1. Hearths

5.10.1.1. Unmitigated

5.10.2. Architectural Coatings

Residential Interior Area Coated (sq ft)	Residential Exterior Area Coated (sq ft)	Non-Residential Interior Area Coated (sq ft)	Non-Residential Exterior Area Coated (sq ft)	Parking Area Coated (sq ft)
3098.25	1,033	6,750	2,250	420

5.10.3. Landscape Equipment

Season	Unit	Value
Snow Days	day/yr	0.00
Summer Days	day/yr	250

5.11. Operational Energy Consumption

5.11.1. Unmitigated

Electricity (kWh/yr) and CO2 and CH4 and N2O and Natural Gas (kBtu/yr)

Land Use	Electricity (kWh/yr)	CO2	CH4	N2O	Natural Gas (kBtu/yr)
General Office Building	82,920	1,130	0.0330	0.0040	37,634

Mobile Home Park	19,532	1,130	0.0330	0.0040	0.00
Parking Lot	6,132	1,130	0.0330	0.0040	0.00

### 5.12. Operational Water and Wastewater Consumption

#### 5.12.1. Unmitigated

Land Use	Indoor Water (gal/year)	Outdoor Water (gal/year)
General Office Building	799,802	83,068
Mobile Home Park	149,095	26,055
Parking Lot	0.00	0.00

### 5.13. Operational Waste Generation

#### 5.13.1. Unmitigated

Land Use	Waste (ton/year)	Cogeneration (kWh/year)
General Office Building	4.19	—
Mobile Home Park	3.00	—
Parking Lot	0.00	—

### 5.14. Operational Refrigeration and Air Conditioning Equipment

#### 5.14.1. Unmitigated

Land Use Type	Equipment Type	Refrigerant	GWP	Quantity (kg)	Operations Leak Rate	Service Leak Rate	Times Serviced
General Office Building	Household refrigerators and/or freezers	R-134a	1,430	0.02	0.60	0.00	1.00
General Office Building	Other commercial A/C and heat pumps	R-410A	2,088	< 0.005	4.00	4.00	18.0

Mobile Home Park	Average room A/C & Other residential A/C and heat pumps	R-410A	2,088	< 0.005	2.50	2.50	10.0
------------------	---	--------	-------	---------	------	------	------

## 5.15. Operational Off-Road Equipment

### 5.15.1. Unmitigated

Equipment Type	Fuel Type	Engine Tier	Number per Day	Hours Per Day	Horsepower	Load Factor
----------------	-----------	-------------	----------------	---------------	------------	-------------

## 5.16. Stationary Sources

### 5.16.1. Emergency Generators and Fire Pumps

Equipment Type	Fuel Type	Number per Day	Hours per Day	Hours per Year	Horsepower	Load Factor
----------------	-----------	----------------	---------------	----------------	------------	-------------

### 5.16.2. Process Boilers

Equipment Type	Fuel Type	Number	Boiler Rating (MMBtu/hr)	Daily Heat Input (MMBtu/day)	Annual Heat Input (MMBtu/yr)
----------------	-----------	--------	--------------------------	------------------------------	------------------------------

## 5.17. User Defined

Equipment Type	Fuel Type
----------------	-----------

## 6. Climate Risk Detailed Report

### 6.1. Climate Risk Summary

Cal-Adapt midcentury 2040–2059 average projections for four hazards are reported below for your project location. These are under Representation Concentration Pathway (RCP) 8.5 which assumes GHG emissions will continue to rise strongly through 2050 and then plateau around 2100.

Climate Hazard	Result for Project Location	Unit
Temperature and Extreme Heat	12.5	annual days of extreme heat
Extreme Precipitation	7.10	annual days with precipitation above 20 mm
Sea Level Rise	—	meters of inundation depth
Wildfire	0.00	annual hectares burned

Temperature and Extreme Heat data are for grid cell in which your project are located. The projection is based on the 98th historical percentile of daily maximum/minimum temperatures from observed historical data (32 climate model ensemble from Cal-Adapt, 2040–2059 average under RCP 8.5). Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

Extreme Precipitation data are for the grid cell in which your project are located. The threshold of 20 mm is equivalent to about ¾ an inch of rain, which would be light to moderate rainfall if received over a full day or heavy rain if received over a period of 2 to 4 hours. Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

Sea Level Rise data are for the grid cell in which your project are located. The projections are from Radke et al. (2017), as reported in Cal-Adapt (Radke et al., 2017, CEC-500-2017-008), and consider inundation location and depth for the San Francisco Bay, the Sacramento-San Joaquin River Delta and California coast resulting different increments of sea level rise coupled with extreme storm events. Users may select from four scenarios to view the range in potential inundation depth for the grid cell. The four scenarios are: No rise, 0.5 meter, 1.0 meter, 1.41 meters

Wildfire data are for the grid cell in which your project are located. The projections are from UC Davis, as reported in Cal-Adapt (2040–2059 average under RCP 8.5), and consider historical data of climate, vegetation, population density, and large (> 400 ha) fire history. Users may select from four model simulations to view the range in potential wildfire probabilities for the grid cell. The four simulations make different assumptions about expected rainfall and temperature are: Warmer/drier (HadGEM2-ES), Cooler/wetter (CNRM-CM5), Average conditions (CanESM2), Range of different rainfall and temperature possibilities (MIROC5). Each grid cell is 6 kilometers (km) by 6 km, or 3.7 miles (mi) by 3.7 mi.

### 6.2. Initial Climate Risk Scores

Climate Hazard	Exposure Score	Sensitivity Score	Adaptive Capacity Score	Vulnerability Score
Temperature and Extreme Heat	1	0	0	N/A
Extreme Precipitation	N/A	N/A	N/A	N/A
Sea Level Rise	1	0	0	N/A
Wildfire	1	0	0	N/A
Flooding	N/A	N/A	N/A	N/A
Drought	N/A	N/A	N/A	N/A
Snowpack Reduction	N/A	N/A	N/A	N/A
Air Quality Degradation	0	0	0	N/A

The sensitivity score reflects the extent to which a project would be adversely affected by exposure to a climate hazard. Exposure is rated on a scale of 1 to 5, with a score of 5 representing the greatest exposure.

The adaptive capacity of a project refers to its ability to manage and reduce vulnerabilities from projected climate hazards. Adaptive capacity is rated on a scale of 1 to 5, with a score of 5 representing the greatest ability to adapt.

The overall vulnerability scores are calculated based on the potential impacts and adaptive capacity assessments for each hazard. Scores do not include implementation of climate risk reduction measures.

### 6.3. Adjusted Climate Risk Scores

Climate Hazard	Exposure Score	Sensitivity Score	Adaptive Capacity Score	Vulnerability Score
Temperature and Extreme Heat	1	1	1	2
Extreme Precipitation	N/A	N/A	N/A	N/A
Sea Level Rise	1	1	1	2
Wildfire	1	1	1	2
Flooding	N/A	N/A	N/A	N/A
Drought	N/A	N/A	N/A	N/A
Snowpack Reduction	N/A	N/A	N/A	N/A
Air Quality Degradation	1	1	1	2

The sensitivity score reflects the extent to which a project would be adversely affected by exposure to a climate hazard. Exposure is rated on a scale of 1 to 5, with a score of 5 representing the greatest exposure.

The adaptive capacity of a project refers to its ability to manage and reduce vulnerabilities from projected climate hazards. Adaptive capacity is rated on a scale of 1 to 5, with a score of 5 representing the greatest ability to adapt.

The overall vulnerability scores are calculated based on the potential impacts and adaptive capacity assessments for each hazard. Scores include implementation of climate risk reduction measures.

## 6.4. Climate Risk Reduction Measures

# 7. Health and Equity Details

## 7.1. CalEnviroScreen 4.0 Scores

The maximum CalEnviroScreen score is 100. A high score (i.e., greater than 50) reflects a higher pollution burden compared to other census tracts in the state.

Indicator	Result for Project Census Tract
Exposure Indicators	—
AQ-Ozone	84.6
AQ-PM	61.2
AQ-DPM	89.4
Drinking Water	87.9
Lead Risk Housing	71.9
Pesticides	0.00
Toxic Releases	81.5
Traffic	89.0
Effect Indicators	—
CleanUp Sites	94.7
Groundwater	96.9
Haz Waste Facilities/Generators	93.8
Impaired Water Bodies	58.7
Solid Waste	0.00
Sensitive Population	—
Asthma	42.4
Cardio-vascular	38.5
Low Birth Weights	94.4
Socioeconomic Factor Indicators	—

Education	53.1
Housing	85.8
Linguistic	48.2
Poverty	63.6
Unemployment	67.5

### 7.2. Healthy Places Index Scores

The maximum Health Places Index score is 100. A high score (i.e., greater than 50) reflects healthier community conditions compared to other census tracts in the state.

Indicator	Result for Project Census Tract
Economic	—
Above Poverty	35.86552034
Employed	59.16848454
Median HI	40.02309765
Education	—
Bachelor's or higher	56.92287951

2016 Voting	24.9

### 7.3. Overall Health & Equity Scores

Metric	Result for Project Census Tract
CalEnviroScreen 4.0 Score for Project Location (a)	92.0
Healthy Places Index Score for Project Location (b)	29.0
Project Located in a Designated Disadvantaged Community (Senate Bill 535)	Yes
Project Located in a Low-Income Community (Assembly Bill 1550)	Yes
Project Located in a Community Air Protection Program Community (Assembly Bill 617)	No

a: The maximum CalEnviroScreen score is 100. A high score (i.e., greater than 50) reflects a higher pollution burden compared to other census tracts in the state.

b: The maximum Health Places Index score is 100. A high score (i.e., greater than 50) reflects healthier community conditions compared to other census tracts in the state.

## 7.4. Health & Equity Measures

No Health & Equity Measures selected.

## 7.5. Evaluation Scorecard

Health & Equity Evaluation Scorecard not completed.

## 7.6. Health & Equity Custom Measures

No Health & Equity Custom Measures created.

## 8. User Changes to Default Data

Screen	Justification
Construction: Construction Phases	per construction questionnaire, commercial and residential buildings are constructed separately
Land Use	Per site plan and project description
Construction: Off-Road Equipment	per project description, heavy duty equipment would not be required for building renovation or home installation
Operations: Hearths	per project description, no fireplaces or stoves included in the homes
Operations: Refrigerants	per project description, the homes would not include appliances
Operations: Energy Use	per project description, commercial building would install energy star certified appliances and residences would be all electric

PHASE I ENVIRONMENTAL SITE ASSESSMENT  
Building 57, Boys and Girls Club  
2244 North Buena Vista Street  
Burbank, California 91504

Dear Ms. Montes:

CCI is pleased to submit our report describing the findings of the Phase I Environmental Site Assessment (ESA) for 2244 North Buena Vista Street, Burbank, Los Angeles County, California. This Phase I ESA was prepared in general accordance with the United States Environmental Protection Agency (US EPA) 40 CFR Part 312, Standards and Practices for All Appropriate Inquiries (AAI) and the American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation: E1527-21).

