

**FOR BURBANK CITY COUNCIL**

**DAVE GOLONSKI**

**Age: 54**

**Occupation: Burbank City Councilmember**

I'm proud to have represented you since I began combating uncontrolled growth in the 1990's. I'm seeking re-election because I believe Burbank is a great city with some significant challenges on the horizon.

Financially, we are in far better shape than most, but we have difficult work ahead. I have the knowledge and experience to make the decisions necessary to continue to deliver the great level of service we have become accustomed to. We need to invest more in our streets and parks. We must find these funds while maintaining a balanced budget with increasing pension costs. This is something we can and must accomplish and I am the only candidate that has a plan to tackle this issue.

You have come to expect well managed finances in Burbank and should accept no less now. We can protect our small town feel and keep the great programs that set Burbank apart from other cities. We can only do this with strong, independent and transparent leadership, which is what I have delivered as your representative. I ask for your support in this election.
