

For Member of School Board, David Dobson:

I am the parent of two children in Burbank schools. I'm the PTA President at Disney Elementary and the Treasurer at Jordan Middle School. I've also served on School Site Council and as Booster Treasurer at Disney and am currently on the Calendar Committee for the Burbank Unified School District. Why am I that involved? Because nothing's more important to our community than our children and our schools.

Our school district faces tough economic times. These aren't new problems, but clearly the old answers don't work. To forge new solutions requires someone who can work with all those who are involved: teachers, parents, principals and staff as well as the broader Burbank community and beyond. As an involved parent, an active member of the PTA, and a graduate of Leadership Burbank, I am someone who is passionate but open-minded, who listens before he talks, who cares deeply for our children and schools, and who is ready to do the hard work needed to bring people together around the solutions that are best for our kids and the community.

Together we can create the schools of the future. I ask you for your vote.