The purpose of the Phase I ESA was to identify, to the extent feasible, recognized environmental concerns in connection with the Property. This assessment included a Property reconnaissance, a survey of adjacent sites, interviews with informed persons, and reviews of regulatory agency records, an environmental database report, geologic and hydrogeologic resources, and historical information.

It has been our pleasure in providing this Phase I ESA for your review. Should you have any questions concerning the information contained in the following report, please feel free to contact the undersigned at (310) 373-0159.

Respectfully submitted,  
**Conservation Consulting International**

# 1.0 EXECUTIVE SUMMARY

This Phase I Environmental Site Assessment (ESA) was completed by CCI at the request of the City of Burbank for 2244 North Buena Vista Street, Burbank, Los Angeles County, California (Property). The Property location is shown on Figure 1 - Property Location Map. The Phase I ESA was generally conducted according to the guidelines of ASTM Standard Practice of Environmental Site Assessments (E1527-21) and the US EPA 40 CFR Part 312, Standards and Practices for All Appropriate Inquiries (AAI).

The purpose of the Phase I ESA was to identify, to the extent feasible, recognized environmental conditions in connection with the Property. This assessment included a Property reconnaissance, a survey of adjacent sites, interviews with informed persons, and reviews of regulatory agency records, an environmental database report, geologic and hydrogeologic resources, and historical information.

## 1.1 PROPERTY DESCRIPTION

The Property is approximately 1.47 acres in area and has been developed with one main building totaling approximately 5,000 square-feet in size. The single-story, concrete tilt-up building was constructed on the west-southwest portion of the Property in 1956. The building includes several rooms, restrooms, a kitchen, and storage closets. There are also two trailers located on the northwest portion of the Property. The trailers were installed at sometime between 1994 and 2002. One trailer consists of one large room and the other trailer consists of restrooms. There is an exterior yard area on the east portion of the Property accessible via the northeasterly-adjacent alleyway. The yard is asphalt-paved. A large portion of the yard is also covered with an exterior basketball court surface. There are storage sheds located along the southeast portion of the yard.

The Property is currently vacant. The previous occupant of the Property was the Boys and Girls Club of Burbank which operated between approximately 1995 and 2020. Prior to the Boys and Girls Club, the Property was used as a City of Burbank Fire Station between 1956 and 1994.

Address:	2244 North Buena Vista Street, Burbank, Los Angeles County, California
Assessor's Parcel Numbers:	2464-013-900
Nature of Property Use:	Commercial building - former Boys and Girls Club
Number of Buildings:	One main building and two trailers
Date of Construction:	1956
Type of Construction:	Main building - Concrete tilt-up structure
Property Size:	0.47 acres
Building Size:	5,000 square-feet
Current Occupants:	Vacant (former Boys and Girls Club)

## 1.2 FINDINGS AND OPINIONS

The Property is approximately 1.47 acres in area and has been developed with one main building totaling approximately 5,000 square-feet in size. The single-story, concrete tilt-up building was constructed on the west-southwest portion of the Property in 1956. Prior to 1956, a residential structure and detached automobile garage were located on the south portion of the Property. These buildings were constructed in 1950. Prior to 1950, the Property consisted of undeveloped land since at least 1928.

The Property is currently vacant. The previous occupant of the Property was the Boys and Girls Club of Burbank which operated between approximately 1995 and 2020. Prior to the Boys and Girls Club, the Property was used as a City of Burbank Fire Station between 1956 and 1994.

CCI did not observe evidence of current underground storage tanks (USTs) on the Property. Historically, according to information reviewed from the Burbank Fire Department (BFD), one, steel, 1,500-gallon, diesel fuel UST and associated dispenser/piping were removed from the Property in 1999. The UST was associated with the former Fire Department facility and was installed in 1957. The information did not include any soil sampling results associated with the UST removal or a closure letter for the removed UST. The file information also contained a 1987 work plan for a leak detection program/tank monitoring plan. However, information was not found indicating that the work plan had been implemented.

The northeasterly-adjacent site of the Property is occupied by a gasoline station and a dry cleaning facility. The gasoline station has operated since approximately 1952 and the dry cleaning facility has operated since approximately 1969. The gasoline station is a case-closed leaking underground storage tank (LUST) site which impacted the soil, soil vapor, and groundwater matrices beneath the site. The dry cleaning facility has historically used tetrachloroethene (PCE) on the site. Given the south-southeasterly groundwater flow direction in the area of the Property, it is considered possible that the operations of the gasoline station and dry cleaning facility have adversely impacted the subsurface environment beneath the Property.

According to the Overview and Details Maps provided in the environmental database report reviewed by CCI for this Phase I ESA, the Property is located within the contaminated groundwater plume associated with the San Fernando Valley (Area 1) National Priorities List (NPL) site. The groundwater plume includes elevated concentrations of PCE and trichloroethene (TCE). In addition, CCI reviewed the most recent groundwater contamination plume maps available on the US EPA website for the San Fernando Valley (Area 1) NPL site. According to the maps reviewed, the Property is located within the boundaries of the contaminated groundwater plumes. Based on this information, a vapor encroachment condition (VEC) for the Property cannot be ruled out. Current and historical Property operations are not suspected of posing a VEC for the Property.

### 1.3 CONCLUSIONS

A *recognized environmental condition* (REC) refers to (1) the presence of hazardous substances or petroleum products in, on, or at a Property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at a Property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at a Property under conditions that pose a material threat of a future release to the environment. A "de minimis" condition is not a recognized environmental condition. The results of this assessment revealed the following RECs in connection with the Property:

- According to information reviewed from the BFD, one, steel, 1,500-gallon, diesel fuel UST and associated dispenser/piping were removed from the Property in 1999. The UST was associated with the former Fire Department facility and was installed in 1957. The information did not include any soil sampling results associated with the UST removal or a closure letter for the removed UST. The file information also contained a 1987 work plan for a leak detection program/tank monitoring plan. However, information was not found indicating that the work plan had been implemented.
- The northeasterly-adjacent site of the Property is occupied by a gasoline station and a dry cleaning facility. The gasoline station has operated since approximately 1952 and the dry cleaning facility has operated since approximately 1969. The gasoline station is a case-closed ILLUST site which impacted the soil, soil vapor, and groundwater matrices beneath the site. The dry cleaning facility has historically used PCE on the site. Given the south-southeasterly groundwater flow direction in the area of the Property, it is considered possible that the operations of the gasoline station and dry cleaning facility have adversely impacted the subsurface environment beneath the Property.
- According to the Overview and Details Maps provided in the environmental database report reviewed by CCI for this Phase I ESA, the Property is located within the contaminated groundwater plume associated with the San Fernando Valley (Area 1) NPL site. The groundwater plume includes elevated concentrations of PCE and TCE. In addition, CCI reviewed the most recent groundwater contamination plume maps available on the US EPA website for the San Fernando Valley (Area 1) NPL site. According to the maps reviewed, the Property is located within the boundaries of the contaminated groundwater plumes. Based on this information, a VEC for the Property cannot be ruled out. Current and historical Property operations are not suspected of posing a VEC for the Property.

A *historical recognized environmental condition* (HREC) refers to a past release of any hazardous substances or petroleum products that has occurred in connection with the Property and has been addressed to the satisfaction of the applicable regulatory authority of meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the Property to any required controls. This assessment did not reveal evidence of HRECs in connection with the Property.

*A controlled recognized environmental condition (CREC)* refers to a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls. This assessment did not reveal evidence of CRECs in connection with the Property.

#### **1.4 RECOMMENDATIONS**

This assessment has revealed evidence of recognized environmental conditions and environmental issues in connection with the Property. Based on the results of this assessment, CCI recommends the following:

- Depending on the User's desired level of confidence, soil vapor sampling and/or indoor air sampling could be conducted on the Property to assess whether a VEC exists for the Property resulting from the San Fernando Valley (Area 1) NPL site or the northeasterly-adjacent gasoline station and dry cleaning facility.

## 2.0 INTRODUCTION

City of Burbank engaged CCI to conduct a Phase I ESA of the Property located at 2244 North Buena Vista Street, Burbank, Los Angeles County, California. This assessment was prepared in general accordance with ASTM Standard Practice of Environmental Site Assessments (E1527-21) and the US EPA 40 CFR Part 312, Standards and Practices for AAI. Any exceptions to, or deletions from, this scope of work are described in the report.

### 2.1 OBJECTIVE

The objective of this Phase I ESA was to perform an appropriate inquiry into the uses of the Property as outlined by the ASTM Standard Practice of Environmental Site Assessments (E1527-21) and the US EPA 40 CFR Part 312, Standards and Practices for AAI, and to identify, to extent feasible, *recognized environmental conditions* (RECs) in connection with the Property that potentially have and/or may cause an adverse environmental impact to the Property.

### 2.2 SCOPE OF SERVICES

The scope of work for this assessment was in general accordance with the ASTM Standard Practice for Environmental Site Assessments (E1527-21) and the US EPA 40 CFR Part 312, Standards and Practices for AAI. These methodologies are described as representing good commercial and customary practice for conducting an ESA for the purpose of identifying recognized environmental conditions. This assessment included a Property reconnaissance, a survey of adjacent sites, interviews with informed persons, a review of regulatory agency records, a review of an environmental database report, a review of geologic and hydrogeologic resources, and a review of historical resources such as aerial photographs, Sanborn Fire Insurance Maps, topographic maps, and city directories.

### 2.3 DEVIATIONS

Except for the limitations and exceptions discussed in Section 15.0, this Phase I ESA generally complies with the ASTM Standard E1527-21 and the US EPA 40 CFR Part 312, Standards and Practices for AAI.

### 2.4 ADDITIONAL SERVICES

No additional services beyond the scope of work of the ASTM Standard E1527-21 and the US EPA 40 CFR Part 312, Standards and Practices for AAI were conducted as part of this assessment.

## **2.5 USER RELIANCE**

This report may be distributed and relied upon by the City of Burbank, its successors and assigns. Reliance on the information and conclusions of this report by any other person or entity is not authorized without the written consent of CCI. This report is not a legal opinion and does not offer warranties or guarantees.

## 3.0 PROPERTY DESCRIPTION

### 3.1 LOCATION AND LEGAL DESCRIPTION

The Property is located at 2244 North Buena Vista Street, Burbank, Los Angeles County, California, and is legally described by its assessor's parcel number (APN) 2464-013-900.

### 3.2 PROPERTY DESCRIPTION

The Property is approximately 1.47 acres in area and has been developed with one main building totaling approximately 5,000 square-feet in size. The single-story, concrete tilt-up building was constructed on the west-southwest portion of the Property in 1956. The building includes several rooms, restrooms, a kitchen, and storage closets. There are also two trailers located on the northwest portion of the Property. The trailers were installed at sometime between 1994 and 2002. One trailer consists of one large room and the other trailer consists of restrooms. There is an exterior yard area on the east portion of the Property accessible via the northeasterly-adjacent alleyway. The yard is asphalt-paved. A large portion of the yard is also covered with an exterior basketball court surface. There are storage sheds located along the southeast portion of the yard (Refer to Photographs 1 - 18, located in Appendix B - Property Photographs).

