Monday – Friday, 7:30am – 4:00pm

Any call or email received after 4 PM is considered next day

TEMPORARY BIN RENTAL AGREEMENT

2 Cubic Yard Trash Bin
\$135.00 Per Week
\$135.00 Each Additional Pick Up
\$30.00 Per Skipped Week
\$16.85 Return Fee

3 Cubic Yard Trash Bin
\$165.00 Per Week
\$165.00 Each Additional Pick Up
\$30.00 Per Skipped Week
\$16.85 Return Fee

Rates may change by Council approval; you must have a BWP account to rent a Temp Bin.

A new rental agreement is required for each bin rental.

- Bin delivery is within one to three business days from the date of sign-up, and during sign-up, the first collection must be scheduled. The first collection must occur within 14 business days of the bin delivery. Bin removal may be one to three business days from date of removal request. Collections occur on the same regular trash collection day of automated carts. The weekly collection date may be changed by providing at least one business day advance notice; the first collection must still occur within 14 days of the bin delivery.
- Initial here: If it is determined by the solid waste supervisor that your property requires a hustler pull out service due to safety concerns for the drivers, then we will bill you \$15.31 each time the bin is serviced.
- Initial here:** ____ You are billed weekly for the rental, which includes initial delivery, weekly rental, weekly pickup/disposal of one load, and bin removal. Additional collections can be scheduled at the rates listed above. If the bin is not ready for pickup, you can request to skip a week at the rates listed above but you must give at least one business day advance notice of the skip. **You will be billed for each week regardless of whether the bin is full, blocked, overloaded, or you forgot to request a skip.**
- Initial here:** ____ For all collections, the bin must be kept on private property and be accessible at the edge of the driveway or alley between 7 am and 2:30 pm **regardless of where the bin is dropped off initially.** If the bin is not accessible, you will be charged the regular bin collection fee. To have the driver return for the pickup, you must call to reschedule the collection date and agree to the return fee.
- Initial here:** ____ 2 CUBIC YARD BIN: When disposing of dirt, rock, sand, and/or concrete, do not load the bin with more than twelve (12) inches of these heavy materials. The remainder of space may be filled with lighter materials such as lumber or household materials. Maximum weight 1,000 lbs.
- Initial here:** ____ 3 CUBIC YARD BIN: Only light materials may be placed in a 3 cubic yard dumpster. These items will not be accepted: dirt, rock, sand, concrete, or construction materials. Maximum weight 1,000lbs.
- No hazardous materials or liquids of any kind are accepted in the bin. Acids, Chemicals, Oils, Gasoline, Paint, Electronic Waste, Batteries, Light bulbs, Explosives, Tires, etc. are designated as hazardous material.
- Always use wheel locks to hold the bin in place. The lids of the bin must be closed flush with the bin and no material sticking out. Do not overload the bin.
- The City of Burbank is not responsible for damage caused to the placement surface by the bin or collection vehicle.
