

David A. Nos

Age: 61

Occupation: Business Owner

I have a history of close to 50 years of Community involvement. Involvement that has taken me through Youth Groups, the Chamber of Commerce, City appointed Boards and as an elected official on the Board of Education. I have been successful in all these areas because through my leadership skills and vision, I am able to bring new ideas to the table, build consensus within the group and turn these ideas into reality where they can be ongoing programs for now and the future.

It is my desire to take these skills to the City Council so that with my fellow Council members I can help Burbank remain the Great City that it is.

I bring: Leadership you can trust
Transparency in my thought processes and the ability to work effectively with all facets of the Community and Staff.

I have lived here most of my life, raised my family and have built and run my business here as well.

Please consider me as your candidate as I reach out to continue my service to the community.