### 3.3 CURRENT PROPERTY USE

The Property is currently vacant. The previous occupant of the Property was the Boys and Girls Club of Burbank which operated between approximately 1995 and 2020.

### 3.4 CURRENT USE OF ADJOINING SITES

The Property is located adjacent to the east side of North Buena Vista Street and to the south of the intersection of North Buena Vista Street and North San Fernando Boulevard. The surrounding areas of the Property are generally commercial or residential in nature. The following sites are located adjacent to the Property:

Northeast:	Union 76 gasoline station, Dryclean Express Cleaners, and Vista Liquor
South:	Residential sites
West:	North Buena Vista Street followed by residential sites and a Quality Inn hotel

### 3.5 PROPERTY UTILITIES

#### 3.5.1 POTABLE WATER

Potable water is provided to the Property by Burbank Water & Power.

### 3.5.2 SEWAGE DISPOSAL

Sewage disposal is provided for the Property by the City of Burbank.

### 3.5.3 SOURCES OF HEATING AND COOLING

Sources of heating and cooling energy are provided to the Property by Burbank Water & Power.

## 3.6 PHYSICAL SETTINGS SECTION

### 3.6.1 SURFACE DESCRIPTION

The Property is relatively level. The general slope in the area of the Property is to the southeast. The Property lies approximately 661-feet above mean sea level. The nearest surface body of water is a storm water channel (Western Channel) which is located approximately 500-feet to the northeast of the Property.

### 3.6.2 SOIL CONDITIONS

According to the environmental database Geocheck® - Physical Source Setting Section, the soil beneath the Property is described as Urban Land.

### 3.6.3 GROUNDWATER CONDITIONS

According to information reviewed on the Regional Water Quality Control Board (RWQCB) Geotracker website database for LUST sites in the vicinity of the Property, the depth to groundwater in the area of the Property is expected to be at least 200-feet below ground surface (bgs). The shallow groundwater flow direction is expected to be to the south-southeast.

## **4.0 PROPERTY RECONNAISSANCE**

CCI performed a walking survey of the Property on August 18, 2023, accompanied by Mr. David Conrad, Real Estate and Project Manager for the Burbank Community Development Department. The Property was observed for conditions and land uses that may have an affect on the environmental quality of the Property. CCI observed the Property for evidence of facilities such as aboveground and underground storage tanks, electrical transformers, ponds, pits, sumps, waste storage containers, drums or any other facilities where hazardous materials could be stored, disposed of, or dispensed. CCI also observed the Property for evidence of surface staining, stressed vegetation, and chemical odors which may be of concern regarding adverse environmental impacts to the Property.

### **4.1 PROPERTY DESCRIPTION**

The Property is approximately 1.47 acres in area and has been developed with one main building totaling approximately 5,000 square-feet in size. The single-story, concrete tilt-up building was constructed on the west-southwest portion of the Property in 1956. The building includes several rooms, restrooms, a kitchen, and storage closets. There are also two trailers located on the northwest portion of the Property. The trailers were installed at sometime between 1994 and 2002. One trailer consists of one large room and the other trailer consists of restrooms. There is an exterior yard area on the east portion of the Property accessible via the northeasterly-adjacent alleyway. The yard is asphalt-paved. A large portion of the yard is also covered with an exterior basketball court surface. There are storage sheds located along the southeast portion of the yard (Refer to Photographs 1 - 18, located in Appendix B - Property Photographs).

### **4.2 CURRENT PROPERTY USE**

The Property is currently vacant. The previous occupant of the Property was the Boys and Girls Club of Burbank which operated between approximately 1995 and 2020.

### **4.3 HAZARDOUS MATERIALS**

In a storage room inside the Property building, CCI observed several containers storing paint and common cleaning chemicals. The storage of these hazardous materials is not expected to have adversely impacted the subsurface environment beneath the Property.

### **4.4 UNDERGROUND STORAGE TANKS**

CCI did not observe evidence of current USTs on the Property.

According to information reviewed from the BFD, one, steel, 1,500-gallon, diesel fuel UST and associated dispenser/piping were removed from the Property in 1999. The UST was associated with the former Fire Department facility and was installed in 1957. The information did not include any soil sampling results associated with the UST removal or a closure letter for the removed UST. The

file information also contained a 1987 work plan for a leak detection program/tank monitoring plan. However, information was not found indicating that the work plan had been implemented.

#### **4.5 ABOVEGROUND STORAGE TANKS**

CCI did not observe evidence of aboveground storage tanks (ASTs) on the Property.

#### **4.6 SUMPS, CLARIFIERS, AND FLOOR DRAINS**

CCI did not observe evidence of sumps, clarifiers, or floor drains on the Property.

#### **4.7 POLYCHLORINATED BIPHENYLS**

Electrical transformers, hydraulic equipment, capacitors, fluorescent light fixtures and similar electrical equipment may contain polychlorinated biphenyls (PCBs) in the hydraulic fluids and/or dielectric insulation liquids present within the unit. The federal Toxic Substances Control Act (TSCA) generally prohibits the domestic manufacture of PCBs after 1979. However there is a potential for equipment manufactured and/or constructed before that date to contain PCBs and current regulations do not require PCB containing equipment to be removed from service.

Transformers or other electric or hydraulic devices suspected of containing PCBs were not observed at the Property.

## 5.0 HISTORICAL REVIEW

The purpose of reviewing historical sources is to develop a history of the previous uses of the Property and surrounding areas in order to help identify the likelihood of past uses having led to recognized environmental conditions in connection with the Property. Historical sources reviewed by CCI for this Phase I ESA included aerial photographs, street directories, Sanborn Fire Insurance maps, and topographic maps and are summarized in the following sections.

### 5.1 SUMMARY OF PROPERTY USE

The main Property building currently on the Property was constructed in 1956. The two trailers on the northwest portion of the Property were installed by 2002. Prior to 1956, a residential structure and detached automobile garage were located on the south portion of the Property. These buildings were constructed in 1950. Prior to 1950, the Property consisted of undeveloped land since at least 1928.

The Property is currently vacant. The Boys and Girls Club of Burbank operated on the Property between approximately 1995 and 2020. A Burbank Fire Department station operated on the Property between approximately 1956 and 1994. The Property was used for residential purposes between approximately 1950 and 1955.

### 5.2 AERIAL PHOTOGRAPH REVIEW

Historical aerial photographs of the Property were reviewed for the years 1928, 1938, 1948, 1952, 1954, 1964, 1977, 1979, 1983, 1989, 1994, 2002, 2005, 2009, 2012, 2016, and 2020. The following table summarizes the descriptions of the Property and the surrounding areas of the Property as observed in the aerial photographs:

AERIAL PHOTOGRAPHS		
Year	Source	Description
1928	FAIR	<b>Property:</b> The Property appeared to consist of undeveloped land.
		<b>Surrounding Areas:</b> North Buena Vista Street was developed adjacent to the west of the Property. The surrounding areas of the Property consisted of undeveloped land and residential sites.
1938	USDA	<b>Property:</b> The Property appeared to consist of undeveloped land.
		<b>Surrounding Areas:</b> North Buena Vista Street was developed adjacent to the west of the Property. The surrounding areas of the Property consisted of undeveloped land and residential sites.
1948	USGS	The aerial photograph was too blurry to discern details.
1952	USGS	<b>Property:</b> A residential structure and detached automobile garage were located on the south portion of the Property. The north portion of the Property was undeveloped.

		<b>Surrounding Areas:</b> North Buena Vista Street was located adjacent to the west of the Property followed by residential sites. Residential sites were located to the south of the Property. A gasoline station and commercial building were located adjacent to the northeast of the Property followed by North San Fernando Boulevard and railroad tracks.
1954	USDA	The Property and surrounding areas were developed similar to that observed in the 1952 aerial photograph.
1964	USGS	<b>Property:</b> The Property was developed with a building which fit the footprint of the current Property building.
		<b>Surrounding Areas:</b> North Buena Vista Street was located adjacent to the west of the Property followed by residential sites. Residential sites were located to the south of the Property. A gasoline station and commercial building were located adjacent to the northeast of the Property followed by North San Fernando Boulevard, railroad tracks, and Highway 5.
1977	EDR Proprietary Brewster Pacific	The Property and surrounding areas were developed similar to that observed in the 1964 aerial photograph.
1979	EDR Proprietary Brewster Pacific	The Property and surrounding areas were developed similar to that observed in the 1977 aerial photograph.
1983	EDR Proprietary Brewster Pacific	The Property and surrounding areas were developed similar to that observed in the 1979 aerial photograph.
1989	USGS/DOQQ	The Property and surrounding areas were developed similar to that observed in the 1983 aerial photograph.
1994	USGS/DOQQ	The Property and surrounding areas were developed similar to that observed in the 1989 aerial photograph.
2002	USDA	<b>Property:</b> The Property was developed with a building which fit the footprint of the current Property building. In addition, the two trailers were located on the northwest portion of the Property.
		<b>Surrounding Areas:</b> North Buena Vista Street was located adjacent to the west of the Property followed by residential sites. Residential sites were located to the south of the Property. A gasoline station and commercial building were located adjacent to the northeast of the Property followed by North San Fernando Boulevard, railroad tracks, and Highway 5.
2005	USDA/NAIP	The Property and surrounding areas were developed similar to that observed in the 2002 aerial photograph.
2009	USDA/NAIP	The Property and surrounding areas were developed similar to that observed in the 2005 aerial photograph.
2012	USDA/NAIP	The Property and surrounding areas were developed similar to that observed in the 2009 aerial photograph.
2016	USDA/NAIP	The Property and surrounding areas were developed similar to that observed in the 2012 aerial photograph.

2020	USDA/NAIP	The Property and surrounding areas were developed similar to that observed in the 2016 aerial photograph.
------	-----------	---

### 5.3 STREET DIRECTORY REVIEW

Historical business directories including city, cross reference, and telephone directories were reviewed as generated by Environmental Data Resources (EDR). The following table describes the listings for the Property and select adjacent sites of the Property:

CITY DIRECTORIES	
Year	Listing
1950	<b>Adjacent Northeast:</b> San Vista Oil Co <b>Adjacent West:</b> Zeich Plumbng Co
1952	<b>Property:</b> Peter Broadley <b>Adjacent Northeast:</b> San Vista Oil Co gas sta
1956	<b>Adjacent Northeast:</b> Mag Oil Co Inc and San-Vista Oil Co <b>Adjacent West:</b> Buena Vista Motel
1958	<b>Adjacent Northeast:</b> Mag Oil Co Inc
1962	<b>Adjacent Northeast:</b> San Vista Oil Co <b>Adjacent West:</b> Buena Vista Motel
1967	<b>Adjacent Northeast:</b> Vista Stns Inc
1970	<b>Adjacent Northeast:</b> Vista Cleaners, Vista Liquors, Sunco Oil Co, and Vista Stns Inc <b>Adjacent West:</b> Buena Vista Motel
1971	<b>Adjacent Northeast:</b> Sunco Oil Co, Vista Stns Inc, and World Oil Co
1975	<b>Adjacent Northeast:</b> Vista Cleaners, Vista Liquors, and Vista Stns Inc
1976	<b>Adjacent Northeast:</b> Sunco Oil Co and World Oil Co
1980	<b>Adjacent Northeast:</b> Vista Cleaners and Vista Liquors <b>Adjacent West:</b> Buena Vista Motel
1985	<b>Adjacent Northeast:</b> Vista Cleaners, Vista De Oro Productions, and Vista Liquors <b>Adjacent West:</b> Buena Vista Motel
1991	<b>Adjacent Northeast:</b> Vista Cleaners and Almazes Arco <b>Adjacent West:</b> Buena Vista Motel
1992	<b>Adjacent Northeast:</b> Vista Cleaners and Almazes Arco <b>Adjacent West:</b> Buena Vista Motel
1995	<b>Adjacent Northeast:</b> Vista Cleaners, Vista Liquor, and Almazes Arco <b>Adjacent West:</b> Buena Vista Motel
2001	<b>Property:</b> Boys & Girls Club of Burbank

	<b>Adjacent West:</b> Quality Inn
2005	<b>Property:</b> Boys & Girls Club of Burbank
	<b>Adjacent Northeast:</b> Vista Cleaners
2006	<b>Property:</b> Boys & Girls Club of Burbank
	<b>Adjacent Northeast:</b> Vista Cleaners and World Oil No
	<b>Adjacent West:</b> Quality Inn
2010	<b>Property:</b> Boys & Girls Club of Burbank
	<b>Adjacent Northeast:</b> Jasmine Cleaners and World Oil
	<b>Adjacent West:</b> Quality Inn
2014	<b>Property:</b> Boys & Girls Clubs of America
	<b>Adjacent Northeast:</b> Dry Clean Express and World Oil No 25
	<b>Adjacent West:</b> Quality Inn
2020	<b>Property:</b> Boys-Girls Club Burbank-Grtr
	<b>Adjacent Northwest:</b> Dry Clean Express, Vista Liquor, and World Oil 76

#### 5.4 SANBORN FIRE INSURANCE MAP REVIEW

Historical Sanborn Fire Insurance Maps were reviewed for the years 1941, 1949, 1950, 1953, 1954, 1956, 1957, 1960, 1966, 1968, 1969, and 1970. The following table summarizes the descriptions of the Property and the adjacent sites of the Property as observed in the Sanborn Fire Insurance Maps:

SANBORN FIRE INSURANCE MAP SUMMARY	
Year	Description
1941	The Property and adjacent sites were not in the mapped area.
1949	The Property and adjacent sites were not in the mapped area.
1950	The Property and adjacent sites were not in the mapped area.
1953	<b>Property:</b> A dwelling and detached automobile garage were depicted on the south portion of the Property. Structures were not depicted on the north portion of the Property.
	<b>Adjacent Sites:</b> North Buena Vista was depicted adjacent to the west of the Property followed by residential sites. A residential site was depicted adjacent to the south of the Property. A gasoline station was depicted adjacent to the northeast of the Property.
1954	The Property and adjacent sites were depicted similar to that observed in the 1953 Sanborn Fire Insurance Map.
1956	<b>Property:</b> A dwelling and detached automobile garage were depicted on the south portion of the Property. Structures were not depicted on the north portion of the Property.

	<b>Adjacent Sites:</b> North Buena Vista was depicted adjacent to the west of the Property followed by residential sites and a motel. Two residential sites were depicted adjacent to the south of the Property. A gasoline station was depicted adjacent to the northeast of the Property.
1957	The Property and adjacent sites were not in the mapped area.
1960	<b>Property:</b> One structure, identified as Fire Station Number 3 was depicted on the Property.
	<b>Adjacent Sites:</b> North Buena Vista was depicted adjacent to the west of the Property followed by residential sites and a motel. Two residential sites were depicted adjacent to the south of the Property. A gasoline station was depicted adjacent to the northeast of the Property.
1966	The Property and adjacent sites were depicted similar to that observed in the 1960 Sanborn Fire Insurance Map.
1968	<b>Property:</b> One structure, identified as Fire Station Number 3 was depicted on the Property.
	<b>Adjacent Sites:</b> North Buena Vista was depicted adjacent to the west of the Property followed by residential sites and a motel. Two residential sites were depicted adjacent to the south of the Property. A gasoline station and stores were depicted adjacent to the northeast of the Property.
1969	The Property and adjacent sites were depicted similar to that observed in the 1968 Sanborn Fire Insurance Map.
1970	The Property and adjacent sites were not in the mapped area.

## 5.5 TOPOGRAPHIC MAP REVIEW

Topographic maps were reviewed to document the prior uses of the Property and surrounding area. United States Geological Survey (USGS) produced maps were available for the years 1894, 1896, 1898, 1900, 1902, 1920, 1921, 1926, 1932, 1933, 1942, 1948, 1953, 1966, 1972, 1994, 2012, 2015, and 2018. The following table summarizes the descriptions of the Property as observed in the Topographic Maps:

TOPOGRAPHIC MAPS	
Year	Description
1894	The map did not appear to identify structures on the Property.
1896	The map did not appear to identify structures on the Property.
1898	The map did not appear to identify structures on the Property.
1900	The map did not appear to identify structures on the Property.
1902	The map did not appear to identify structures on the Property.
1920	The map did not appear to identify structures on the Property.
1921	The map did not appear to identify structures on the Property.
1926	The map did not appear to identify structures on the Property.

1932	The Property was not in the mapped area.
1933	The Property was not in the mapped area.
1942	The Property was not in the mapped area.
1948	The map was color-shaded which indicted urban development.
1953	The map was color-shaded which indicted urban development.
1966	The map identified a fire station on the Property.
1972	The map identified a fire station on the Property.
1994	The map identified a fire station on the Property.
2012	The map did not identify structures on the Property.
2015	The map did not identify structures on the Property.
2018	The map did not identify structures on the Property.

## 5.6 BUILDING DEPARTMENT RECORDS REVIEW

CCI contacted the Burbank Building Department (BBD) with a request to review the building permit history for the Property. The following table contains a listing of the information reviewed:

2234 North Buena Vista Street		
Year	Owner/Applicant	Description
1950	Peter Broadley	Building permit for a new residential structure
2244 North Buena Vista Street		
Year	Owner/Applicant	Description
1956	City of Burbank	Building permit for Fire Station #3
1956	Reitinger & Baxter	Plumbing permit including sewer connection
1973	City of Burbank F.D.	Permit to replace boiler
1974	Burbank Fire Dept.	Permit for Water Distribution, Water Softener
1995	Boys and Girls Club	Electrical permit
1996	Boys & Girls Club of Burbank	Fire permit
1997	City of Burbank	Building permit to frame in two wall and enlarge doors to H/C
1998	Burbank Boys and Girls Club	HVAC permit
2004	City of Burbank	Electrical permit to remove and replace 49 outlets and fixtures

2005	City of Burbank	Building permit for T-Bar Ceiling grid and panels
2005	City of Burbank (Boys & Girls Club)	Building permit for construction of new flag pole on Boys and Girls Club lawn
2006	Boys and Girls Club	Building permit for tenant improvements
2007	Burbank Boys and Girls Club	Mechanical permit to install 2 package units plus ductwork
2014	- - -	Electrical permit to install (2) exit signs

## 5.7 OTHER HISTORICAL DOCUMENTS

Other historical documents were not found and/or reviewed for the Property during the historical review conducted for this Phase I ESA.

## 5.8 PREVIOUS ENVIRONMENTAL REPORTS

Previous environmental reports were not found for the Property.

## **6.0 INTERVIEWS**

### **6.1 INTERVIEWS WITH PAST AND PRESENT OWNERS/OCCUPANTS**

CCI interviewed David Conrad, Real Estate and Project Manager for the Burbank Community Development Department, during the site walk conducted for this Phase I ESA. According to Mr. Conrad, the Property consists of a main building and two trailers. The Property was previously occupied by a Boys and Girls Club and a fire department station according to Mr. Conrad. Mr. Conrad indicated that asbestos and lead-based paint (LBP) surveys were recently completed for the Property and provided those reports to CCI. The Property will be turned into a homeless facility according to Mr. Conrad.

### **6.2 INTERVIEWS WITH ADJACENT SITE OWNERS/OCCUPANTS**

CCI did not interview adjacent site owners/occupants for this Phase I ESA. The Property is currently developed. ASTM E1527-21 standards indicate that interviews of adjacent site owners/occupants are necessary when the subject site is abandoned or if there is evidence of unauthorized uses or uncontrolled access to the Property.

## 7.0 RECORDS REVIEW

### 7.1 ENVIRONMENTAL DATABASE REPORT

EDR provided a list of sites within designated distances of the Property that are listed by regulatory agencies. EDR has also provided a map of these sites, which can be found in Appendix F - Environmental Database Report.

SUMMARY OF FEDERAL, STATE, AND TRIBAL DATABASE FINDINGS			
Regulatory Database	Minimum Search Distance	Property Listed	# of Sites Listed
Federal National Priority List (NPL)	1 mile	No	1
Federal Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) List	½ mile	No	1
Federal CERCLIS No Further Remedial Action Planned (NFRAP)	½ mile	No	3
Federal Resource Conservation and Recovery Act (RCRA) Generators	¼ mile	No	12
RCRA NonGen/NLR	¼ mile	No	20
Federal RCRA Corrective Action Facilities (CORRACTS)	1 mile	No	2
Federal RCRA Treatment, Storage, and Disposal Facilities (TSD)	½ mile	No	2
Federal Institutional Control/Engineering Control Registry	½ mile	No	2
State and Tribal Leaking Underground Storage Tank (LUST) Sites	½ mile	No	6
CA FID UST	¼ mile	Yes	4
HIST UST	¼ mile	Yes	2
SWEEPS UST	¼ mile	Yes	6
CERS TANKS	¼ mile	No	3
CERS HAZ WASTE	¼ mile	No	8
CPS-SLIC	½ mile	Yes	162
RESPONSE	1 mile	No	1

HAZNET	⅛ mile	Yes	2

The Property is listed in the environmental database report as follows:

- A1 City of Burbank Fire Sta. 13
- A2 City of Burbank Fire Sta. 13
- A4 City of Burbank Fire Sta 13
- A6 Burbank Fire Station 13

2244 Buena Vista

**Databases:** CPS-SLIC, WIP, CERS, SWEEPS UST, CA FID UST, LOS ANGELES CO. HMS, HIST UST

**Summary:** The Property is listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as June 30, 1988. The Property is also listed on the WIP database which reports the file status as historical. The Property is also listed on the CERS database which reports the description as Cleanup Program Site. The Property is also listed on the SWEEPS UST and CA FID UST databases which report the status as active. The Property is also listed on the LOS ANGELES CO. HMS database which reports the status as removed. The Property is also listed on the HIST UST database which reports one 1,000-gallon diesel tank historically on the Property.

- A3 City of Burbank
  - A5 City of Burbank
- 2244 N Buena Vista St

**Databases:** HAZNET, HWTS

**Summary:** The Property is listed on the HAZNET database which reports hazardous wastes generated on the Property including asbestos containing waste (2004) and unspecified solvent

mixture (1999).

The following NPL site is within 1/8 mile of the Property:

**NPL** San Fernando Valley (Area 1)  
North Hollywood Wellfield Area

**Databases:** NPL, SEMS, US ENG CONTROLS, US INST CONTROLS

**Summary:** The San Fernando Valley Area 1 is an area of contaminated groundwater in the vicinity of the North Hollywood section of the city of Los Angeles. This area is part of the San Fernando Valley Basin, a natural underground reservoir that represents an important source of drinking water for at least 3 million people. The contaminated groundwater, which underlies an area of approximately 5,156 acres, contains TCE and PCE, and to a lesser extent, carbon tetrachloride and chloroform.

**Discussion:** According to the Overview and Details Maps provided in the environmental database report, the Property is located within the contaminated groundwater plume associated with this NPL site. In addition, CCI reviewed the most recent groundwater contamination plume maps available on the US EPA website for the San Fernando Valley NPL site. According to the maps reviewed, the Property is located within the boundaries of the contaminated groundwater plumes (PCE and TCE). The Property was found to not have been a responsible contributing party to the contaminated groundwater plume.

The following sites are located adjacent to the Property:

- A7 Jasmine Cleaners
- A8 Vista Cleaners, Byung Sup Ahn
- A9 Vista Cleaners
- A10 Vista Cleaners
- A11 Vista Cleaners
- A12 Vista Cleaners, Agian Chake
- A20 Stardust Cleaners

2411 N San Fernando Blvd

**Databases:** DRYCLEANERS, EDR Hist Cleaners, WIP, HWTS, CPS-SLIC, HAZNET

**Distance/Direction from Property:** Adjacent to the northeast of the Property

**Summary:** The site is listed on the DRYCLEANERS database which reports PCE use on the site. The site is also listed on the EDR Hist Cleaners database which reports drycleaners on the site for the years 1969 - 2014. The site is also listed on the WIP database which reports the status as historical. The site is also listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as October 15, 1997. The site is also listed on the HAZNET database which reports hazardous wastes generated on the site including halogenated solvents (1996, 1997, 1998, 1999, 2001, and 2002), other organic solids (2002), and unspecified organic liquid mixture (2002).

**Discussion:** Based on the groundwater flow direction to the south-southeast, it is considered possible that the operation of the dry cleaning facility has adversely impacted the subsurface environment beneath the Property.

- A13 World Oil Marketing Co #25
- A14 San Vista Oil Co
- A15 World Oil
- A16 World Oil Co
- A17 World Oil Marketing Co #81067
- A18 Arco World Oil 25
- A19 Brundage Lane Service Station

2417 N San Fernando Blvd

**Databases:** UST, EDR Hist Auto, RCRA-LQG, LUST, HIST UST, FINDS, Cortese, HIST CORTESE, CERS, CERS HAZ WASTE, SWEEPS UST, CERS TANKS, CA FID UST, LOS ANGELES CO. HMS

**Distance/Direction from Property:** Adjacent to the northeast of the Property

**Summary:** The site is listed on the UST database as being an underground storage tank site. The site is also listed on the EDR Hist Auto database which reports gasoline stations on the site for the years 1952 - 2014. The site is also listed on the RCRA database as being a large quantity generator of hazardous waste. The database does not report historical violations for the site. The site is also listed on the LUST database as being a leaking underground storage tank site. According to the database, the status is case closed and the closure date was June 26, 2006. The site is also listed on the HIST UST database which reports three tanks historically on the site. The site is also listed on the Cortese and HIST CORTESE databases which report the site as being a completed - case closed LUST cleanup site. The site is also listed on the CERS database which reports the descriptions as Leaking Underground Storage Tank Cleanup Site and Chemical Storage Facilities. The database reports historical violations for the site. The site is also listed on the CERS HAZ WASTE database which reports the description as Hazardous Waste Generator. The site is also listed on the SWEEPS UST database which reports three active tanks on the site. The site is also listed on the CERS TANKS database which reports the description as Underground Storage Tank. The site is also listed on the CA FID UST database which reports the status as active. The site is also listed on the LOS ANGELES CO. HMS database which reports the status as removed.

**Discussion:** Based on the groundwater flow direction to the south-southeast, it is considered possible that the operation of the gasoline station has adversely impacted the subsurface environment beneath the Property.

The following sites are located within 1/8 mile of the Property:

- B21 Micro Form Precision
- 2317 San Fernando Blvd.

**Databases:** CPS-SLIC, WIP

**Distance/Direction from Property:** 207-feet to the east-southeast of the Property

**Summary:** The site is listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as March 22, 1988. The site is also listed on the WIP database which reports the status as historical.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

- B22** Delta Commercial Roofing, Inc.  
2315 N. San Fernando Blvd.  
**Databases:** RCRA NonGen/NLR  
**Distance/Direction from Property:** 230-feet to the east-southeast of the Property  
**Summary:** The site is listed on the RCRA database as being a non-generator/no longer regulated generator of hazardous waste. The database does not report historical violations for the site.  
**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.
- B23** The Fishing Factory  
2313 N. San Fernando Rd.  
**Databases:** CPS-SLIC, WIP  
**Distance/Direction from Property:** 276-feet to the east-southeast of the Property  
**Summary:** The site is listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as October 12, 1989. The site is also listed on the WIP database which reports the status as historical.  
**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.
- B24** Tri-Western Data Systems Inc.  
2309 San Fernando Blvd.  
**Databases:** CPS-SLIC, WIP  
**Distance/Direction from Property:** 303-feet to the east-southeast of the Property  
**Summary:** The site is listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as March 22, 1988. The site is also listed on the WIP database which reports the status as historical.  
**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.
- B25** The Fishing Factory  
2305 N San Fernando Blvd  
**Databases:** CPS-SLIC, LOS ANGELES CO. HMS, WIP  
**Distance/Direction from Property:** 338-feet to the east-southeast of the Property  
**Summary:** The site is listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as March 22, 1988. The site is also listed on the LOS ANGELES CO. HMS database which reports the status as open. The site is also listed on the WIP database which reports the status as historical.  
**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.
- B26** International Colorimage Inc  
**B27** International Color Image Labs  
2301 N San Fernando Blvd

**Databases:** CPS-SLIC, HAZNET, HWTS, WIP

**Distance/Direction from Property:** 363-feet to the east-southeast of the Property

**Summary:** The site is listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as June 26, 1995. The site is also listed on the HAZNET database which reports hazardous wastes generated on the site including liquids with chromium (1991). The site is also listed on the WIP database which reports the status as historical.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

**C28** Bela's Foreign Car Repair Inc

**C29** Bela S Volkswagen & Porsche Repair

**C30** Bela's Foreign Car Repair

2525 San Fernando Blvd

**Databases:** RCRA NonGen/NLR, EDR Hist Auto, CPS-SLIC, LOS ANGELES CO. HMS, WIP

**Distance/Direction from Property:** 379-feet to the northwest of the Property

**Summary:** The site is listed on the RCRA database as being a non-generator/no longer regulated generator of hazardous waste. The database does not report historical violations for the site. The site is also listed on the EDR Hist Auto database which reports automobile repair businesses on the site for the years 1970 and 1991 - 2014. The site is also listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as May 30, 1988. The site is also listed on the LOS ANGELES CO. HMS database which reports the status as open. The site is also listed on the WIP database which reports the status as historical.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

**C30** Hart P T

2237 San Fernando Rd

**Databases:** EDR Hist Auto

**Distance/Direction from Property:** 384-feet to the east-southeast of the Property

**Summary:** The site is listed on the EDR Hist Auto database which reports a gasoline station on the site for the year 1937.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

**B32** Lincoln Press

**B33** Electrical Advertising Inc

2211 N San Fernando Blvd

**Databases:** RCRA-SQG, FINDS, ECHO, SWEEPS UST, LOS ANGELES CO. HMS

**Distance/Direction from Property:** 392-feet to the east-southeast of the Property

**Summary:** The site is listed on the RCRA database as being a small quantity generator of hazardous waste. The database does not report historical violations for the site. The site is also

listed on the SWEEPS UST database which reports the status as active. The site is also listed on the LOS ANGELES CO. HMS database which reports the status as removed.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

**B34** Comco Inc

**B35** Comco Inc

**B36** Comco, Inc

**Databases:** RCRA NonGen/NLR, LOS ANGELES CO. HMS, WIP, CPS-SLIC, CERS

**Distance/Direction from Property:** 434-feet to the outeast of the Property

**Summary:** The site is listed on the RCRA database as being a non-generator/no longer regulated generator of hazardous waste. The database does not report historical violations for the site. The site is also listed on the LOS ANGELES CO. HMS database which reports the status as open. The site is also listed on the WIP database which reports the status as historical. The site is also listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as September 22, 2015. The site is also listed on the CERS database which reports the description as Cleanup Program Site.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

**C37** Data Microfilming Corporation

**C38** Advances Semiconductor Prod.

2601 N San Fernando Blvd

**Databases:** CPS-SLIC, WIP

**Distance/Direction from Property:** 576-feet to the northwest of the Property

**Summary:** The site is listed on the CPS-SLIC database which reports the case type as Cleanup Program Site, the status as Completed - Case Closed, and the closure date as November 16, 1987. The site is also listed on the WIP database which reports the status as historical.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

**39** Josephine Advento

2140 N Brighton St

**Databases:** RCRA NonGen/NLR

**Distance/Direction from Property:** 594-feet to the south-southeast of the Property

**Summary:** The site is listed on the RCRA database as being a non-generator/no longer regulated generator of hazardous waste. The database does not report historical violations for the site.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

**C40** G&P Service Inc

**C41** Peterson Auto Care

2611 N San Fernando Bl

**Databases:** CERS HAZ WASTE, HAZNET, CERS, HWTS, RCRA NonGen/NLR

**Distance/Direction from Property:** 657-feet to the northwest of the Property

**Summary:** The site is listed on the CERS HAZ WASTE database which reports the description as Hazardous Waste Generator. The site is also listed on the HAZNET database which reports hazardous wastes generated on the site including aqueous solution with total organic residues less than 10 percent (1998, 1999, and 2003), unspecified organic liquid mixture (1999 - 2001), and organic liquids with metals (1998). The site is also listed on the CERS database which reports the description as Chemical Storage Facilities. The database reports historical violations for the site. The site is also listed on the RCRA database as being a non-generator/no longer regulated generator of hazardous waste. The database does not report historical violations for the site.

**Discussion:** Based on the regulatory status of this site, the environmental quality of the Property is not expected to have been impacted by this site.

## 7.2 REGULATORY AGENCY REVIEW

CCI contacted the BFD with a request to review files for the Property. According to the agency, information for the Property address was found. According to the information reviewed, one, steel, 1,500-gallon, diesel fuel UST and associated dispenser/piping were removed from the Property in 1999. The UST was associated with the former Fire Department facility and was installed in 1957. The information did not include any soil sampling results associated with the UST removal or a closure letter for the removed UST. The file information also contained a 1987 work plan for a leak detection program/tank monitoring plan. However, information was not found indicating that the work plan had been implemented. The file information also contained closure letters issued to the Property from the RWQCB and the US EPA. The RWQCB closure letter was dated February 16, 1995. The US EPA closure letter was dated May 31, 1996. The letters appear to related to the Well Investigation Program (WIP) associated with San Fernando Valley Superfund site are follow ups to the original closure certification from the RWQCB on June 30, 1988 (see below).

CCI reviewed the RWQCB website for information regarding the Property on the GeoTracker database. According to the RWQCB website, the Property was listed as a Completed - Case Closed WIP site as of June 30, 1988. CCI submitted a public records request to the RWQCB. However, at the time of the release of this report, a response from the agency was pending. In information is found at this agency which changes the conclusions and/or recommendations of this Phase I ESA, CCI will prepare an addendum letter summarizing our findings.

CCI reviewed the Department of Toxic Substances Control (DTSC) website for information regarding the Property on the EnviroStor database. According to the DTSC website, information was not found for the Property address.

CCI reviewed the South Coast Air Quality Management District (SCAQMD) website for information regarding the Property that pertains to permits to operate and/or violations. According to the SCAQMD website, information was not found for the Property address.

CCI reviewed the California Division of Oil, Gas, and Geothermal Resources (DOGG) website for information regarding oils wells on and in the vicinity of the Property. According to the website, there are no current or former oils wells on the Property or on the adjacent sites of the Property.

CCI contacted the BBD with a request to review the building permit history for the Property. The following table contains a listing of the information reviewed:

2234 North Buena Vista Street		
Year	Owner/Applicant	Description
1950	Peter Broadley	Building permit for a new residential structure
2244 North Buena Vista Street		
Year	Owner/Applicant	Description
1956	City of Burbank	Building permit for Fire Station #3
1956	Reitinger & Baxter	Plumbing permit including sewer connection
1973	City of Burbank F.D.	Permit to replace boiler
1974	Burbank Fire Dept.	Permit for Water Distribution, Water Softener
1995	Boys and Girls Club	Electrical permit
1996	Boys & Girls Club of Burbank	Fire permit
1997	City of Burbank	Building permit to frame in two wall and enlarge doors to H/C
1998	Burbank Boys and Girls Club	HVAC permit
2004	City of Burbank	Electrical permit to remove and replace 49 outlets and fixtures
2005	City of Burbank	Building permit for T-Bar Ceiling grid and panels
2005	City of Burbank (Boys & Girls Club)	Building permit for construction of new flag pole on Boys and Girls Club lawn
2006	Boys and Girls Club	Building permit for tenant improvements
2007	Burbank Boys and Girls Club	Mechanical permit to install 2 package units plus ductwork
2014	- - -	Electrical permit to install (2) exit signs

### 7.3 VAPOR ENCROACHMENT SCREENING

Current and historical Property operations are not suspected of posing a VEC for the Property. However, according to the Overview and Details Maps provided in the environmental database report, the Property is located within the contaminated groundwater plume associated with the San Fernando Valley (Area 1) NPL site. In addition, CCI reviewed the most recent groundwater contamination plume maps available on the US EPA website for the San Fernando Valley (Area 1) NPL site. According to the maps reviewed, the Property is located within the boundaries of the contaminated groundwater plumes (PCE and TCE). Based on this information, a VEC for the Property cannot be ruled out.

## 8.0 NON-SCOPE ASTM ITEMS

### 8.1 ASBESTOS CONTAINING MATERIALS

Asbestos is the name given to a number of naturally occurring, fibrous silicate materials mined for their useful properties such as thermal insulation, chemical and thermal stability, and high tensile strength. Asbestos is commonly used as an acoustic insulator, thermal insulation, fire proofing, and in other building materials. Exposure to airborne friable asbestos may result in a potential health risk because persons breathing the air may inhale asbestos fibers. Continued exposure over time may cause serious lung diseases including asbestosis, lung cancer, or mesothelioma. The sampling of building materials for asbestos was not conducted as part of this assessment.

#### ***Limited Asbestos Assessment, A-Tech Consulting, Inc., May 12, 2023***

A-Tech Consulting, Inc. (A-Tech), completed a Limited Asbestos Assessment report for the Property on May 12, 2023. The report documented an asbestos survey of the Property building. The survey included the sampling of building materials at thirty-two (32) locations on the interior and exterior of the Property building. The results of the survey identified asbestos in the brown with black and white spots speckled mosaic terrazzo flooring in Main Room 101, Storage Room 104, and Storage Room 117. These materials were observed to be in good condition with no structural damage. Refer to Appendix H for a copy of the report.

### 8.2 LEAD-BASED PAINT

LBP is recognized as a potential health risk due to the known toxic affects of lead exposure, primarily through ingestion, on the central nervous system, kidneys, and bloodstream. The risk of lead toxicity in LBP varies and based upon the condition of the paint and the year of its application. Paint applied in 1977 or later is not expected to contain lead. Survey and sampling of the paint around the Property for LBP was not conducted as part of this assessment.

#### ***Limited XRF-Lead Assessment, A-Tech Consulting, Inc., May 12, 2023***

A-Tech completed a Limited XRF-Lead Assessment report for the Property on May 12, 2023. The report documented a LBP survey of the Property building using an X-ray fluorescence (XRF) analyzer. According to the XRF findings, no components tested positive for the presence of lead at or above 0.7 milligrams per cubic centimeter ( $\text{mg}/\text{cm}^2$ ). The United States Housing and Urban Development (HUD) department's definition of LBP is equal to or greater than  $0.7 \text{ mg}/\text{cm}^2$ . Refer to Appendix H for a copy of the report.

### 8.3 RADON GAS EVALUATION

Radon is a colorless, tasteless radioactive gas that has been linked to possible increased risk of lung cancer. According to the United States Environmental Protection Agency (U.S. EPA), exposure to 4.0 picocuries of radon gas per liter of air ( $\text{pCi}/\text{L}$ ) on a regular basis increases the risk of contacting lung cancer. CCI reviewed the California Department of Health Services (DHS) Radon Database for California. The DHS conducted over 16,000 individual radon tests throughout the State of

California. The database groups the test results by zip codes. According to the database, the area of the Property does not typically exhibit concentrations of radon thought to be harmful to human health.

#### **8.4 MOLD OBSERVATIONS**

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture (e.g. in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g. ceiling tile, drywall, paper, or natural fiber carpet padding). Mold growths often appear as discoloration, staining, or fuzzy growth on building materials or furnishings and are varied colors of white, gray, brown, black, yellow, and green. In large quantities, molds can cause allergic symptoms when inhaled or through the toxins the molds emit.

During the site survey, CCI observed the accessible interior areas of the building for evidence of water intrusion which would indicate the potential for mold growth. CCI did not observe evidence of areas of water intrusion inside the building. This evaluation did not include areas behind enclosed walls and ceilings.

## 9.0 DATA GAPS

The AAI rule requires that environmental professionals document any data gaps that remain after examining all "reasonably ascertainable" sources and explain the reason for such data gaps. The AAI rule also requires the report to expressly identify the sources consulted to address such data gaps and comment on their significance. Significant data gaps do not appear to have been encountered during this assessment.

## 10.0 FINDINGS AND OPINIONS

The Property is approximately 1.47 acres in area and has been developed with one main building totaling approximately 5,000 square-feet in size. The single-story, concrete tilt-up building was constructed on the west-southwest portion of the Property in 1956. Prior to 1956, a residential structure and detached automobile garage were located on the south portion of the Property. These buildings were constructed in 1950. Prior to 1950, the Property consisted of undeveloped land since at least 1928.

The Property is currently vacant. The previous occupant of the Property was the Boys and Girls Club of Burbank which operated between approximately 1995 and 2020. Prior to the Boys and Girls Club, the Property was used as a City of Burbank Fire Station between 1956 and 1994.

CCI did not observe evidence of current USTs on the Property. Historically, according to information reviewed from the BFD, one, steel, 1,500-gallon, diesel fuel UST and associated dispenser/piping were removed from the Property in 1999. The UST was associated with the former Fire Department facility and was installed in 1957. The information did not include any soil sampling results associated with the UST removal or a closure letter for the removed UST. The file information also contained a 1987 work plan for a leak detection program/tank monitoring plan. However, information was not found indicating that the work plan had been implemented.

The northeasterly-adjacent site of the Property is occupied by a gasoline station and a dry cleaning facility. The gasoline station has operated since approximately 1952 and the dry cleaning facility has operated since approximately 1969. The gasoline station is a case-closed LUST site which impacted the soil, soil vapor, and groundwater matrices beneath the site. The dry cleaning facility has historically used PCE on the site. Given the south-southeasterly groundwater flow direction in the area of the Property, it is considered possible that the operations of the gasoline station and dry cleaning facility have adversely impacted the subsurface environment beneath the Property.

According to the Overview and Details Maps provided in the environmental database report reviewed by CCI for this Phase I ESA, the Property is located within the contaminated groundwater plume associated with the San Fernando Valley (Area 1) NPL site. The groundwater plume includes elevated concentrations of PCE and TCE. In addition, CCI reviewed the most recent groundwater contamination plume maps available on the US EPA website for the San Fernando Valley (Area 1) NPL site. According to the maps reviewed, the Property is located within the boundaries of the contaminated groundwater plumes. Based on this information, a VEC for the Property cannot be ruled out. Current and historical Property operations are not suspected of posing a VEC for the Property.

# 11.0 CONCLUSIONS AND RECOMMENDATIONS

## 11.1 CONCLUSIONS

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM E1527-21 of 2244 North Buena Vista Street, Burbank, Los Angeles County, California (APN 2464-013-900), the Property. Any exceptions to, or deletions from, this practice are described in Section 2.0 of this report. This Phase I ESA has revealed the following recognized environmental conditions, controlled recognized environmental conditions, and/or significant data gaps in connection with the Property:

- According to information reviewed from the BFD, one, steel, 1,500-gallon, diesel fuel UST and associated dispenser/piping were removed from the Property in 1999. The UST was associated with the former Fire Department facility and was installed in 1957. The information did not include any soil sampling results associated with the UST removal or a closure letter for the removed UST. The file information also contained a 1987 work plan for a leak detection program/tank monitoring plan. However, information was not found indicating that the work plan had been implemented.
- The northeasterly-adjacent site of the Property is occupied by a gasoline station and a dry cleaning facility. The gasoline station has operated since approximately 1952 and the dry cleaning facility has operated since approximately 1969. The gasoline station is a case-closed ILUST site which impacted the soil, soil vapor, and groundwater matrices beneath the site. The dry cleaning facility has historically used PCE on the site. Given the south-southeasterly groundwater flow direction in the area of the Property, it is considered possible that the operations of the gasoline station and dry cleaning facility have adversely impacted the subsurface environment beneath the Property.
- According to the Overview and Details Maps provided in the environmental database report reviewed by CCI for this Phase I ESA, the Property is located within the contaminated groundwater plume associated with the San Fernando Valley (Area 1) NPL site. The groundwater plume includes elevated concentrations of PCE and TCE. In addition, CCI reviewed the most recent groundwater contamination plume maps available on the US EPA website for the San Fernando Valley (Area 1) NPL site. According to the maps reviewed, the Property is located within the boundaries of the contaminated groundwater plumes. Based on this information, a VEC for the Property cannot be ruled out. Current and historical Property operations are not suspected of posing a VEC for the Property.

## 11.2 RECOMMENDATIONS

This assessment has revealed evidence of recognized environmental conditions and environmental issues in connection with the Property. Based on the results of this assessment, CCI recommends the following:

- Depending on the User's desired level of confidence, soil vapor sampling and/or indoor air sampling could be conducted on the Property to assess whether a VEC exists for the Property resulting from the San Fernando Valley (Area 1) NPL site or the northeasterly-adjacent gasoline station and dry cleaning facility.

## 12.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

*We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.*

David A Jonas  
Project Manager

Ken Durand  
President

## 14.0 LIMITATIONS

This report has been prepared by CCI using reasonable efforts to identify recognized environmental conditions associated with hazardous materials at the Property. The conclusions and recommendations of this report are based on data and information collected from observations made on the day(s) of the site survey and from reasonably ascertainable information obtained from government agencies and other referenced sources. This report is not intended to identify all potential environmental concerns or completely eliminate the potential that the Property has environmental impairments. This report is not an exhaustive investigation of the Property or environmental conditions related to the Property.

No amount of assessment or investigation can completely certify that the Property is completely free of environmental concern. It is possible that unpermitted, undocumented or concealed improvements or alterations to the Property could exist beyond that which was found during this assessment. It is possible that there are changes in observed conditions on the Property in the future which would require further assessment of the Property and reevaluation of the conclusions and recommendations expressed in this report.

During the preparation of this report, CCI has relied upon and presumed accurate certain information and data which has been provided by others including government agencies and companies identified herein. Unless stated otherwise within this report, CCI has not attempted to verify and is not responsible for the accuracy or completeness of such information. CCI reserves the right to modify our conclusions and recommendations presented in this report if inaccurate or unreliable data has been provided to CCI by others.

Any cost estimates of the recommended additional scope of work are based solely on the information collected during this assessment. Any cost estimates presented in this report represent a rough estimate, not a proposal. The actual cost and scope of work may vary upon refining during proposal preparation, and with changes in economic conditions, or as additional information becomes available.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by CCI were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting [www.edrnet.com/sanborn](http://www.edrnet.com/sanborn).

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Sanborn® Library search results

Certification #: 7856-46BF-8193

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

*The Sanborn Library LLC Since 1866™*

## Limited Permission To Make Copies

CCI (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by CCI were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

**Search Results:****Coordinates:**

### **Disclaimer - Copyright and Trademark Notice**

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. **NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA), ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT.** Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

## EXECUTIVE SUMMARY

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

### RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

### RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

### TARGET PROPERTY INFORMATION

#### ADDRESS

2244 NORTH BUENA VISTA STREET  
BURBANK, CA 91504

#### COORDINATES

Latitude (North): 34.1968820 - 34° 11' 48.77"  
Longitude (West): 118.3375540 - 118° 20' 15.19"  
Universal Transverse Mercator: Zone 11  
UTM X (Meters): 376758.5  
UTM Y (Meters): 3784599.8  
Elevation: 661 ft. above sea level

### USGS TOPOGRAPHIC MAP ASSOCIATED WITH TARGET PROPERTY

Target Property Map: 12021683 BURBANK, CA  
Version Date: 2018

### AERIAL PHOTOGRAPHY IN THIS REPORT

Portions of Photo from: 20200505

 RGA LUST..... Recovered Government Archive Leaking Underground Storage Tank

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### ***Lists of Federal NPL (Superfund) sites***

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 06/22/2023 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

## EXECUTIVE SUMMARY

EPA Id: CAD980894976

### ***Lists of Federal sites subject to CERCLA removals and CERCLA orders***

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 06/22/2023 has revealed that there is 1 SEMS site within approximately 0.5 miles of the target property.

### ***Lists of Federal CERCLA sites with NFRAP***

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 06/22/2023 has revealed that there are 3 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

### ***Lists of Federal RCRA facilities undergoing Corrective Action***

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 07/24/2023 has revealed that there are 2 CORRACTS sites within approximately 1 mile of the target property.

### ***Lists of Federal RCRA TSD facilities***

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 07/24/2023 has revealed that there are 2 RCRA-TSDF sites within approximately 0.5 miles of the target property.

### ***Lists of Federal RCRA generators***

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity

## EXECUTIVE SUMMARY

generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 07/24/2023 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 07/24/2023 has revealed that there are 10 RCRA-SQG sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

### ***Federal institutional controls / engineering controls registries***

US ENG CONTROLS: A listing of sites with engineering controls in place.

A review of the US ENG CONTROLS list, as provided by EDR, and dated 05/22/2023 has revealed that there is 1 US ENG CONTROLS site within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<b>SAN FERNANDO VALLEY</b> EPA ID:: CAD980894893 EPA ID:: CAD980894901 EPA ID:: CAD980894893	<b>NORTH HOLLYWOOD WELL</b>	<b>0 - 1/8 (0.000 mi.)</b>	<b>0</b>	<b>16</b>

US INST CONTROLS: A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

A review of the US INST CONTROLS list, as provided by EDR, and dated 05/22/2023 has revealed that there is 1 US INST CONTROLS site within approximately 0.5 miles of the target property.

### ***Lists of state- and tribal hazardous waste facilities***

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information

## EXECUTIVE SUMMARY

that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 04/24/2023 has revealed that there are 19 ENVIROSTOR sites within approximately 1 mile of the target property.

### **Lists of state and tribal registered storage tanks**

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 6 UST sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

### ADDITIONAL ENVIRONMENTAL RECORDS

#### **Local Lists of Hazardous waste / Contaminated Sites**

HIST Cal-Sites: Formerly known as ASPIS, this database contains both known and potential hazardous substance sites. The source is the California Department of Toxic Substance Control. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

A review of the HIST Cal-Sites list, as provided by EDR, and dated 08/08/2005 has revealed that there is 1 HIST Cal-Sites site within approximately 1 mile of the target property.

#### **Local Lists of Registered Storage Tanks**

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 5 SWEEPS UST sites within approximately 0.25 miles of the target property.

### Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 07/24/2023 has revealed that there are 20 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

EPA ID:: CAD980894893

**CONSENT:** Major Legal settlements that establish responsibility and standards for cleanup at NPL (superfund) sites. Released periodically by U.S. District Courts after settlement by parties to litigation matters.

A review of the CONSENT list, as provided by EDR, and dated 03/31/2023 has revealed that there is 1 CONSENT site within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<b>SAN FERNANDO VALLEY</b>	<b>NORTH HOLLYWOOD WELL</b>	<b>WSW 1/2 - 1 (0.905 mi.)</b>	<b>269</b>	<b>1434</b>

**PFAS ECHO:** Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 03/30/2023 has revealed that there are 3 PFAS ECHO sites within approximately 0.25 miles of the target property.

### EDR HIGH RISK HISTORICAL RECORDS

#### **EDR Exclusive Records**

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 5 EDR Hist Auto sites within approximately 0.125 miles of the target property.

## EXECUTIVE SUMMARY

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 2 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Scoring: 2

Summary Details:

Conditions at proposal October 15, 1984): San Fernando Valley Area I) is an area of contaminated ground water in the vicinity of the North Hollywood section of the City of Los Angeles, Los Angeles County, California. This area is part of the San Fernando Valley Basin, a natural underground reservoir that represents an important source of drinking water for at least 3 million people in the Los Angeles metropolitan area. The contaminated ground water, which underlies an area of approximately 5,156 acres, contains trichloroethylene (TCE) and perchloroethylene (PCE), and to a lesser extent, carbon tetrachloride and chloroform, according to analyses conducted by the California Department of Health Services, as well as numerous local government agencies. The State s recommended drinking water guideline for TCE and PCE (5 and 4 parts per billion respectively) are exceeded in a number of public wells in this area. To alleviate this contamination, wells are either taken out of service or blended with water from clean sources to ensure that the public receives water with TCE/PCE concentrations below the State s guidelines. Status June 10, 1986): EPA and the Los Angeles Department of Water and Power are entering into a cooperative agreement for a remedial investigation of the San Fernando Valley Basin and a feasibility study targeted at Area 1, the most contaminated area. The RI is scheduled to begin in early 1986.

Substance: TRICHLOROETHYLENE (TCE)  
Pathway: GROUND WATER PATHWAY  
Scoring: 2

Summary Details:

Conditions at proposal October 15, 1984): San Fernando Valley Area 2) is an area of contaminated ground water located in the vicinity of the Crystal Springs Well Field in the Cities of Los Angeles and Glendale, Los Angeles County, California. This area is part of the San Fernando Valley Basin, a natural underground reservoir that represents an important source of drinking water for at least 3 million people in the Los Angeles metropolitan area. The contaminated ground water, which underlies an area of approximately 6,680 acres, contains trichloroethylene (TCE) and perchloroethylene (PCE), according to tests conducted by the California Department of Health Services, as well as numerous local government agencies. The State s recommended drinking water guidelines for TCE and PCE 5 and 4 parts per billion respectively) are exceeded in a number of public wells in this area. To alleviate this contamination, wells are either taken out of service or blended withwater from clean sources to ensure that the public receives water with TCE/PCE concentrations below the State s guidelines. Status June 10, 1986): EPA and the Los Angeles Department of Water and Power are entering into a cooperative agreement for a remedial investigation of the San Fernando Valley Basin and a feasibility study targeted at Area 1, the most contaminated area. The RI is scheduled to begin in early 1986.

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

[Click Here for FRS Facility Detail Report:](#)

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:  
 California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.  
 RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Facility Status:** **Completed - Case Closed**  
Status Date: 12/22/2014  
Global Id: SL603798637  
Lead Agency: LOS ANGELES RWQCB (REGION 4)  
Lead Agency Case Number: Not reported  
Latitude: 34.195381  
Longitude: -118.334885  
Case Type: Cleanup Program Site  
Case Worker: GJH  
Local Agency: Not reported  
RB Case Number: 104.1200  
File Location: Not reported  
Potential Media Affected: Aquifer used for drinking water supply  
Potential Contaminants of Concern: Not reported  
EPA Region: 9  
Coordinate Source: Not reported  
Cuf Case: NO  
Quantity Released Gallons: Not reported  
Begin Date: 08/15/1987  
Leak Reported Date: 01/02/1965  
How Discovered: Not reported  
How Discovered Description: Not reported  
Discharge Source: Not reported  
Discharge Cause: Not reported  
Stop Method: Not reported  
Stop Description: Not reported  
No Further Action Date: 12/22/2014  
CA Water Watershed Name: Los Angeles River - San Fernando - Bull Canyon (412.21)  
Dwr Groundwater Subbasin Name: San Fernando Valley (4-012)  
Disadvantaged Community: Not reported  
CA Enviroscreen 3 Score: 76-80%  
CA Enviroscreen 4 Score: 90-95%  
Military DOD Site: No  
Facility Project Subtype: Not reported  
RWQCB Region: LOS ANGELES RWQCB (REGION 4)  
Site History: Not reported

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

CERS Description: Chemical Storage Facilities

Violations:

Site ID: 104085  
Site Name: CENTERPOINT MFG CO INC  
Violation Date: 03-11-2021  
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12

Violation Description: Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violation Notes: Returned to compliance on 03/17/2021. OBSERVATION: A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an active EPA ID number. Using CAD 981 690 282 is incorrect for the current facility address. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that you have reactivated the facility's EPA ID number.

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS,

Site ID: 104085  
Site Name: CENTERPOINT MFG CO INC  
Violation Date: 01-12-2018  
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 06/05/2018. OBSERVATION: 1x55 gal used oil drum located in the back lot enclosure was observed without the following information on the label: all written information faded. CORRECTIVE ACTION: Submit photos to the CUPA demonstrating that the container listed above has been properly labeled.

Violation Division: Los Angeles County Fire Department

Violations:

Site ID: 598227  
Site Name: Prof Collision Repair  
Violation Date: 11-09-2021  
Citation: HSC 6.11 25404(e)(4) - California Health and Safety Code, Chapter 6.11, Section(s) 25404(e)(4)  
Violation Description: Failure to report, and report accurately, program data (such as hazardous waste generation activities) electronically.  
Violation Notes: Returned to compliance on 11/30/2021. OBSERVATION: Owner/Operator failed to report program data electronically into CERS, or reported information incorrectly. CORRECTIVE ACTION: Complete all required reporting into CERS. Owner/Operator shall submit a hazardous waste notification per HSC 25158 by submitting the Facility Information (Business Activity and Business Owner/Operator identification sections) electronically to CERS.  
Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS,

Site ID: 598227  
Site Name: Prof Collision Repair  
Violation Date: 11-09-2021  
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)  
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.  
Violation Notes: Returned to compliance on 11/09/2021. OBSERVATION: 1X5 GAL PAIL OF WASTE PAINT located in the SHOP NEXT TO SPRAY BOOTH was observed without a hazardous waste label. CORRECTIVE ACTION: Submit a photo to the CUPA demonstrating that the container listed above has been properly labeled. COS.  
Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS,

Evaluation:

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Notes: Returned to compliance on 09/03/2019. OBSERVATION: Universal waste aerosol cans were not found or not labeled with the type of waste stored. Containers used to store aerosol cans shall be labeled or marked with one of the following phrases: Universal Waste Aerosol Cans , Waste Aerosol Cans , or Used Aerosol Cans . CORRECTIVE ACTION: Immediately mark these containers and ensure that all containers of aerosol cans are marked in this manner. Submit documentation to the CUPA demonstrating what corrective actions were taken.

Violation Date: 06-28-2019  
Citation: HSC 6.11 25404(e)(4) - California Health and Safety Code, Chapter 6.11, Section(s) 25404(e)(4)

Violation Description: Failure to report program data electronically.  
Violation Notes: Returned to compliance on 08/23/2019. OBSERVATION: Generator failed to report program data electronically. Incorrect disclosure for hazardous waste generator, treatment of hazardous waste on-site, submittal of 2018 contingency plan, and TP submittal. CORRECTIVE ACTION: Complete all required electronic reporting in CERS. Update CERS activity disclosures.

Violation Description: Hazardous Waste Generator Program - Operations/Maintenance - General  
Violation Notes: Returned to compliance on 08/23/2019. OBSERVATION: 4x55 gal drums on top of the back exterior rack not labeled empty. CORRECTIVE ACTION: Each empty container larger than 5 gallons that previously held a hazardous material must be marked with the date it was emptied and be shipped for recycling, reconditioning, or reclamation of its scrap value or managed on site in such a manner within one year of being emptied. 22CCR 11 66261.7

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS,

Site ID: 89426  
Site Name: ACCRATRONICS SEALS CORP  
Violation Date: 06-21-2022  
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173

Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violation Notes: Returned to compliance on 08/10/2022. OBSERVATION: 1x5 gal pail of oily sludge located in the hazardous waste storage area was observed open. CORRECTIVE ACTION: Submit photos to the CUPA demonstrating that the container listed above has been properly closed.

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS,

Site ID: 89426  
Site Name: ACCRATRONICS SEALS CORP  
Violation Date: 06-28-2019  
Citation: HSC 6.11 25404(e)(4) - California Health and Safety Code, Chapter 6.11, Section(s) 25404(e)(4)

Violation Description: Failure to report program data electronically.  
Violation Notes: Returned to compliance on 08/23/2019. OBSERVATION: Generator failed to report program data electronically. Incorrect disclosure for hazardous waste generator, treatment of hazardous waste on-site, submittal of 2018 contingency plan, and TP submittal. CORRECTIVE ACTION: Complete all required electronic reporting in CERS. Update CERS activity disclosures.

should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

airport at 3000 Winona Avenue in an industrial area of Burbank, California. Aviation and aeronautical equipment have been manufactured at the facility since 1946. Electroplating operations began in 1951 and in February 1985, an automated wastewater treatment system was installed as an integral part of the plating line. The plating and wastewater treatment operations were discontinued in February 1991. The former plating room and the former wastewater treatment system were located at the south end of Building 1, which is located in the northwest quadrant of the facility. Several office and manufacturing buildings occupy the central and northern portions of the 11-acre facility and paved parking areas are located in the eastern and southern portions. The former plating room was approximately 66 feet by 26 feet and contained tanks for electroplating of nickel, cadmium, and chromium. There were additional tanks for cleaning and rinsing the surfaces of metal being plated. All storage tanks associated with the former plating operations were above ground and were removed in 1983 and during the plating room demolition in 1991 and 2001. The components of the wastewater treatment system have also been removed. In 2001, stained concrete and shallow soil were removed and clean fill soil was placed in the former plating room. The concentrations of cadmium in soil samples from beneath the former plating room are comparable to health risk screening criteria for industrial use of the property. Low concentrations of volatile organic compounds (VOCs) were detected in two soil samples collected in 2004. The draft Closure Plan for Former Plating Room and Wastewater Treatment System Areas, dated May 21, 2010, provides information about the facility and a plan for collection and analysis of soil and soil gas samples to determine VOC concentrations. Evaluation of the new VOC data in conjunction with

Site History: The Hydro-Aire facility is a subsidiary of Crane, a diversified manufacturer of engineered industrial products with operations worldwide. Hydro-Aire has been in operation at this location since

MAP FINDINGS

**CRANE CO. (Continued)**

**S102628781**

1946 (Hydro-Aire, 1987). Hydro-Aire manufactures aviation and aeronautical equipment at the site. The site encompasses approximately 11 acres in an industrial area of the City of Burbank (Figure 1). Kerr Canning Company used to occupy the site and the adjacent properties were used for agricultural purposes (grape growing). Pursuant to the California Environmental Quality Act (CEQA), the DTSC has prepared a Notice of Exemption (NOE) dated August 15, 2011, which concludes that the project will not have significant effect on the environment and a Land Use Covenant is to be recorded to restrict the property to current industrial/commercial use. Currently, several office and manufacturing buildings occupy the central and northern portions of the property, and paved parking areas are located in the eastern and southern portions of the site. The former plating room and the former wastewater treatment system were located at the south end of Building 1 (Figure 2). Hydro-Aire began electroplating operations at this location in 1951. In February 1985, an automated wastewater treatment system was installed as an integral part of the plating line (Hydro-Aire, 1986). The plating and wastewater treatment operations were discontinued in February 1991. Demolishing of the former plating room and wastewater treatment system components was conducted in 1991 and 2001. The California Regional Water Quality Control Board Los Angeles Region (RWQCB) has been the lead agency for the Hydro-Aire site investigation and remediation work since the 1980s. Significant investigation and remediation work at the site have been completed under the RWQCB s oversight including the former plating room assessments and soil remediation and groundwater monitoring. Concurrently with the RWQCB, the DTSC and City of Burbank have also provided oversight for this project. Detailed descriptions of the former plating room and operations have been provided in reports submitted to the Regional Board.

Site Name: CRANE HYDRO-AIRE  
Violation Date: 09-15-2022  
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11  
Violation Description: Failure to determine if the waste generated is a hazardous waste.  
Violation Notes: Returned to compliance on 10/18/2022. OBSERVATION: Owner/Operator failed to determine if the waste generated in the three storage tanks for the evaporator is a hazardous waste. No TPRH in the wastewater analysis. CORRECTIVE ACTION: Submit documentation to the CUPA indicating you have determined that the waste in question is hazardous or not and how this determination was made. i.e. Generator knowledge, lab analysis, etc. If determined to be hazardous waste then you must manage it as such. Specify how it is being managed in response documentation. Provide evaporator influent wastewater analysis for TPRH.

Citation: 22 CCR 15 66265.177 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.177  
Violation Description: Failure to separate incompatible wastes from the same container, nearby containers, or unwashed containers which previously contained incompatible waste or materials.  
Violation Notes: Returned to compliance on 10/18/2022. OBSERVATION: 55 gal drums of hazard class 3 and 8 located in the same hazardous waste containment bay are not compatible and were observed stored in a manner that could result a reaction. CORRECTIVE ACTION: Transfer or separate the containers of incompatible wastes noted above to other compatible containers or by separating containers to prevent a reaction and submit photos to the CUPA demonstrating compliance. Provide hazardous class segregation.

Waste Code:	D008
Waste Description:	Lead
Waste Code:	D009
Waste Description:	Mercury
Waste Code:	D011
Waste Description:	Silver
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	D039
Waste Description:	Tetrachloroethylene
Waste Code:	F001
Waste Description:	The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F002
Waste Description:	The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F005
Waste Description:	The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
